Directors' Report

Principal Activity and Review of Business

The principal activity of Lloyds TSB Life Assurance Company Limited ("the Company") is to transact ordinary long term life assurance, pension business and permanent health insurance.

With effect from 6 March 2000, the Company no longer sold its principal long term life assurance or pension business products.

Results and Dividend

The result for the year ended 31 December 2000 is a profit of £170,840,000 (1999: loss £16,544,000) and has been transferred to reserves. The Directors do not recommend the payment of any dividend for the period.

Directors

The names of the current Directors are listed on page 2. The Directors who held office during the period are:

C M Wiscarson	(resigned 03.03.2000)
C G Thomson	(appointed 27.04.2000, resigned 31.12.2000)
R J Spragg	(resigned 31.12.2000)
I D Thompson	
G Pigott	(resigned 04.10.2000)
D S Gorski	(resigned 04.02.2000)
T J Jones	(resigned 04.10.2000)
D J Stacey	(resigned 04.02.2000)
M R Poulding	(appointed 01.01.2001)
M L Sykes	(appointed 01.01.2001)

Particulars of the Directors' emoluments and interests in shares are given in note 8 to the accounts.

Employees

The Company is committed to employment policies which follow best practice, based on equal opportunities for all employees irrespective of sex, race, national origin, religion, colour, disability or marital status.

In the UK, the Company, as part of the Lloyds TSB Group, supports Opportunity Now and Race for Opportunity, campaigns to improve opportunities for women and ethnic minorities in the work place. The Group is a member of the Employers' Forum on Disability in support of employment of people with disabilities. This recognises the need for ensuring fair employment practices in recruitment and selection, and the retention and career development of disabled staff.

Employees are kept closely involved in major changes affecting them through such measures as team meetings, briefings, internal communications and opinion surveys. There are well established procedures, including regular meetings with recognised unions to ensure that the views of employees are taken into account in reaching decisions.

Profit sharing and share option schemes are available for most staff, to encourage their financial involvement in the Group.

Directors' Report (continued)

Euro

The Company has reviewed the implications of potential UK entry into the European single currency, and has concluded that the impact on the Company is currently minimal. This situation will continue to be reviewed in light of future Government developments.

Policy and practice of payment of creditors

The Company follows "The Better Payment Practice Code" published by the Department of Trade and Industry, regarding the making of payments to suppliers. A copy of the code and information about it may be obtained from the Department of Trade and Industry, No.1 Victoria Street, London, SW1H 0ET.

The Company's policy is to agree terms of payment with suppliers and these normally provide for settlement within 30 days after the date of the invoice, except where other arrangements have been negotiated. It is the policy of the Company to abide by the agreed terms of payment, provided the supplier performs according to the terms of the contract.

The number of days to be shown in this report, to comply with the provisions of the Companies Act 1985, is 23. This bears the same proportion to the number of days in the year as the aggregate of the amounts owed to trade creditors at 31 December 2000 bears to the aggregate of the amounts invoiced by suppliers during the year.

Auditors

The Company has dispensed with the requirement to re-appoint auditors on an annual basis pursuant to Section 379A of the Companies Act 1985. Annually, PricewaterhouseCoopers will be automatically re-appointed as auditors pursuant to Section 386 of the Companies Act 1985. PricewaterhouseCoopers have indicated their willingness to continue in office.

On behalf of the Board of Directors

A F Fletcher

Company secretary

XFletcher

23 March 2001

Statement of Directors' Responsibilities

Company law requires the Directors to have accounts prepared for each financial year which give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing those accounts the Directors are required to:

- select suitable accounting policies and apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the accounts;
- prepare the accounts on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for ensuring that proper accounting records are kept which disclose with reasonable accuracy at any time the financial position of the Company and that the accounts comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the Company and for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Report of the Auditors To the Members of Lloyds TSB Life Assurance Company Limited

We have audited the accounts on pages 7 to 25.

Respective Responsibilities of Directors and Auditors

The Directors are responsible for preparing the Annual Report. As described on page 5, this includes responsibility for preparing the accounts, in accordance with applicable United Kingdom accounting standards. Our responsibilities, as independent auditors, are established in the United Kingdom by statute, the Auditing Practice Board, and our profession's ethical guidance.

We report to you our opinion as to whether the accounts give a true and fair view and are properly prepared in accordance with the United Kingdom Companies Act. We also report to you if, in our opinion, the Directors' Report is not consistent with the accounts, if the Company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding Directors' remuneration and transactions is not disclosed.

Basis of audit opinion

We conducted our audit in accordance with Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the accounts. It also includes an assessment of the significant estimates and judgements made by the Directors in the preparation of the accounts, and of whether the accounting policies are appropriate to the Company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the accounts are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the accounts.

