Strategic report for the year ended 30 June 2023

The directors present their strategic report on Paul Smith Limited (the 'Company') for the financial year ended 30 June 2023.

Principal activity

Paul Smith is a global lifestyle brand designing men's, women's & children's clothing, accessories and shoes sold through E-commerce, retail, wholesale and licencing.

Review of the business

The directors consider the result for the year to be satisfactory. Turnover has increased to prepandemic levels, but the cost of doing business has increased as we continue to invest in growth through increased promotional activities. The business has recovered strongly, but in common with other retailers, continues to face challenges including the impact of rising inflation and low consumer confidence.

Turnover increased by 4% to £152,589,000 (2022: £146,898,000) with increases across all of our major channels. Gross margins were maintained as a result of higher volumes, stock efficiencies and a move back to our more traditional mix of product sales reflecting a return to tailoring. However, operating losses increased to £11,623,000 (2022: operating loss of £7,517,000) as a result of the impact of exceptional non-cash items, cost inflation and increased investment in promotional activity. Cash was absorbed by increased working capital balances, but we ended the year in a continuing strong cash position. Net assets at 30 June 2023 were £24,638,000 (2022: £40,684,000) reflecting the loss for the year after interest and taxation charges.

Retail and E-commerce

Retail sales for the year ended 30 June 2023 increased by 9% overall and 11% on a like-for-like basis, benefitting from a gradual increase in footfall, travel and commuting since the pandemic.

Retail sales for the Autumn Winter 2022 season were 16% up overall on the previous Autumn Winter season and 16% up on a like-for-like basis and 5% up on a like-for-like basis on Autumn Winter 2019 (pre pandemic). Retail sales for the Spring Summer 2023 season were 11% up on the previous year and 15% up on a like-for-like basis but also 16% up compared to Spring Summer 2019 (pre-pandemic).

We are seeing pleasing improvements in footfall and traffic with overall retail like-for-like sales for the Autumn Winter 2023 to date at 4% up on Autumn Winter 2022 but down 18% on pre-pandemic Autumn Winter 2019 levels on a like-for-like basis. Within this, E-commerce sales are 22% up on Autumn Winter 2022.

With all shops now open, direct E-commerce sales during the year represented 39% of our retail sales (2022: 42%) as sales in our physical shops increased at a higher rate than online. We have been pleased with our E-commerce performance especially compared to our competitors and we will continue to invest in our digital capability and digital marketing activity.

There are some very encouraging signs of growth, particularly in our tailoring categories and increasing footfall in some of our larger shops as customers return to city centres and airport shops as travel continues to improve.

Wholesale

Wholesale sales to franchise partners, leading department stores and selected multi-brand shops and online retailers throughout the world, increased by 0.7% to £83,825,000 (2022: £83,236,000).

We have continued to perform well in terms of deliveries and sell-through and our wholesale business has remained resilient during the year despite the challenges posed by prevailing market conditions particularly in the UK, our biggest market. In general, we remain cautious for the coming year as we know that our wholesale partners are managing their own stock levels and liquidity having found recovery slower than hoped.

Strategic report for the year ended 30 June 2023 (continued)

Review of the business (continued)

Licencing

We operate both territorial and product licences. Our territorial licences cover mainly Japan which are operated through licensed retail and wholesale operations. Our product licences cover eyewear, fragrance, rugs and other homeware and childrenswear. Licensing income was up 4% on the prior year at £8,698,000 (2022: £8,349,000) mainly as a result of a successful launch with our new eyewear partner.

Exceptional items

We recognised a net exceptional credit of £938,000 from intercompany related exceptional costs of £1,127,000 offset by a £2,065,000 gain on revaluation of investment property (2022: a net exceptional credit of £734,000 from exceptional costs of £723,000 offset by a £1,457,000 credit for reversal of impairments against intercompany loans). These items mainly represent non-cash expenses and credits.

Future developments

Whilst we continue to experience challenges in our market, we have returned to a trend of growth and will continue to seek to invest in further growth whilst carefully managing our costs and working capital. We continue to focus our major processes of design, production and promotion around the needs of our core customers. The business has continued to thrive across our retail channels and we are progressively increasing marketing expenditure to continue building brand awareness.

Principal risks and uncertainties

The directors consider the principal business risks of the business to be the global, economic and financial factors affecting the demand from our customers.

Geopolitical environment

The ongoing conflict in Ukraine has already had, and continues to have, a material impact on our wholesale business as well putting additional pressure on our costs base resulting from cost inflation. We continue to monitor all markets and customers with a heightened awareness and improved processes resulting from our experiences gained during the year.

Cost inflation

We continue to face an uncertain cost environment albeit that many of the cost increases have stabilised in the latter part of the year. Operating cost increases have been budgeted including energy costs, in line with our fixed energy contracts. We continue to manage overheads and review all costs and will continue to look for opportunities to improve our cost base resilience.

Global health crises

COVID-19 severely impacted the global economy and our business, particularly our retail stores but we have proved our resilience and we continue to work on providing a strong financial position in order to give us the confidence to tackle such challenges going forward. We will continue to appraise the ongoing situation and will work with our shareholders to ensure continued support as required in response to such events and risks.

Supply chain

Along with Brexit, the conflict in Ukraine posed logistical challenges around timely movement of goods and increased production and operating costs. We now operate a customs warehouse and utilise our European subsidiaries where possible and continue to challenge and seek all appropriate measures to minimise the negative impacts.

Strategic report for the year ended 30 June 2023 (continued)

Principal risks and uncertainties (continued)

Competition

We recognise the intense competition in our markets and the challenge to remain relevant, desirable and competitive. There are significant risks in establishing new shops and expanding into new markets, and the ability of our people and suppliers to provide consistent quality, supply and pricing. The Board continues to respond to these risks with a full review of customer profiling and subsequent focussed investment in promotional activity as appropriate to those customers.

Financial risk management

The principal financial risks are considered to be foreign exchange fluctuations and credit risk. The Board reviews and agrees policies for managing these risks on a regular basis.

Where appropriate the Company uses forward foreign exchange contracts to mitigate exchange risks. The most significant exposure to foreign exchange fluctuations relate to our Japanese Yen denominated loan within a parent company, sales receipts and purchases in foreign currencies. The Company's policy is to hedge substantially all the risks of such currency fluctuations by using forward contracts, after taking into account forecast foreign currency cash flows.

Credit risk is minimised, as far as possible, by the implementation of policies that require appropriate credit checks on potential customers prior to sales being made. The amount of exposure to any individual customer is subject to a limit, which is reassessed seasonally by management of the Group.

Price risk and liquidity risk are not considered to be significant risks to the business.

Key Performance Indicators

We analyse, monitor & react to our business performance using key performance indicators relevant to each of our distribution channels. Performance measures for our retail business include total and like-for like sales, footfall and gross retail margins. Wholesale performance measures include total sales and gross wholesale margins, licence income is measured through year on year revenue growth.

