## **Strategic Report**

The directors present their strategic report for the year ended 2nd October 2021/4: 100 April 1997 1. 18

#### Review of the business

The principal activity of the company is that of the manufacture of electro-hydraulic servo control mechanisms for use in aerospace and industrial applications. The product lines consist of servo valves and servic actuators with related electronics and the repair and servicing of these product lines.

The company's key financial indicators during the year ended 2<sup>nd</sup> October 2021 were as follows:

| protest to the second         | " <b>2021</b> | 2020    | Change | it in the same of   |
|-------------------------------|---------------|---------|--------|---|
|                               | £000          | £000    | %      |   |
| Turnover                      | 52,835        | 58,572  | (10%)  | 4.01  |
| Operating profit (Loss)       | (658)         | (1,925) | 66%    | Free to the contract of the |
| Profit (Loss) before taxation | (143)         | (952)   | 85%    |   |
| Profit (Loss) after tax       | (414)         | (1,826) | 77%    | .1 4  |
| Average number of employees   | . 480         | 47,7    | At     | q <b>ş</b>  |

The level of trade is in line with the European Aerospace sector activity. Covid19 has impacted sales in the commercial aerospace sector. The industry expectation is that sales growth will recover gradually and will be beyond pre Covid levels by 2024. We expect to retain our market position in both the Aerospace and Industrial sectors. The company's Aerospace segment products are mainly focused on more fuel efficient aircraft reducing the risk that a market downturn will affect the company. The company's Industrial segment is increasing its product and service portfolio to maintain sales year on year.

The UK legal entity structure of the wider Moog Group has been reviewed by both Group Management and the Directors of the Company. It was concluded by both parties that the entity structure should be simplified within the UK. The first step involved the waiver of intercompany loan notes provided to Moog Fernau Limited, being the subsidiary Company of Moog Controls Limited. This transaction was enacted and approved by both respective boards of Directors in January 2021. The waiver of these notes has given rise to a material expense of £5,456,000 within Moog Controls Limited. The second step occurred on the 1st March 2021, Moog Fernau Limited distributed all of its assets and liabilities to Moog Controls Limited by way of a dividend. The called up share capital of Moog Fernau Ltd of £2,590,000 was reduced to £1 and the proceeds distributed back to Moog Controls Ltd by a capital redemption dividend.

#### Principal risks and uncertainties

The principal risks and uncertainties fall into the following categories:

#### **Credit Risk Exposure**

The company endeavours to minimise the risk of financial loss caused by third parties failing to discharge an obligation by only granting credit terms to customers who demonstrate an appropriate payment history and satisfy credit worthiness criteria or limiting the value of credit extended to customers who are less credit worthy.

. }

3 1

#### Moog Controls Ltd ...

#### Registered Number 01171948

## **Strategic Report**

Principal risks and uncertainties (continued)

#### **Liquidity Risk**

The company mitigates liquidity risk by managing cash flow generation throughout its operation and by applying cash collection procedures. Cash flow risk is managed by careful negotiation of terms with customers and suppliers.

Through continual product improvement and development of new products, the company provides products that are competitive in the market.

#### **Suppliers**

The company carefully selects suppliers who demonstrate an ability to consistently supply high quality products and services at competitive prices.

#### Currency

The company has transactional currency exposures which arise from sales and purchases in currencies other than its functional currency as well as the currency risk associated with inter-company transactions in various currencies. Potential exposures to foreign exchange rate movements are monitored through rolling cash flow forecasts in all currencies in which the company trades. These are reviewed monthly and appropriate actions are taken to manage net open positions.

#### Reporting on compliance with section 172 requirements

In performance of their statutory duties and in accordance with s172 (1) Companies Act 2006, the board of directors of Moog Controls Ltd consider, both individually and together, that they have acted in good faith and in a way that would most likely to promote the success of the company for the benefit of its members as a whole (having regard to the stakeholders and matters set out in s172 (1) a-f of the act in the decisions taken during the year ended 2<sup>nd</sup> October 2021.