Opinion

In our opinion the accounts give a true and fair view of the state of the Company's affairs at 31 December 2000 and of its profit for the period then ended and have been properly prepared in accordance with the Companies Act 1985.

Approved by the Board on 23 March 2001

I D Thompson Director

Notes to the Accounts

1. Basis of preparation

The accounts have been prepared in accordance with section 255 and Schedule 9A of the Companies Act 1985 which covers the disclosures applicable to insurance companies. The accounts are prepared in accordance with applicable accounting standards and with the recommendations of the Association of British Insurers' Statement of Recommended Practice (SORP) on Accounting for Insurance Business issued in December 1998.

The true and fair override provisions of the Companies Act 1985 have been invoked in respect of investment properties. Under the Companies Act 1985, land and buildings are required to be depreciated over their expected useful economic lives. In respect of investment properties, this requirement conflicts with the generally accepted accounting principle set out in Statement of Standard Accounting Practice 19 (SSAP 19), that no depreciation should be provided in respect of such investments. The Directors consider that to depreciate investment properties would not give a true and fair view and accordingly the provisions of SSAP 19 have been adopted. Depreciation is only one of the factors reflected in the annual valuations and the amounts which might otherwise have been shown cannot reasonably be separately identified and quantified.

2. Accounting policies

a) Premiums

Premiums earned are accounted for in the year in which they fall due.

b) Investment income

Investment income is included on an accruals basis. UK dividend income is stated at net amount received.

c) Realised gains and losses on investments

Realised gains and losses on investments are calculated as the difference between net sales proceeds and the original costs.

d) Unrealised gains and losses on investments

Unrealised gains and losses on investments are calculated as the difference between the carrying valuation of investments at the Balance Sheet date and the original cost. Movements in unrealised gains and losses on investments arising in the year are shown in the Technical Account.

e) Claims incurred

Death claims and surrenders are recorded on the basis of notifications received. Maturities and annuity payments are recorded when due. Claims payable include direct costs of settlement. Reinsurance recoveries are accounted for in the same period as their related claims.

Notes to the Accounts (continued)

f) Deferred acquisition costs

The costs of acquiring new insurance contracts which are incurred during a financial period but which relate to subsequent financial periods, are deferred to the extent that they are recoverable out of future revenue margins. Such costs are disclosed as an asset in the Balance Sheet and are determined explicitly. The rate of change of the deferred acquisition cost asset is consistent with a prudent assessment of the expected pattern of receipt of the future revenue margins over the period the relevant contracts are expected to remain in force.

g) Fixed Assets

Expenditure on fixtures and fittings and computer equipment is capitalised and depreciated by equal annual instalments over the expected useful lives of the relevant assets, having regard to expected residual values.

The periods generally applicable are:

• Fixtures and fittings 10 - 15 years

Office equipment 5 yearsComputer equipment 6 years

h) Tax

Tax is charged on all taxable profits arising for the accounting period. Deferred taxation is calculated using the liability method but is provided only where the amount is likely to become payable on the foreseeable future. The taxation charge in the Non-technical Account is based on the taxable profit for the year. In the long term business Technical Account, the taxation charge is based on a method of assessing taxation for the long term fund. Any part of the balance on the long term business Technical Account that is computed on an after tax basis is grossed up at the effective rate of taxation in the Non-technical Account.

i) Long term reinsurance contracts

Long term business is ceded to reassurers under contracts to transfer part or all of one or more of the following risks: mortality, morbidity, investment, persistency and expenses. Such contracts are accounted for as insurance contracts.

i) Valuation of investments

Investments are stated at current value at the Balance Sheet date, calculated as follows:

- Freehold and leasehold properties are individually valued by external qualified surveyors on the basis of open market value, account being taken of the cost of disposal. The valuation is carried out on an annual basis:
- Listed securities are stated at middle market value;
- Unit trust units are stated at bid value;
- Short-term deposits are included at cost;

Notes to the Accounts (continued)

- Financial futures and option contracts are valued at market rates ruling at the Balance Sheet date and the gain or loss on these contracts is brought into the Technical Account;
- Other investments are stated at Directors' valuation having prudent regard to the likely realisable value.

k) Foreign currency translation

Assets and liabilities in foreign currencies are translated into sterling at the exchange rates ruling at the Balance Sheet date. Revenue transactions and those relating to the acquisition and realisation of investments have been translated at rates of exchange ruling at the time of the respective transactions.

l) Long term business provision

The long term business provision for the Company is determined on the basis of recognised actuarial methods.