Key Performance Indicator	2023	2022	% change
Turnover	£152,589,000	£146,898,000	+3.9%
Including: Retail & E-commerce	£59,291,000	£54,300,000	+9.2%
Wholesale	£83,825,000	£83,236,000	+0.7%
Licensing	£8,698,000	£8,349,000	+4.2%
Like-for like Retail Sales	£58,387,000	£52,838,000	+10.5%
Like-for-Like footfall	2,555,000	2,306,000	+10.8%
Gross Profit	£61,000,000	£58,863,000	+3.6%
Operating loss	-£11,623,000	-£7,517,000	-54.6%
Operating loss before exceptional items	-£12,561,000	-£8,251,000	-52.2%
Exceptional (credit) items	-£938,000	-£734,000	+27.8%
Net Assets	£24,638,000	£40,684,000	-39.4%

Strategic report for the year ended 30 June 2023 (continued)

The Directors' duties and company stakeholders

The directors of the Company, as for all UK companies, must act in accordance with the general duties set out in section 172 of the Companies Act 2006. This is summarised as follows:

A director of a company must act in the way they consider, in good faith, would be most likely to promote the success of the company for the benefit of its members a whole, and in doing so have regard (amongst other matters) to:

- the likely consequences of any decision in the long term;
- · the interests of the company's employees;
- the need to foster the company's business relationships with suppliers, customers and others;
- the impact of the company's operations on the community and the environment;
- the desirability of the company maintaining a reputation for high standards of business conduct;
 and
- the need to act fairly as between members of the company.

Key decisions

The decision to open new and close or refit existing shops ensures that the company's resources are invested in profitable activities. The board considered and compared the likely profitability and other benefits of each existing and proposed shop location using trend analysis as well as other third-party market intelligence.

The decision to stop our indirect supply to Russia was made by the Board having considered our customers, staff and other stakeholders following the conflict in Ukraine. The company requested that the stores were closed having traded in Russia for many years successfully through an Italian distributor who had operated the franchise stores.

The company plans to launch several new licenses in the coming years. The board carefully considers the suitability of license partners, business plans and impact on the brand, seeking consensus from all key stakeholders.

The issue of new shares to existing shareholders in the parent company facilitated a strategy of increased investment in brand promotion that will continue into the coming year. The decision follows a significant exercise within the business in understanding our customers, market data and feedback. Shareholder approval was obtained by the board throughout the process.

Our employees

Employees are essential to the Company's interaction with other stakeholders and their commitment ensures successful trading and development of the business. We invest in employees through training, remuneration and appropriate incentive schemes.

Assessing the health and safety of employees continues to be paramount resulting in several initiatives continued or launched during the year including establishing general health, mental health and financial health and wellbeing groups regularly featured on the company intranet. We have also established a new charity & social committee during the year.

The Company provides employees with information on trading and other key developments and continued communication using our intranet, surveys, focus groups and working groups. Employees' views are taken into account when decisions are made which are likely to affect their interests.

We have developed our Ethnicity, Diversity and Inclusivity strategy with the aim of developing a diverse, healthy & prosperous working culture where everyone has the same opportunities, feels comfortable & where everyone has a voice. We employ over 40 different nationalities and we strive to ensure that our workforce is as diverse and multinational as our customer base.

The Company has continued to give full and fair consideration to applications for employment made by disabled persons, having regard to their respective aptitudes and abilities. The Company's policy includes the provision of suitable training & opportunities to promote the career development of people with disabilities, and where practicable, the continued employment of those who may become disabled during their employment.

The Company does not offer a share option scheme to its employees.

Strategic report for the year ended 30 June 2023 (continued)

Strategic decisions

The Company operates in a competitive market for both retail and wholesale income with changes in distribution channels occurring over time and as a consequence of Brexit, the pandemic and more recent geo-political factors and inflationary pressures. This has required continuing review and enhancement of marketing, investment in technology, supply chain and distribution to maintain revenue and profitability whilst engaging and communicating with all stakeholders including suppliers, customers and employees.

The Company has continued to invest in its digital offering whilst reviewing the feasibility of each shop in the light of reduced footfall and future prospects given the current trading conditions.

Business relationships

Customer relationships and high standards of service are key to maintaining and growing the Company's business. The Company has a wide customer base across a broad geographical range and seeks to provide the right products each season to attract customers and enhance the brand. Ongoing communication occurs through the Company's websites, own retail shops and sales teams for all wholesale customers including franchise partners, department stores, online retailers and independent boutiques.

Suppliers are fundamental to the business in respect of providing ethically sourced and a high quality range of products and in ensuring that the supply and quality of clothing to be sold is maintained. There is regular communication with major suppliers and agreements in place to incentivise mutually beneficial relationships between suppliers and the Company and the Company policy is to consistently meet payment terms.

Community and environment

The Company both promotes and encourages engagement with and employee involvement in community and charitable projects including its support of the Paul Smith's Foundation, a registered charity which launched its own website in October 2020.

The Company is committed to constantly reassess the part it plays in creating a more sustainable fashion industry and maintaining a sustainable approach across all aspects of the business. This includes the practices within our international headquarters, our manufacturing processes and the distribution and delivery of our products to the customer. Our Path to Sustainability launched in March 2021 and lays out a comprehensive set of targets, concentrating on four key areas: Responsible Sourcing; Community Care; Reducing Emissions; and Increased Circularity.

Standards and values

The directors recognise the importance of a positive culture within, and created by, the business. The Company aims to delight customers and provide a positive contribution to the world, our shareholders, staff, suppliers and customers.

Shareholders

The shareholders are directly represented on the group board and have oversight of the operational information, annual plans, initiatives and longer term strategy. This has resulted in the support from our shareholders in the form of loans and share issues following the impact on trade and cashflow of the pandemic.

On behalf of the Board

A J S Long Director

November 2023

Directors' report for the year ended 30 June 2023

The directors present their Directors' report with the audited financial statements of the Company for the financial year ended 30 June 2023.

Results and dividends

The Company's loss for the financial year was £15,631,000 (2022: loss of £8,095,000). Dividends of £nil have been paid in the year (2022: £nil).

Strategic report

The following items have been included within the strategic report on pages 1 to 5:

- Principal activities
- Business review
- Future developments
- Key performance indicators
- · Principal risks and uncertainties and financial risk management
- Engagement with employees
- Engagement with suppliers, customers and others

The Company's disclosures with regards to Streamlined Energy and Carbon Reporting ("SECR") are included in Paul Smith Group Holdings Limited financial statements.

Branches outside the UK

The Company includes branches outside the UK in France, Italy and Japan.

Going concern

The Company is part of a larger group, headed by Paul Smith Group Holdings Limited and the Company is reliant on the Group's cash and bank loans. Paul Smith Group Holdings Limited has confirmed its intention to provide continuing financial support to enable the Company to settle its liabilities as they fall due. The Company has reported a loss of £15,631,000 for the year to 30 June 2023 (2022: £8,095,000), net assets of £24,638,000 (2022: £40,684,000) and net current liabilities of £24,661,000 (2022 net current liabilities of £5,326,000). In September 2020, the Group entered into an agreement with its shareholders under which a net £44m of funding was received by the Group. The amount is not repayable before 2025.

As at the date of approval of these financial statements, the Group has total cash balances, including term deposits of £23,244,000 and total bank loans of £12,939,000. The bank loans are subject to continued compliance with both financial and administrative covenants.

In light of the continuing economic uncertainties caused by the impacts of cost inflation, the Directors have reviewed the current financial performance and liquidity of the business, and assessed its resilience to a number of scenarios. The Group has modelled a Base Case forecast alongside Severe downside scenarios based on what would need to be true to seriously threaten group cash reserves over an assessment period of 18 months from the date of approval of these financial statements. This would likely be as a result of market forces impacting footfall and consumer spend as well as scenarios around increased operating costs as a result of further cost inflation.