Each year, the directors undertake an in-depth review of the Company's strategy, including a business plan for subsequent years. Once approved by the directors, the plan and strategy form the basis for financial budgets, resource plans and investment decisions and also the future strategic direction of the Company. In making decisions concerning the business plan and future strategy, the directors have regard to a variety of matters including the interests of various stakeholders, the consequences of its decisions in the long term and its long term reputation.

Further details how the directors consider the interests of various stakeholders can be found on pages 4-6 of these financial statements.

## **Directors Report (continued)**

#### Governance

Regular Board meetings are held during which relevant strategic, governance and performance issues are discussed and addressed. All matters discussed, and decisions made, are done so with consideration to the impact on Company stakeholders in line with the requirements of Section 172 of the Companies Act.

#### Stakeholder engagement

#### With employees

During the year, the policy of providing employees with information about the company has been continued through newsletters and publications in which employees have been encouraged to present their suggestions and views. Employees are regularly provided with a wide range of information concerning the performance and prospects of the business in which they are involved by means of employee meetings, which allow a free flow of information and ideas.

The company is an equal opportunities employer. Applications for employment are always fully considered irrespective of gender, ethnic origin, race, religion, sexual orientation or disability.

Applications for employment by disabled persons are always fully considered, bearing in mind the respective attitudes and abilities of the applicant concerned. In the event of members of staff becoming disabled, every effort is made to ensure that their employment within the company continues and the appropriate training is arranged. It is the policy of the company that the training, career development and promotion of a disabled person should, as far as possible, be identical to that of a person who does not suffer from a disability.

#### With suppliers, customers, and others

When determining the principal decisions to be taken by the company during the financial year the directors have regard to the need to foster the company's business relationships with suppliers, customers and others. This includes considerations regarding sustainability, responsible sourcing, payment terms and anti-bribery and corruption.

#### **Emissions and energy consumption**

During the year, the Company emitted 394 tonnes of C02e from activities involving the purchase of electricity for its own use, the combustion of gas and consumption of fuel for the purpose of transport. In aggregate it consumed 1.7 million kWh of energy. Greenhouse gas emissions were calculated using the UK Government GHG Conversion Factors for Company Reporting 2020. Energy usage data was gathered from a variety of sources, including utility bills for gas and electric, and mileage expenses and receipts for transport. The Company's intensity ratio, expressed as tonnes of CO2e per total £m of sales revenue, is 6.4.

To improve energy efficiency and reduce emissions company cars now include electric vehicles.

# Directors Reporti(continued)

#### Going concern

The group's business activities, together with the factors likely to affect its future development including its exposures to credit, liquidity and currency risk are described in the Strategic Report on pages 2 to 3.

The company has long-term contracts with a number of customers and suppliers across different geographic areas and industries. As a consequence, the directors believe that the company is well placed to manage its business risks successfully.

Following the emergence of Covid-19 in early 2020, the operations of the company began to be negatively impacted in March 2020 and a negative impact on the financial performance is expected to continue whilst air travel is restricted. At the current date, the quantified impact on financial statements cannot be measured, given the uncertainties about the evolution of the epidemic and the measures announced by the Government to support businesses. Despite this uncertainty, the company continues to benefit from any support needed from the wider Moog group, the financial position of which remains strong.

The directors, having assessed the responses of the directors of the company's parent, Moog Inc, to their enquiries, have no reason to believe that a material uncertainty exists that may cast significant doubt about the ability of the Moog Group to continue as a going concern.

On the basis of their assessment of the company's financial position and of the enquiries made of the directors of Moog Inc, the company's directors have a reasonable expectation that the company will be able to continue in operational existence for the foreseeable future. Thus, they continue to prepare the rannual financial statements on a going concern basis.