It includes explicit provision for declared bonuses added up to and including the reporting date. Implicit provision is made for future bonuses through the choice of the valuation rates of interest.

m) Fund for future appropriations

The fund for future appropriations comprises amounts which have yet to be allocated to either participating policyholders or shareholders.

n) Cash Flow Statement

A cash flow statement has not been provided as the Company has taken advantage of the exemption contained in Financial Reporting Standard No 1 (Revised) "Cash Flow Statements" as consolidated accounts, in which the Company is included, are available (see note 29).

o) Pensions

Pension arrangement for the majority of staff are operated through defined benefits schemes. The assets of these schemes are held in separate trustee administered funds. The pension costs relating to these schemes are assessed in accordance with the advice of independent qualified actuaries, using the projected unit method. Variations from the regular cost are allocated over the remaining service life of current employees. Staff not included in defined benefit schemes are members of externally administered defined contribution schemes or are included in the State Pension Scheme.

Contributions to defined benefit schemes are charged to the profit and loss account so as to spread the expected cost of pensions calculated in accordance with actuarial advice on a systematic basis over employees' working lives.

Balance at 31 December 2000	58,600	1,292,951	9,731,326
Balance at 31 December 1999	66,547	1,418,231	11,099,845

19. Long term business provision

The principal assumptions underlying the calculation of the long term business provision were as follows:

Class of business	Interest rate %	
	2000	1999
With profit business:		
Endowment plus assurances	2.50	2.60
Other assurances	3.00	3.00
Non Profit Business:		
Life temporary assurances	3.20	3.20
Pension temporary assurances	4.00	4.00
Endowment assurances	3.20	3.20
Whole of life assurances	3.20	3.20
Guaranteed bonus bonds	5.40	5.80
Pension annuities in payment	4.96	4.91
Permanent health insurance claims in payment	4.94	5.00

Notes to the accounts (continued)

19. Long term business provision (continued)

The following mortality assumptions (for the main classes of business) are based on the actual experience of the portfolio as well as relevant industry statistics:

Assurances:

A67/70 ult for males with an addition of 20% to the mortality rate for smokers and a deduction of 10% for non-smokers. Females as for males

aged 3 years younger.

Pension annuities in payment:

100% PMA92 (entry in 2001) for males, 80% PFA92 (entry in 2001)

for females.

Full details are available in the annual returns made by the Company under the Insurance Companies Act 1982.

Cost of Bonuses

The cost of bonus declared for the year, including terminal bonus, totalled £1.1m.

			190,090	336,344

Notes to the accounts (continued)

22. Obligations under finance leases

The minimum finance lease payments to which the Company was committed at 31 December 2000 were as follows:

	2000 £000	1999 £000
Payable within one year Payable in the second to fifth years inclusive	<u>-</u>	449
Less finance charges allocated to future periods	-	(30)
		419

23. Long term business fund

At 31 December 2000 the total amount of assets representing the long term business fund valued in accordance with the provisions of Schedule 9A to the Companies Act 1985 was £11,221.8m (1999 £12,645.1m)

24. Contingent liabilities

The Company has contracted to underwrite new share issues, the contingent liability as at 31 December 2000 being £15,000.

25. Commitments

The Company had no capital commitments at the end of the financial year (1999: £895,000).

26. Pensions costs

The Company participates in the Loyds TSB Group Pension Scheme operated by Lloyds TSB Group plc. Details of the contributions across the group to the Lloyds TSB group Pension Scheme together with the last actuarial valuation can be found in the accounts of Lloyds TSB Group plc.

27. Derivative contracts

At 31 December 2000 the Company had entered into, in the normal course of business, option contracts, index futures contracts and forward foreign exchange contracts. All such contracts were undertaken for either hedging or efficient portfolio management purposes with the exception of certain contracts used for the purpose of matching contractual liabilities.

28. Related party transactions

Advantage has been taken of the exemption under Financial Reporting Standard 8 not to disclose transactions between entities, 90% or more of whose voting rights are controlled within the Lloyds TSB group, of which the Company is a member. No contract of significance existed at any time during the period in which a Director or key manager was materially interested or which requires disclosure as a related party transaction as defined under FRS 8 "Related Party Disclosures". There were no other material transactions by the Company with related parties for the period ended 31 December 2000.

Notes to the accounts (continued)

29. Parent undertaking

The Company's immediate parent undertaking is Lloyds TSB Financial Services Holdings plc, a Company registered in the United Kingdom. Lloyds TSB Financial Services Holdings has taken advantage of the Companies Act 1985 and has not produced consolidated accounts.

Lloyds TSB Group plc is regarded by the Directors as the ultimate parent company and ultimate controlling party of Lloyds TSB Life Assurance Company Limited. Copies of the Lloyds TSB Group plc accounts in which the Company is consolidated can be obtained from the Group Secretary's Department, Lloyds TSB Group plc, 71 Lombard Street, London, EC3P 3BS.