The Base Case forecast includes prudent growth assumptions, factoring a continued challenge to physical retail, wholesale and licence channels, but with a continued growth in online sales based on recent trends. This scenario also though assumes an increased level of promotional spend to fuel a quicker and more sustainable return to sales and profit growth.

Directors' report for the year ended 30 June 2023 (continued)

Going concern (continued)

The Base Case scenario assumes an overall 3% increase in FY24 sales when compared to FY23 and a 11% increase in FY25 compared to FY23. When compared to FY19 (pre-pandemic), this equates to a 5% increase in FY24 and a 14% increase in FY25. By sales channel this equates to a 6% increase in overall Retail sales in FY24 when compared to FY19 levels and a 14% increase compared to FY19 retail sales levels by FY25. Whilst E-Commerce sales are assumed to grow by 76% in FY24 when compared to FY19 (having increased every year since FY19), physical retail is assumed to decrease by 14%. Wholesale sales are assumed to increase by 3% in FY24 compared to FY19.

The Severe downside scenario includes significant reductions against FY24 Base Case trade assumptions. This scenario assumes that retail sales do not recover as quickly as expected, mainly due to reductions in consumer spending and results in -46% (£34m) annual retail sales in FY24.

In addition, a significant increase in cost of sales due to the increased materials, pay and production costs and the additional costs and delays in air and sea freight, have been included. We have assumed that these extra costs could not be recovered through increased sales price, and would result in a £37.1m reduction in Gross Margin in FY24 and FY25.

Under both scenarios, the company executes existing plans to sell investment properties not occupied by the company as well as further cash raising initiatives during FY24.

As part of the going concern assessment, the directors have also considered mitigating actions which may be taken to protect liquidity in the event that trading is worse than the Base Case scenario. These include but are not limited to further shareholder capital injection, capital investment restrictions, cost reduction measures and disposal of property or other assets.

The Group continues to monitor and manage the direct and indirect impact of the conflict in Ukraine and Russia as well as the Situation in the Middle East.

As part of the going concern assessment, the Group has modelled both cash and covenant headroom over the next 12 months. Under both the Base Case and Severe downside scenarios, the Group would have adequate cash headroom without the need for additional financing.

As sufficient cash headroom exists during the 12 month going concern period, the Directors believe there is a reasonable expectation that the group has adequate liquidity headroom and so they continue to adopt the going concern basis in preparing the financial statements.

Political donations

During the year the Company made no donations (2022: £nil) to any political party.

Directors

The directors who served during the year and up to the date of signing the financial statements of Paul Smith Limited were as follows:

P B Smith A J S Long

G A Chilton

Details of related party transactions involving directors of the group are given in note 23 to the financial statements.

Indemnity provision

As permitted by the Articles of Association, the directors have the benefit of an indemnity which is a qualifying third party indemnity provision as defined by section 234 of the Companies Act 2006. The indemnity was in force throughout the last financial year and is currently in force.

Directors' report for the year ended 30 June 2023 (continued)

Statement of directors' responsibilities

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under Company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable United Kingdom Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Statement of disclosure of information to auditors

Abradentic

Each of the persons who is a director at the date of approval of this report confirms that:

- so far as each director is aware, there is no relevant audit information of which the company's auditors are unaware; and
- each director has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Independent auditors

BDO LLP continue in office under section 487 of the Companies Act 2006.

On behalf of the Board

A J S Long Director

November 2023

Independent auditor's report to the members of Paul Smith Limited

Opinion on the financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 30 June 2023 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements of Paul Smith Limited ("the Company") for the year ended 30 June 2023 which comprise the Statement of comprehensive income, the Balance Sheet, the Statement of changes in equity and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Directors with respect to going concern are described in the relevant sections of this report.

Other information

The directors are responsible for the other information. The other information comprises the information included in the Annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Other Companies Act 2006 reporting

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic report and the Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic report and the Directors' report have been prepared in accordance with applicable legal requirements.

Independent auditor's report to the members of Paul Smith Limited (continued)

Other Companies Act 2006 reporting (continued)

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic report or the Directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of Directors

As explained more fully in the Statement of Directors' Responsibilities, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Extent to which the audit was capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

Non-compliance with laws and regulations

Based on:

- Our understanding of the Company and the industry in which it operates;
- Discussion with management and those charged with governance; and
- Obtaining and understanding of the Company's policies and procedures regarding compliance with laws and regulations;

we considered the significant laws and regulations to be compliance with UK Accounting Standards, the Companies Act 2006, corporate taxes, VAT and employment taxes legislation.

The Company is also subject to laws and regulations where the consequence of non-compliance could have a material effect on the amount or disclosures in the financial statements, for example through the imposition of fines or litigations. We identified such laws and regulations to be health and safety legislation, sale of goods legislation, intellectual property legislation and the Bribery Act 2010.

Our procedures in respect of the above included:

- Review of minutes of meeting of those charged with governance for any instances of non-compliance with laws and regulations;
- Review of correspondence with tax authorities for any instances of non-compliance with laws and regulations;
- Review of financial statement disclosures and agreeing to supporting documentation;
- · Involvement of tax specialists in the audit; and
- Review of legal expenditure accounts to understand the nature of expenditure incurred.

Independent auditor's report to the members of Paul Smith Limited (continued)

Auditor's responsibilities for the audit of the financial statements (continued)

Fraud

We assessed the susceptibility of the financial statements to material misstatement, including fraud. Our risk assessment procedures included:

- Enquiry with management and those charged with governance regarding any known or suspected instances of fraud;
- Obtaining an understanding of the Company's policies and procedures relating to:
 - o Detecting and responding to the risks of fraud; and
 - o Internal controls established to mitigate risks related to fraud.
- Review of minutes of meeting of those charged with governance for any known or suspected instances
 of fraud:
- Discussion amongst the engagement team as to how and where fraud might occur in the financial statements; and
- Performing analytical procedures to identify any unusual or unexpected relationships that may indicate
 risks of material misstatement due to fraud.

Based on our risk assessment, we considered the areas most susceptible to fraud to be revenue and significant accounting estimates.

Our procedures in respect of the above included:

- Testing a sample of journal entries throughout the year, which met a defined risk criteria, including
 manual journals posted to revenue, by agreeing to supporting documentation to check they were
 appropriate, correctly recorded and supported by appropriate evidence; and
- · Assessing significant estimates made by management for bias.

We also communicated relevant identified laws and regulations and potential fraud risks to all engagement team members who were all deemed to have appropriate competence and capabilities and remained alert to any indications of fraud or non-compliance with laws and regulations throughout the audit.

Our audit procedures were designed to respond to risks of material misstatement in the financial statements, recognising that the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery, misrepresentations or through collusion. There are inherent limitations in the audit procedures performed and the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely we are to become aware of it.

A further description of our responsibilities is available on the Financial Reporting Council's website at: https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

The notes on pages 15 to 39 form part of these financial statements.