## Disclosure of information to auditors

The directors who were members of the board at the time of approving the Directors' Report are listed on page 4. Having made enquiries of fellow directors and of the company's auditors, each of these directors confirms that:

- to the best of each director's knowledge and belief, there is no information relevant to the preparation of their report of which the company's auditors are not aware; and
- each director has taken all the steps a director might reasonably be expected to have taken to be aware of relevant audit information and to establish that the company's auditors are aware of that information.

#### **Auditors**

A resolution to reappoint Azets Audit Services as auditors will be put to the members at the Annual General Meeting.

By order of the Board

Director: P Garrad

Date:

6

# Statement of directors responsibilities in respect of the financial statements

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss for that period. In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

#### **MOOG CONTROLS LIMITED**

#### INDEPENDENT AUDITOR'S REPORT

### 了一样,你可以有特殊的。

4

#### TO THE MEMBERS OF MOOG CONTROLS LIMITED

#### Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of our audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors report have been prepared in accordance with applicable legal requirements.

#### Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report and the directors' report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or

#### Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

## Auditor's responsibilities for the audit of the financial statements.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities is available on the Financial Reporting Council's website at: https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

#### **MOOG CONTROLS LIMITED**

#### INDEPENDENT AUDITOR'S REPORT

#### TO THE MEMBERS OF MOOG CONTROLS LIMITED

#### **Opinion**

We have audited the financial statements of Moog Controls Limited (the 'company') for the year ended 2 October 2021 which comprise the statement of income and retained earnings, the statement of financial position, the statement of cash flows and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 2 October 2021 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice;

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

#### Other information

The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We obtain and update our understanding of the entity, its activities, its control environment, and likely future developments, including in relation to the legal and regulatory framework applicable and how the entity is complying with that framework. Based on this understanding, we identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. This includes consideration of the risk of acts by the entity that were contrary to applicable laws and regulations, including fraud.

68 S 48 33

In response to the risk of irregularities and non-compliance with laws and regulations, including fraud, we designed procedures which included:

- Enquiry of management and those charged with governance around actual and potential litigation and claims as well as actual, suspected and alleged fraud;
- Reviewing minutes of meetings of those charged with governance;

e le 1 1

- Assessing the extent of compliance with the laws and regulations considered to have a direct material effect on the financial statements or the operations of the company through enquiry and inspection;
- Reviewing financial statement disclosures and testing to supporting documentation to assess compliance with applicable laws and regulations;
- Performing audit work over the risk of management bias and override of controls, including testing of journal entries and other adjustments for appropriateness, evaluating the business rationale of significant transactions outside the normal course of business and reviewing accounting estimates for indicators of potential bias.
   Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading

Because of the Inherent limitations of an audit, there is a risk that we will not detect all irregulation. This risk including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become award of instances of non-compliance. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purposes. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

#### **Accounting policies**

Company information

Moog Controls Limited is a private company limited by shares incorporated in England and Wales. The registered office is Moog Controls Limited, Alexandra Way, Ashchürch, Tewkesbury, GL20 8NA.

Accounting convention

A summary of the principal accounting policies, all of which have been applied consistently throughout the year and the preceding year is set out below.

Basis of preparation

The financial statements have been prepared under the historical cost convention and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland and the Companies Act 2006. The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercised judgement in applying the Company's accounting policies.

The company's financial statements are presented in sterling and all values rounded to the nearest thousand pounds (£'000) except when otherwise indicated.

Exemptions for qualifying entities under FRS102:

FRS102 allows a qualifying entity certain disclosure exemptions. A qualifying entity is defined as a member of a group that prepares publicly available financial statements, which give a true and fair view. in which that member is consolidated. Moog Controls Ltd is a qualifying entity as its results are consolidated into the financial statements of Moog Inc a company incorporated in the United States of , America, registration number 67444, the registered office is Moog Inc, 400 Jamison Road, Elma, New was the Company has not prepared group. Report is accounts as its results are consolidated within these publically available financial statements.

