1. General information

Southwark Investments Limited is a private company, limited by shares, registered in England and Wales, registration number 1167969. The registered office is disclosed on the company information page.

The principal place of business is Whitehill House, 2 Carnethie Street, Roswell, EH24 9EG.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

2.2 Going concern

The emergence and spread of COVID-19 in 2020 and the associated social distancing measures and imposed

travel restrictions have significantly impacted businesses globally. Whilst COVID-19 has impacted the

company, given the current uncertainties that exist regarding the duration and extent of the pandemic, at this

stage it is not possible to reliably forecast the extent of this impact.

In response to the pandemic and uncertainty, the directors has taken measures in order to safeguard cashflow, customers and supply chain that they believe should enable them to continue in operational existence. Therefore, it is the director's opinion that the going concern basis of preparation continues to be appropriate

2.3 Turnover

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and

the revenue can be reliably measured. Revenue is generated by the promotion of project development and design within the property market. The company also receives income from the rental and sale of property and is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

2.4 Foreign currency translation

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2019

2. Accounting policies (continued)

2.9 Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the Statement of Financial Position date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.