Notes to the financial statements for the year ended 30 June 2023

1. General information

Paul Smith Limited is a private company limited by shares and it is incorporated and registered in the United Kingdom. The address of its registered office is The Poplars, Lenton Lane, Nottingham, NG7 2PW

Paul Smith designs men's, women's and children's clothing, related accessories and other items that are sold through three main distribution channels: retail through own shops and e-commerce; wholesale; and licensing, which includes territorial and product licences.

2. Statement of compliance

The individual financial statements of Paul Smith Limited have been prepared in compliance with United Kingdom Accounting Standards, including Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS 102") and the Companies Act 2006.

3. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

a) Basis of preparation

These financial statements are prepared on a going concern basis, under the historical cost convention, as modified by the revaluation of land and buildings and certain assets and liabilities measured at fair value through profit and loss.

The preparation of financial statements in conformity with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 3(u).

b) Going concern

The Company is part of a larger group, headed by Paul Smith Group Holdings Limited and the Company is reliant on the Group's cash and bank loans. Paul Smith Group Holdings Limited has confirmed its intention to provide continuing financial support to enable the Company to settle its liabilities as they fall due. The Company has reported a loss of £15,631,000 for the year to 30 June 2023 (2022: £8,095,000), net assets of £24,638,000 (2022: £40,684,000) and net current liabilities of £24,661,000 (2022 net current liabilities of £5,326,000). In September 2020, the Group entered into an agreement with its shareholders under which a net £44m of funding was received by the Group. The amount is not repayable before 2025.

As at the date of approval of these financial statements, the Group has total cash balances, including term deposits of £23,244,000 and total bank loans of £12,939,000. The bank loans are subject to continued compliance with both financial and administrative covenants.

In light of the continuing economic uncertainties caused by the impacts of cost inflation, the Directors have reviewed the current financial performance and liquidity of the business, and assessed its resilience to a number of scenarios. The Group has modelled a Base Case forecast alongside Severe downside scenarios based on what would need to be true to seriously threaten group cash reserves over an assessment period of 18 months from the date of approval of these financial statements. This would likely be as a result of market forces impacting footfall and consumer spend as well as scenarios around increased operating costs as a result of further cost inflation.

The Base Case forecast includes prudent growth assumptions, factoring a continued challenge to physical retail, wholesale and licence channels, but with a continued growth in online sales based on recent trends. This scenario also though assumes an increased level of promotional spend to fuel a quicker and more sustainable return to sales and profit growth.

Notes to the financial statements for the year ended 30 June 2023 (continued)

3. Summary of significant accounting policies (continued)

b) Going concern (continued)

The Base Case scenario assumes an overall 3% increase in FY24 sales when compared to FY23 and a 11% increase in FY25 compared to FY23. When compared to FY19 (pre-pandemic), this equates to a 5% increase in FY24 and a 14% increase in FY25. By sales channel this equates to a 6% increase in overall Retail sales in FY24 when compared to FY19 levels and a 14% increase compared to FY19 retail sales levels by FY25. Whilst E-Commerce sales are assumed to grow by 76% in FY24 when compared to FY19 (having increased every year since FY19), physical retail is assumed to decrease by 14%. Wholesale sales are assumed to increase by 3% in FY24 compared to FY19.

The Severe downside scenario includes significant reductions against FY24 Base Case trade assumptions. This scenario assumes that retail sales do not recover as quickly as expected, mainly due to reductions in consumer spending and results in -46% (£34m) annual retail sales in FY24.

In addition, a significant increase in cost of sales due to the increased materials, pay and production costs and the additional costs and delays in air and sea freight, have been included. We have assumed that these extra costs could not be recovered through increased sales price, and would result in a £37.1m reduction in Gross Margin in FY24 and FY25.

Under both scenarios, the company executes existing plans to sell investment properties not occupied by the company as well as further cash raising initiatives during FY24.

As part of the going concern assessment, the directors have also considered mitigating actions which may be taken to protect liquidity in the event that trading is worse than the Base Case scenario. These include but are not limited to further shareholder capital injection, capital investment restrictions, cost reduction measures and disposal of property or other assets.

The Group continues to monitor and manage the direct and indirect impact of the conflict in Ukraine and Russia as well as the Situation in the Middle East.

As part of the going concern assessment, the Group has modelled both cash and covenant headroom over the next 12 months. Under both the Base Case and Severe downside scenarios, the Group would have adequate cash headroom without the need for additional financing.

As sufficient cash headroom exists during the 12 month going concern period, the Directors believe there is a reasonable expectation that the group has adequate liquidity headroom and so they continue to adopt the going concern basis in preparing the financial statements.

c) Exemption for qualifying entities under FRS 102

FRS 102 allows a qualifying entity certain disclosure exemptions, if certain conditions, have been complied with, including no objection to the use of exemptions by the Company's shareholders. A qualifying entity is defined as a member of a group that prepares publicly available financial statements, which give a true and fair view, in which that member is consolidated. The Company is a qualifying entity as its results are consolidated into the financial statements of Paul Smith Group Holdings Limited which are publicly available.

Notes to the financial statements for the year ended 30 June 2023 (continued)

3. Summary of significant accounting policies (continued)

c) Exemption for qualifying entities under FRS 102 (continued)

As a qualifying entity, the Company has taken advantage of the following exemptions:

- i) from the requirement to prepare a statement of cash flows as required by paragraph 3.17(d) of FRS 102;
- ii) from the requirement to present certain financial instrument disclosures, as required by sections 11 and 12 of FRS 102;
- iii) from the requirement to present a reconciliation of the number of shares outstanding at the beginning and end of the period as required by paragraph 4.12(a)(iv) of FRS 102; and
- iv) from the requirement to disclose the key management personnel compensation in total as required by paragraph 33.7 of FRS 102.

d) Basis of consolidation

The Company is a wholly owned subsidiary of Paul Smith (Holdings) Limited, and is included in the consolidated financial statements of Paul Smith Group Holdings Limited, which are publicly available. Consequently, the Company has taken advantage of the exemption from preparing consolidated financial statements under the terms of section 400 of the Companies Act 2006.

These financial statements are the Company's separate financial statements.

e) Foreign currency

i) Functional and presentation currency

The Company's functional and presentation currency is pounds sterling.

ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income.

Foreign exchange gains and losses are presented in the statement of comprehensive income within operating expenses.

f) Turnover

Revenue is measured at the fair value of the consideration received or receivable and represents the amount receivable for goods or services supplied, net of returns, discounts and rebates allowed by the company and value added taxes.

The company bases its estimate of returns on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Notes to the financial statements for the year ended 30 June 2023 (continued)

3. Summary of significant accounting policies (continued)

f) Turnover (continued)

The company recognises revenue when (a) the significant risks and rewards of ownership have been transferred to the buyer; (b) the company retains no continuing involvement or control over the goods; (c) the amount of revenue can be measured reliably; (d) it is probable that future economic benefits will flow to the entity and (e) when the specific criteria relating to each of the company's sales channels have been met, as described below.

(i) Sale of goods - wholesale

The company manufactures and sells men's, women's and children's clothing and related accessories within the wholesale market. Sales of goods are recognised on delivery to the wholesaler, when the wholesaler has full discretion over the channel and price to sell the product and there is no unfulfilled obligation that could affect the wholesaler's acceptance of the product. Delivery occurs when the goods have been shipped to the location specified by the wholesaler, the wholesaler has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed or the company has objective evidence that all criteria for acceptance have been satisfied.