As a qualifying entity, the Company has taken advantage of the following exemptions:

- i) from preparing a statement of cash flows, on the basis that it is a qualifying entity and the consolidated statement of cash flows, included in these financial includes the Company's cash flows (FRS 102 paragraph 1.12(b)
- not to disclose related party transactions with other group companies which meet the criteria ii) that all subsidiary undertakings which are party to the transaction are wholly owned by the ultimate controlling party (FRS 102 paragraph 33.1(a))

Going concern

1,97

At the time of approving the financial statements, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Thus the directors continue to adopt the going concern basis of accounting in preparing the financial statements.

Pandemics such as COVID 19 creates uncertainty which can have a detrimental effect on the business. In this situation the company works with employees, suppliers and customers to manage the situation to the greatest extent possible. The company has the benefit of supplying to different markets, commercial & military aircraft and industrial, it is not reliant on one business sector where there is a temporary slow down in demand. The company has adequate resources, net assets, a positive cash balance and support from its parent company to continue in operational existence for the foreseeable future.

## Notes to the financial statements

2. Al 3.8

At 2<sup>nd</sup> October 2021

#### 1. Accounting policies (continued)

#### Tangible Fixed assets

All fixed assets are initially recorded at cost.

#### Depreciation

Depreciation is provided on all tangible fixed assets, at rates calculated to write off the cost, less estimated residual values based on prices at the date of acquisition, of each asset over its expected useful life, as follows:

Freehold buildings

over 40 years

Short leasehold

over the length of the lease

Plant and machinery

over 8 years over 10 years

Fixtures and fittings
Tools and computer equipment

over 2-3 years

The carrying value of tangible fixed assets are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable.

#### Intangible Fixed assets other than goodwill

Intangible assets acquired separately from a business are recognised at cost and are subsequently measured at cost less accumulated amortisation and accumulated impairment losses.

Intangible assets acquired on business combinations are recognised separately from goodwill at the acquisition date where it is probable that the expected future economic benefits that are attributable to the asset will flow to the entity and the fair value of the asset can be measured reliably: the intangible asset arises from contractual

Amortisation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Licences

Over the term of the licences

Intellectual Property Rights

10% straight line

#### Stocks

Stocks are stated at the lower of cost and net realizable value. Cost includes all costs incurred in bringing each product to its present location and condition, as follows:

Raw materials, consumables and goods for resale

- purchase cost on a first in, first out basis

Work in progress and finished goods

 cost of direct materials and labour plus attributable overheads based on a normal level of activity

Net realisable value is based on estimated selling price less any further costs expected to be incurred to completion and disposal.

THE STREET CONTRACT OF THE STREET

It is a great tools

## Notes to the financial statements the contract of the contract

At 2<sup>nd</sup> October 2021

1. Accounting policies (continued)

#### Long term contracts

Profit on long term contracts is taken as the work is carried out if the final outcome can be assessed with reasonable certainty. The profit included is calculated to reflect the proportion of the work carried out at the year end, by recording turnover and related costs (as defined in Stocks above) as contract activity progresses. Turnover applicable to long term contracts represents the value of work completed during the year, calculated with reference to the total expected value of the contracts. Revenues derived from variations on contracts are recognised only when they have been accepted by the customer. A full provision is made for losses on all contracts in the year in which they are first foreseen.

#### Revenue and royalty income

Revenue is recognised when it can be measured reliably and the significant risks and rewards of ownership are transferred to the customer. With the sale of goods, this occurs when the goods are despatched or made available to the customer. With royalty income, revenue is recognised in accordance with the substance of the relevant agreement

#### investments, the community of days to a first the size in the size.

Fixed asset investments are shown at cost less a provision for impairment.

Goodwill

Goodwill is the difference between the cost of an acquired entity and the aggregate of the fair value of that

Goodwill is the difference between the cost of an acquired entity and the aggregate of the fair value of that entity's identifiable assets and liabilities. Goodwill is amortised over its estimated useful economic life. It is stated at cost less amortisation.

Goodwill is reviewed for impairment at the end of the first full financial year following the acquisition and in other periods if events or changes in circumstances indicate that the carrying value may not be recoverable.