Goods sold to wholesalers are sold with the provision for the wholesale customer to return faulty goods. Accumulated experience is used to estimate and provide for discounts and returns.

(ii) Sale of goods - retail and retail e-commerce

The company operates retail shops for the sale of men's, women's and children's clothing and related accessories. Sales of goods are recognised on sale to the customer, which is considered the point of delivery. Retail sales are usually by cash, credit or payment card.

Sales are made to retail customers with a right to return within a set period, subject to certain conditions regarding the usage. Accumulated experience is used to estimate and provide for such returns at the time of sale.

The company sells goods via its website for delivery to the customer. Revenue is recognised when the risk and rewards of the inventory is passed to the customer. For deliveries to the customer this is the point of acceptance of the goods by the customer. Transactions are settled by credit or payment card.

Provision is made for credit notes based on the expected level of returns which is based on the historical experience of returns.

(iii) Licencing income

The company earns licence income from other manufacturers in relation to the sale of products designed by the company. Licence income, including advertising income, is recognised on an accruals basis in accordance with the substance of the relevant agreement.

(iv) Other income

Other income is recognised when the right to receive payment is established. Income in respect of government grants including furlough related amounts is recognised in other operating income when the grant proceeds are received (or receivable) provided that the terms of the grant do not impose future performance-related conditions.

g) Exceptional items

The Company classifies charges or credits that have a significant impact on the Company's financial results, due to their nature or for the infrequency of the events giving rise to them, as 'exceptional items'. These are disclosed separately to provide further understanding of the financial performance of the Company.

Notes to the financial statements for the year ended 30 June 2023 (continued)

3. Summary of significant accounting policies (continued)

h) Employee benefits

The Company provides a range of benefits to employees, including paid holiday arrangements and defined contribution pension plans.

(i) Short term benefits

Short term benefits, including holiday pay and other similar non-monetary benefits are recognised as an expense in the period in which the service is received.

(ii) Defined contribution pension plans

The Company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the Company pays fixed contributions into a separate entity. Once the contributions have been paid the Company has no further payment obligations. The contributions are recognized as an expense when they are due. Amounts not paid are shown in accruals in the statement of financial position. The assets of the plan are held separately from the Company in independently administered funds.

i) Taxation

Taxation expense for the period comprises current and deferred tax recognised in the reporting period. Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case tax is also recognised in other comprehensive income or directly in equity respectively.

Current or deferred taxation assets and liabilities are not discounted.

(i) Current tax

Current tax is the amount of income tax payable in respect of the taxable profit for the year or prior years. Tax is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the period end.

(ii) Deferred tax

Deferred tax arises from timing differences that are differences between taxable profits and total comprehensive income as stated in the financial statements. These timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements.

Deferred tax is recognised on all timing differences at the reporting date except for certain exceptions. Unrelieved tax losses and other deferred tax assets are only recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the period end and that are expected to apply to the reversal of the timing difference.

j) Intangible assets

Intangible assets are stated at cost less accumulated amortisation. Amortisation is calculated, using the straight-line method, to allocate the depreciable amount of the assets to their residual values over their estimated useful lives.

Intangible fixed assets represent software costs. Software costs are amortised over their estimated useful lives of 5 years. Amortisation is charged to operating expenses within the statement of comprehensive income.

Costs associated with maintaining computer software are recognised as an expense as incurred.

Notes to the financial statements for the year ended 30 June 2023 (continued)

3. Summary of significant accounting policies (continued)

j) Intangible assets (continued)

Where factors, such as technological advancement or changes in market price, indicate that residual value or useful life have changed, the residual value, useful life or amortisation rate are amended prospectively to reflect the new circumstances. The assets are reviewed for impairment if the above factors indicate that the carrying amount may be impaired.

k) Tangible assets

Tangible assets are stated at historic purchase cost less accumulated depreciation and accumulated impairment losses. Cost includes the original purchase price of the asset and the cost attributable to bringing the asset to its working condition for its intended use.

Other than freehold land and investment property which are not depreciated, tangible assets are depreciated over their estimated useful lives at the following straight line rates:

Freehold property - 2% to 4% per annum - over period of the lease Leasehold improvements - over period of the lease

Fixtures and fittings - 10% to 20% per annum on costs

Motor vehicles - 25% per annum on cost

Computers & Software - 20% to 33% per annum on cost

The assets' residual values and useful lives are reviewed, and adjusted, if appropriate, at the end of each reporting period. The effect of any change is accounted for prospectively.

Repairs, maintenance and minor inspection costs are expensed as incurred.

Tangible assets are derecognised on disposal or when no future economic benefits are expected. On disposal, the difference between the net disposal proceeds and the carrying amount is recognised in profit or loss and included in operating expenses.

Investment properties owned by the company are held to generate rental income or long term capital appreciation, or both. They are initially recognised at cost which includes purchase cost and any directly attributable expenditure. Where the fair value can be measured reliably the properties are carried at fair value, with changes in fair value being recognised within administrative expenses in the income statement.

Investment properties are assessed annually to ensure they are held at fair value. The company obtains a RICS valuation at least every 3 years, with market valuations obtained for the intervening periods to ensure the investment properties are held at fair value at each reporting period. Changes in the fair value of the investment property are recognised within administrative expenses in the income statement. The valuations for each year have been performed by an external and independent valuer.

Leased assets

At inception the Company assesses agreements that transfer the right to use assets. The assessment considers whether the arrangement is, or contains, a lease based on the substance of the arrangement.

(i) Finance leased assets

Leases of assets that transfer substantially all the risks and rewards incidental to ownership are classified as finance leases.

(ii) Operating leases

Leases that do not transfer all the risks and rewards of ownership are classified as operating leases. Operating lease costs are charged to the statement of comprehensive income in equal amounts over the period of the lease.

Notes to the financial statements for the year ended 30 June 2023 (continued)

3. Summary of significant accounting policies (continued)

I) Leased assets (continued)

(iii) Lease incentives

Incentives received to enter into an operating lease are credited to the income statement, to reduce the lease expense, on a straight-line basis over the period of the lease.

During a prior year, the Company received rent concessions in connection with the Covid-19 pandemic on a number of leased properties. In accordance with the amendment to FRS 102 the company recognised the change in lease payments over the period that the change was intended to compensate where the following conditions were met:

- the change in lease payments results in revised consideration for the lease that is less than the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments originally due on or before 30 June 2021; and
- there is no significant change to other terms and conditions of the lease.

m) Impairment of non-financial assets

At each balance sheet date non-financial assets not carried at fair value are assessed to determine whether there is an indication that the asset may be impaired. If there is such an indication the recoverable amount of the asset is compared to the carrying amount of the asset.

The recoverable amount of the asset is the higher of the fair value less costs to sell and value in use. Value in use is defined as the present value of the future pre-tax and interest cash flows obtainable as a result of the asset's continued use. The pre-tax and interest cash flows are discounted using a pre-tax discount rate that represents the current market risk-free rate and the risks inherent in the asset.

If the recoverable amount of the asset is estimated to be lower than the carrying amount, the carrying amount is reduced to its recoverable amount. An impairment loss is recognised within operating expenses in the income statement unless the asset has been revalued when the amount is recognised in other comprehensive income to the extent of any previously recognised revaluation. Thereafter any excess is recognised in profit or loss.

If an impairment loss is subsequently reversed, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but only to the extent that the revised carrying amount does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised in prior periods. A reversal of an impairment loss is recognised in the income statement.

n) Investments

Investment in subsidiary company is held at cost less accumulated impairment losses.

Notes to the financial statements for the year ended 30 June 2023 (continued)

3. Summary of significant accounting policies (continued)

o) Stocks

Stocks are valued at the lower of historical cost and estimated selling price less costs to complete and sell. Stocks are recognised as an expense in the period in which the related revenue is recognised. Cost is determined on the first-in, first-out (FIFO) method. Cost includes the purchase price, including taxes and duties and transport and handling directly attributable to bringing the inventory to its present location and condition. The cost of manufactured finished goods and work in progress includes raw materials, direct labour and other direct costs and related production overheads (based on normal operating capacity).

At the end of each reporting period stocks are assessed for impairment. If an item of stock is impaired, the identified stock is reduced to its selling price less costs to complete and sell and an impairment charge is recognised within Cost of sales in the statement of comprehensive income. Where a reversal of the impairment is recognised the impairment charge is reversed, up to the original impairment loss, and is recognised as a credit in the statement of comprehensive income.

p) Cash at bank and in hand

Cash at bank and in hand includes cash in hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of three months or less.

Any accounts which cannot be considered cash at bank and in hand due to the timeframe required to access the funds are included within current asset investments.

q) Financial instruments

The company has chosen to adopt sections 11 and 12 of FRS 102 in respect of financial instruments.

(i) Financial assets

Basic financial assets, including trade and other receivables and cash and bank balances, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

Such assets are subsequently carried at amortised cost using the effective interest method where applicable.

At the end of each reporting period financial assets measured at amortised cost are assessed for objective evidence of impairment. If an asset is impaired the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in the statement of comprehensive income.

If there is decrease in the impairment loss arising from an event occurring after the impairment was recognised the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been had the impairment not previously been recognised. The impairment reversal is recognised in the statement of comprehensive income.

Other financial assets are initially measured at fair value, which is normally the transaction price.

Such assets are subsequently carried at fair value and the changes in fair value are recognised in statement of comprehensive income.

Financial assets are derecognised when (i) the contractual rights to the cash flows from the asset expire or are settled, or (ii) substantially all the risks and rewards of the ownership of the asset are transferred to another party or (iii) despite having retained some significant risks and rewards of ownership, control of the asset has been transferred to another party who has the practical ability to unilaterally sell the asset to an unrelated third party without imposing additional restrictions.

Notes to the financial statements for the year ended 30 June 2023 (continued)

3. Summary of significant accounting policies (continued)

q) Financial instruments (continued)

(ii) Financial liabilities

Basic financial liabilities, including trade and other payables and loans from fellow group companies are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

Derivatives, which include forward foreign exchange contracts, are not basic financial instruments.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. Changes in the fair value of derivatives are recognised in the statement of comprehensive income, unless they are included in a hedging arrangement.

Financial liabilities are derecognised when the liability is extinguished, that is when the contractual obligation is discharged, cancelled or expires.

(iii) Offsetting

Financial assets and liabilities are offset and the net amount presented in the financial statements when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

(iv) Hedging arrangements

The company applies hedge accounting in respect of forward foreign exchange contracts held to manage receipt of licence income denominated in foreign currencies and future cash outflow exposures denominated in foreign currencies. Changes in fair values of derivatives designated as cash flow hedges and which are effective, are recognised directly in equity. Any ineffectiveness in the hedging relationship (being the excess of the cumulative change in fair value of the hedging instrument since inception of the hedge over the cumulative change in fair value of the hedged item since inception of the hedge) is recognised in the statement of comprehensive income.

The gain or loss recognised in other comprehensive income is reclassified to revenue or costs in line with the hedged transactions in the income statement when the hedge relationship ends. Hedge accounting is discontinued when the hedging instruments expires, no longer meets the hedging criteria, the forecast transaction is no longer highly probable, the hedged debt instrument is derecognised or the hedging instrument is terminated.

r) Dividends

Final dividends are recognised when approved by the shareholders. Interim dividends are recognised when paid. These amounts are recognised in the statement of changes in equity.

s) Related party transactions

The Company has taken advantage of the exemption, as provided by paragraph 33.1A of FRS 102 and does not disclose transactions with members of the same group that are wholly owned. The Company discloses transactions with related parties which are not wholly owned within the same group.

Notes to the financial statements for the year ended 30 June 2023 (continued)

3. Summary of significant accounting policies (continued)

t) Provisions

A provision is recognised if, as a result of a past event, the company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the provision. Details of provisions recognised and the estimates and judgements can be seen in note 18.

u) Critical accounting judgements and key sources of estimation uncertainty

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

- Useful economic lives of tangible and intangible assets

The annual depreciation / amortisation charge for tangible / intangible assets is sensitive to changes in the estimated useful economic lives and residual values of the assets. The useful economic lives and residual values are re-assessed annually. They are amended when necessary to reflect current estimates, based on technological advancement, future investments, economic utilisation and the physical condition of the assets. See notes 11 and 12 for the carrying amount of the tangible and intangible assets and note 3(j) and 3(k) for the useful economic lives for each class of assets.

Inventory provision

The company designs, manufactures and sells men's, women's and children's clothing and other accessories subject to changing fashion trends. As a result it is necessary to consider the recoverability of the costs of inventory and the associated provisioning required. When calculating the inventory provision, management considers the nature and condition of the inventory, as well as applying assumptions around anticipated saleability of finished goods and future usage of raw materials. See note 15 for the net carrying amount of the inventory and associated provision.

Investment property valuation

The company uses the valuations performed by an external valuer, as the basis for the fair value of its investment property. The valuation of the company's property is inherently subjective due to, among other factors, the individual nature of the property, its location and the expected future rental income. As a result, the valuations the company places on its property are subject to a degree of uncertainty and are made on the basis of assumptions which may not prove to be accurate, particularly in periods of volatility or low transaction flow in the commercial property market. The external valuers make a number of assumptions in forming their opinion on the valuation of our investment property. However, if any assumptions made by the external values prove to be incorrect, this may mean that the value of the company's property differs from the valuation reported in the financial statements, which could have a material effect on the company's financial position (see also note 12).

- Impairment of non-financial assets and intercompany debtors

On an annual basis the company assesses assets not carried at fair value to determine whether there is an indication that the asset may be impaired. This assessment, which involves a degree of judgement and assumptions about future prospects, is performed for investments on the smallest identifiable group of assets or CGU basis. The recoverable amount of the asset is the higher of the fair value less costs to sell and value in use. For intercompany debtors, net assets and future cash flows are reviewed on a company by company basis to assess the recoverability of amounts owed. Where the recoverable amount is assessed to be lower than the carrying amount an impairment loss is recognised in the income statement.

Notes to the financial statements for the year ended 30 June 2023 (continued)

u) Critical accounting judgements and key sources of estimation uncertainty (continued)

- Accounting for derivatives and hedge effectiveness

The company assesses hedge effectiveness using forecast foreign currency cash flows and has judged that it is appropriate to use the cash flows reflecting only committed transactions or recurring trading trends as of the balance sheet date and that the any post balance sheet transactions have a non-adjusting impact on these.