## Deferred texation to this to the order of the first of the lader of the first of the control of the first of the control of th

Deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or right to pay less or to receive more, tax, with the following exceptions:

- Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, or gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold.
- Provision is made for deferred tax that would arise on remittance of the retained earnings of overseas subsidiaries, associates and joint ventures only to the extent that, at the balance sheet date, dividends have been accrued as receivable.
- Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

#### Research and development

Research and development expenditure is written off as incurred.

HET DAY TOWN ON BUILDING

## Notes to the financial statements:

At 2<sup>nd</sup> October 2021

#### 1. Accounting policies (continued)

#### Foreign currencies

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction or at the contracted rate if the transaction is covered by a forward foreign currency contract. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance sheet date or if appropriate at the forward contract rate, all differences are taken to the profit and loss account.

#### Pensions and other post-retirement benefits

The company operates a defined benefit and a defined contribution pension scheme, both of which require contributions to be made to separately administered funds

#### Defined benefits scheme

The defined benefits scheme provides benefits based on each employee's final pensionable pay. Contributions to the defined benefits scheme are charged in the profit and loss account so as to spread the cost of pensions over the employees' working lives within the company. The regular cost is attributed to individual years using the projected unit method. Variations in pension cost, which are identified as a result of actuarial valuations, are amortised over the average expected remaining working lives of employees in proportion to their expected payroll costs. Differences between the amounts funded and the amount charged in the profit and loss account are treated as either provisions or prepayments in the balance sheet.

#### Defined contributions scheme

Contributions to the defined contribution scheme are charged to the profit and loss account as they become payable in accordance with the rules of the scheme.

#### Lease and hire purchase commitments

Assets held under finance leases, which are leases where substantially all the risks and rewards of ownership of the asset have passed to the company, and hire purchase contracts are capitalised in the balance sheet and are depreciated over their useful lives. The capital elements of future obligations under leases and hire purchase contracts are included as liabilities in the balance sheet. The interest elements of the rental obligations are charged in the profit and loss account over the periods of the leases and hire purchase contracts and represent a constant proportion of the balance of capital repayments outstanding.

Rentals payable under operating leases are charged to the profit and loss account on a straight line basis over the lease term.

#### Related parties

The company is exempt from the requirement to disclose transactions between group companies as all subsidiaries have 100% of their voting rights controlled within the group and the consolidated financial statements of the group are publicly available.

#### Cash flow statement

A cash flow statement has not been prepared because the company is a wholly owned subsidiary of Moog Inc, within whose consolidated cash flow statement the cash flows of the company are included.

## 2. \ Judgements in applying accounting policies and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for revenues and expenses during the year. However, the nature of estimation means that actual outcomes could differ from those estimates. The following judgements (apart from those involving estimates) have had the most significant effect on amounts recognised in the financial statements.

11

Reported to the first of the property of the

,

四种 独立的 化四种 可能

## Pensions and other post-retirement benefits

The cost of defined benefit pension plans and other post-employment benefits are determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates; future salary increases, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumption and the long term nature of these plans, such estimates are subject to significant uncertainty. The company engages suitability qualified actuaries to compile this information and engages investment managers to manage the assets of the scheme in the most effective manner.

## 3. Turnover is attributable to one continuing; activity, as stated in the directors' report: 33

An analysis of turnover by geographical market is given below:

| Turnover by geographical | market |      |     | 2021   | 2020     |

#### 9. Tax

#### (a) Tax on profit on ordinary activities

| 2021<br>£000 | 2020                              |
|--------------|-----------------------------------|
|              | 2000                              |
| (83)         | 1,105                             |
| 6            | 9                                 |
| (77)         | 1,114                             |
| (225)        | (320)                             |
| 573          | 80                                |
| 271          | 874                               |
|              | (83)<br>6<br>(77)<br>(225)<br>573 |