- Onerous lease provisions

Present obligations arising out of onerous contracts are recognised and measured as provisions. An onerous lease is considered to exist where the company has a contract under which the unavoidable costs of meeting its obligations exceed the economic benefits expected to be received. The amounts are based on the company's best estimate of the least cost of exit. Due to the short term lease terms, the impact of discounting is not material.

- Returns provision

The company estimates the proportion of sales that are likely to result in a return requiring a customer credit and provides for these on sale. In estimating these it makes use of recent historical experience and applicable post balance sheet data.

4. Turnover

	2023 £'000	2022 £'000
United Kingdom	79,483	74,421
Rest of Europe	34,365	35,905
Rest of the World	38,741	36,572
	152,589	146,898

The analysis of turnover by geographical area is on the basis of destination.

<u>.</u>	2023 £'000	2022 £'000
Retail and e-commerce	59,291	54,300
Wholesale	83,825	83,236
Licensing	8,698	8,349
Other	775	1,013
	152,589	146,898

Turnover was principally derived from the sale of men's and women's clothing and accessories, and from licensing income.

Notes to the financial statements for the year ended 30 June 2023 (continued)

5. Operating loss

	2023	2022
·	£'000	£'000
Operating loss is stated after charging / (crediting):		
Audit fees payable to the company's auditors	138	130
Depreciation – owned assets	2,282	2,361
Amortisation of intangible assets	1,328	2,025
Impairment of tangible assets	· -	148
Onerous lease and dilapidations provision charges	328	358
Restructuring and reorganisation costs	172	217
Fair value increase on revaluation of investment property	(2,065)	(45)
(Profit) on disposal of fixed assets	-	(3)
Impairment of trade receivables	106	6
Impairment of inventories	(2,059)	6,943
Operating lease charges	8,339	7,513
Foreign exchange losses/(gains)	539	(385)

In accordance with SI 2008/489 the company has not disclosed the fees payable to the company's auditors for 'other services' as this information is included in the consolidated financial statements of Paul Smith Group Holdings Limited.

Distribution costs in respect of delivery and fulfilment expenses were not separately disclosed in prior years but have increased and are therefore now shown separately in the statement of comprehensive income with the prior year adjusted to show both these and administrative expenses.

Exceptional items are presented separately and consistently with prior years as, due to their nature or for the frequency of the events giving rise to them, this aids comparison with prior years and enables a better assessment of the trends of financial performance.

Notes to the financial statements for the year ended 30 June 2023 (continued)

5. Operating loss (continued)

Exceptional items (credited) / charged to operating loss are:

	2023	2022
	£'000	£'000
Restructuring and reorganisation costs	-	217
Revaluation increase in fair value of investment property	(2,065)	-
Impairment of intercompany debtors	1,127	924
Reversal of impairment of intercompany debtors	-	(2,381)
Impairment of tangible assets	-	148
Onerous lease provisions		358
	(938)	(734)

A net exceptional credit of £938,000 (2022: net credit of £734,000) includes a £2,065,000 credit in respect of the revaluation of investment property, £nil (2022: £217,000) of costs of restructuring and reorganisation resulting from our reorganisation of design teams, products and collections, £nil (2022: £358,000) in respect of onerous lease provisions, £1,127,000 (2022: £924,000) in respect of the impairment of amounts owed by subsidiaries that have incurred losses, a £nil credit (2022: credit of £2,381,000) in respect of the reversal of impairment of intercompany debtors and £nil (2022: £148,000) relates to the impairment of tangible assets on closure or assessment of stores.

6. Interest receivable and similar income

8. Employee information

The aggregate staff costs were as follows:	2023	2022
	£'000	£'000
Wages and salaries	29,809	28,571
Social security costs	3,379	3,515
Other pension costs	809	732
	33,997	32,818

The monthly average number of employees, including directors on service contracts, during the year was as follows:

By Activity	2023	2022
	Number	Number
Office and administration	213	208
Design	165	156
Production	31	30
Sales	323	313
Warehouse	194	180
	926	887

Other operating income includes government Covid related grants including job retention scheme income of £26,000 and RDEC tax credits of £113,000 (2022: £141,000 and £nil respectively).

Other pension costs include pension contributions made by the Company to money purchase pension schemes. Pension benefits will be dependent upon the value of the fund upon the retirement of employees. There were outstanding contributions of £161,000 at the balance sheet date (2022: £145,000).

Notes to the financial statements for the year ended 30 June 2023 (continued)

At 30 June 2023 and 2022	3,459

The directors believe that the carrying value of the investments is supported by their underlying net assets. The Company has the following investments.

Directly held:

Paul Smith France SAS

The Company is incorporated in France and its registered office is at 70 Rue des Archives, 75003 Paris, France. The share capital consists of 5,036,750 fully repaid €1 shares. The Company operates retail outlets selling goods produced by Paul Smith Limited. The Company is 0.7% owned by Paul Smith (Holdings) Limited and 99.3% owned by Paul Smith Limited.

Paul Smith (Asia Pacific) Limited

The Company is incorporated in Hong Kong and its registered office is at 21/F Tai Yau Building, 181 Johnston Road, Wanchai, Hong Kong. The share capital consists of 1,000,000 fully paid ordinary shares of 1 HK\$ each. The Company operates a production office in Hong Kong and retail outlets selling goods produced by Paul Smith Limited. The Company is wholly owned by Paul Smith Limited.

Paul Smith Belgium SPRL

The investment represents a 0.01% shareholding in Paul Smith Belgium SPRL, a Company incorporated in Belgium and its registered office is at Kelderstraat 2-3 2000 Antwerpen, Belgium. The Company operates a showroom and retail outlet within Belgium.

Indirectly held:

Shanghai Paul Smith Business Services Company Ltd

The investment represents a 100% shareholding in Shanghai Paul Smith Business Services Company Ltd by Paul Smith (Asia Pacific) Limited, a Company incorporated in China and its registered office is at room 3190, Building 3, No.40 Wenshui Road, Jing'an District, Shanghai. The Company operates retail outlets selling goods produced by Paul Smith Limited.

Subsidiary

Notes to the financial statements for the year ended 30 June 2023 (continued)

14. Stocks

	2023	2022
	£'000	£'000
Raw materials and WIP	8,948	6,141
Finished goods and goods for resale	40,529	34,275
	49,477	40,416

The difference between the purchase price or production cost of stock and the replacement cost is not material.

Inventories are stated after provisions for impairments of £8,868,000 (2022: £10,927,000).

15. Debtors

	2023	2022
Amounts falling due within one year:	£'000	£'000
Trade debtors	6,015	7,307
Amounts owed by group undertakings	35,894	34,365
Corporation tax	731	610
Other debtors	2,812	2,934
Derivative financial instruments (note 22)	576	680
Deferred taxation (see note 19)	-	417
Prepayments and accrued income	8,359	7,123
	54,387	53,436
Amounts falling due after more than one year:		
Deferred taxation (see note 19)	-	709
	54,387	54,145

Amounts due from group undertakings are non-interest bearing. There is no fixed repayment date on the intercompany debt, which is considered unsecured and repayable on demand.

Trade debtors are stated after provisions for impairment of £116,000 (2022: £12,000).

16. Current asset investments

Current asset investments represent cash of £12,398,000 held in deposit accounts with withdrawal terms (2022: £19,129,000).