#### (b) Factors affecting tax charge

The tax assessed on the profit on ordinary activities for the year is higher than the standard rate of corporation tax in the UK of 19.0%. The differences are reconciled below:

|  | 2021<br>£000 | 2020<br>£000 |
|--|--------------|--------------|
| Profit on ordinary activities before tax   | (143)        | (952)        |
| Profit on ordinary activities multiplied by standard rate of tax in the UK of 19.0% (2020:19.0%) | (27)         | (181)        |
| Effects of: Non-deductible expenses Prior year adjustment  | 292<br>6     | 1,046<br>9   |
| Total tax (note 9a)  | 271          | 874          |

#### (c) Factors affecting future tax charges

The Chancellor has confirmed an increase in the main CT rate from 19 to 25 percent with effect from 1 April 2023. As these tax rates were substantively enacted the relevant rate reductions are reflected in these financial statements.

The Moog Group entity structure is being simplified within the UK. On the 1st March 2021 Moog Fernau Limited distributed all of its assets and liabilities to Moog Controls Limited by way of a dividend of £2,923,000. The called up share capital of Moog Fernau Ltd of £2,590,000 was reduced to £1 and the proceeds distributed back to Moog Controls Ltd by a capital redemption dividend resulting in a loss of £168,000 in writing off the Moog Fernau Limited investment.

The company has the following wholly owned subsidiaries incorporated in Sweden and the UK-respectively:

#### 16. Provisions for liabilities and charges

| •  | Contract<br>loss and | Onerous<br>contracts | Total    |
|--|----------------------|----------------------|----------|
|  | warranty<br>£000     | £000                 | £000     |
| At beginning of the year                           | 1,177                | 620                  | 1,797    |
| Charged to the profit and loss account in the year | 949                  | 493                  | 1,442    |
| Utilised in the year                               | (939)                | (217)                | (1,156)  |
| At end of the year                                 | 1,187                | 896                  | 2,083    |
|  |                      |                      | <u> </u> |

The contract loss and warranty provision is for product integrity rework and contract loss provisions. The figure includes £nil for warranty returns in the forthcoming year based on current year actual experience. The balance comprises customer-specific product integrity issues provisioned at factory cost.

The onerous contract provision relates to expected losses on future orders to be incurred in a future period

Promissory note

The company had two promissory notes with its subsidiaries, interest accruing on an actual days and interest payable annually. Moog Fernau Limited was loaned £7m on 15th December 2016 with a maturity date of 14th December 2022 at an interest rate of 8.23%. A waiver of the promissory note with Moog Fernau Limited was enacted and approved by both respective boards of Directors in January 2021. The waiver of these notes has given rise to a material expense of £5,456,000 within Moog Controls Limited.

Moog Reading Limited was loaned £11m on 15th December 2016 with a maturity date of 14th December 2022 at an interest rate of 5.46%. During 2018 Moog Fernau Limited paid down £1.6m.

#### 18. Pension arrangements

The company operates a defined benefit and defined contribution pension scheme, both of which require contributions to be made to separately administered funds.

11, 10

#### Defined contributions scheme

The pension costs are charged to the profit and loss as they become payable. The pension cost charge for the year represents contributions payable by the group to the scheme and amounted to £1,560,000 (2020: £1,449,000). There were no outstanding or prepaid contributions at either the beginning or end of the financial year.

#### Defined benefit scheme

a) Information about the scheme

#### General description of the type of scheme:

Defined benefit scheme providing benefits linked to salary at retirement or earlier date of leaving service. The plan has been closed to new entrants since 1992.

#### Description of funding policy:

Following the 1st December 2013 triennial valuation, the company agreed that it would pay £10,000 per month. Following the 1st December 2016 triennial valuation the company agreed that it would pay a one off deficit reduction contribution of £1,000,000 in September 2017, and £25,000 per month over the period from October 2017 to May 2024. Funding levels are monitored on an annual basis, and the current agreed employer future service contribution rate is 54.3% of contribution salaries. The next triennial valuation is due 1st December 2022.

#### - Date of the most recent actuarial valuation:

1st December 2019