Notes to the financial statements for the year ended 30 June 2023 (continued)

17. Creditors

	2023	2022
Amounts falling due within one year:	£'000	£'000
Bank loans and overdrafts (see below)	2,160	2,204
Trade creditors	18,728	20,089
Amounts owed to group undertakings	125,108	107,290
Other creditors	1,928	3,240
Taxation and social security	2,902	3,808
Derivative financial instruments (note 22)	519	115
Accruals and deferred income	3,336	4,078
	154,681	140,824

Amounts falling due after one year:

Bank loans and overdrafts (see below)	9,302	11,468

Interest is charged on some amounts owed to group undertakings at a rate between nil and UK base plus 1.5%. There is no fixed repayment date on the intercompany payable, which is unsecured and repayable on demand.

Bank loans of £3,476,000 and £319,000 (2022: £4,639,000 and £699,000) are repayable in equal monthly instalments over 7 years with all due in less than five years. They bear interest at a fixed rate of 1.55% and 1.3% respectively and are secured on the property 70 Rue des Archives.

A bank loan of £7,667,000 (2022: £8,333,000) is repayable by quarterly instalments of £167,000 over 5 years and the remainder in a bullet at the end. It bears interest at 2.5% over base rates and is secured by a fixed and floating charges over the main UK office and warehouse property, associated plant and equipment.

Included in other creditors is £227,000 (2022: £2,138,000) relating to loans due to the directors of the Company. There is no fixed repayment schedule for the loans.

Notes to the financial statements for the year ended 30 June 2023 (continued)

18. Provisions for liabilities

	Deferred tax £'000	Onerous leases and dilapidations £'000	Sales returns £'000	Other £'000	Total £'000
At 1 July 2022	-	780	1,391	645	2,816
Utilised in the year	-	(273)	(1,391)	-	(1,664)

Additions	14	328	1,025	<u>.</u>	1,367
At 30 June 2023	14	835	1,025	644	2,518

Onerous lease and dilapidations provisions: the company assesses the performance of each of the stores and provides an estimate of future losses for the remaining period of the lease which is typically three to four years, together with dilapidations expected to be payable at the end of the lease..

Sales returns provision: the company estimates the proportion of sales that are likely to result in a return requiring a customer credit and provides for these on sale. In estimating these it makes use of recent historical experience and applicable post balance sheet data.

Other provisions: this represents the best estimates of legal obligations relating to claims made against the company expected to be settled within the next two years.

19. Deferred taxation

The deferred tax (liability)/asset is analysed as follows:

		£'000
Balance at 1 July 2021		559
Amount credited to income statement		649
Amount charged to statement of comprehensive income (note 10)		(82)
Balance as at 30 June 2022		1,126
Amount charged to the income statement		(1,233)
Amount credited to statement of comprehensive income (note 10)		93
Balance at 30 June 2023		(14)
The deferred tax (liability)/asset recognised relates to the following:		
, ,,	2023	2022
	£'000	£'000
Hedged derivative fair values	(14)	(107)
Losses carried forward		1,233
	- (14)	1,126

There is also an unrecognised deferred tax asset of £3,039,000 (2022: £1,467,000) in respect of capital allowances, trading losses and other timing differences.

Notes to the financial statements for the year ended 30 June 2023 (continued)

20. Share capital and other reserves

	2023	2022
Allotted, issued and fully paid	£'000	£'000
47,940 (2022: 47,940) ordinary shares of £1 each	48	48

There is a single class of ordinary shares. There are no restrictions on the distribution of capital and the repayment of capital.

Capital redemption reserve

The Capital redemption reserve represents a transfer from retained earnings to maintain the capital of the Company on the redemption of shares.

Retained earnings

The retained earnings account represents the accumulated profits, losses and distributions of the company. The revaluation of investment properties in excess of cost is not distributable. However as shown in note 12 the carrying value is below historic cost at the balance sheet date.

21. Operating lease commitments

The Company had the following future minimum lease payments under non-cancellable operating leases falling due in each of the following periods:

	2023	2022
Payment due	£'000	£'000
Not later than one year	8,032	7,314
Later than one year and not later than five years	19,422	19,599
Later than five years	3,458	5,793
	30,912	32,706

In addition, the company has a number of store leases where the overall rent payable is a percentage of retail store income. However, these normally include a minimum base rent included in the commitments shown above.

The company has no other off-balance sheet arrangements.

Notes to the financial statements for the year ended 30 June 2023 (continued)

22. Financial instruments

The Company has the following financial instruments measured at fair value through profit or loss:

	Note	2023 £'000	2022 £'000
Financial assets/(liabilities) measured at fair value through profit or loss			
Derivative financial instrument assets	15	576	680
Derivative financial instrument liabilities	17	(519)	(115)

Derivative financial instruments - forward contracts

The Company enters into forward foreign currency contracts to mitigate foreign exchange rate risk. £nil of the derivative asset was not a cash flow hedge (2022: £nil). All other contracts relate to cash flow hedges in place to hedge exposure to foreign currency revenue, with gains or losses made on settlement, where effective, being recycled to revenue. At 30 June 2023, the outstanding contracts all mature within 4 months (2022: 16 months) of the year end. The Company is committed to sell and buy Japanese ¥525,000,000, a net nil, at a fixed sterling amount (2022: to sell Japanese ¥1,050,000,000).

The forward currency contracts are measured at fair value which is calculated using observable market price (level 2).

The cashflow hedge reserve of £43,000 (2022: £458,000) reflects a net fair value asset of £57,000 (2022: asset of £565,000) net of the related deferred tax liability of £14,000 (2022: £107,000).

23. Related party transactions

During the year the Company paid £2,028,000 (2022: £1,937,000) in rent and other charges to the Floral Street Property Partners Limited (formerly Colston Property Partners) group. PB Smith a director of the Company is a director of Floral Street Property Partners Limited and controls both companies. At 30 June 2023 the Company owed Floral Street Property Partners Limited £nil (2022: £nil).

During the year the Company paid £175,000 (2022: £175,000) in rent to the Paul Smith Limited Executive Pension Scheme. P B Smith is a member of the Paul Smith Limited Executive Pension Scheme. At 30 June 2023 the Company owed the Paul Smith Limited Executive Pension Scheme £nil (2022: £nil).

PB Smith and AJS Long are trustees of Paul Smith's Foundation, a charity established to advance the education of the public in all matters concerning design, fine arts and design movement. During the year, Paul Smith Limited paid £247,000 on behalf of the Foundation (2022: £76,000). At 30 June 2023 the amount owed by the Foundation to the Company was £247,000 (2022: £56,000).

The company has made pension payments of £201,000 (2022: £201,000) to a former director and received the same amount from the related pension fund. There is £nil (2022: £nil) outstanding at the year end.

Itochu Corporation is the master licensee in Japan and also a shareholder in Paul Smith Group Holdings Limited, the ultimate parent company of this entity. Licensing income of £5,050,000 (2022: £5,254,000) was received by Paul Smith Limited in the year to 30 June 2023. At 30 June 2023 Itochu Corporation owed Paul Smith Limited £373,000 in respect of royalty and advertising (2022: £525,000).

During the year Paul Smith Limited made trade sales of £1,535,000 (2022: £807,000) in the ordinary course of business to Itochu Corporation and purchased £139,000 (2022: £152,000) from Itochu Corporation.
