Statement of directors' responsibilities

Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and of the profit or loss for that period. In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Creditor Payment Policy

It is Company policy that payments to all suppliers are made in accordance with the agreed terms, provided that the supplier is also complying with all relevant terms and conditions. Trade creditor days of the company for the year ended 30 September 2001 were 47 days, based on the ratio of Company trade creditors at the year end to the amount invoiced during the year by trade creditors.

Auditors

An elective resolution has been passed dispensing with the need to reappoint the auditors annually. In the absence of a notice proposing that the appointment be terminated, the auditors PricewaterhouseCoopers will be deemed to be reappointed for the next financial year.

By order of the board

Independent auditors' report to the members of The Moving Picture Company Limited

We have audited the financial statements on pages 7 to 17 which have been prepared under the historical cost convention and the accounting policies set out on pages 9 and 10.

Respective responsibilities of directors and auditors

The directors' responsibilities for preparing the annual report and the financial statements in accordance with applicable United Kingdom law and accounting standards are set out in the statement of directors' responsibilities on pages 3 to 4.

Our responsibility is to audit the financial statements in accordance with relevant legal and regulatory requirements and United Kingdom Auditing Standards issued by the Auditing Practices Board.

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Act 1985. We also report to you if, in our opinion, the directors' report is not consistent with the financial statements, if the company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding directors' remuneration and transactions is not disclosed.

We read the other information contained in the annual report and consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements.

Basis of audit opinion

We conducted our audit in accordance with auditing standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Opinion

In our opinion the financial statements give a true and fair view of the state of the company's affairs at 30 September 2001 and of its profit for the year then ended and have been properly prepared in accordance with the Companies Act 1985.

Notes to the financial statements for the year ended 30 September 2001

1 Accounting policies

The financial statements have been prepared in accordance with applicable Accounting Standards in the United Kingdom. A summary of the more important accounting policies, which have been applied consistently, is set out below.

Basis of accounting

The financial statements have been prepared under the historical cost convention.

Cash flows

The company is a wholly owned subsidiary of Carlton Communications Plc and the cash flows of the company are included in the consolidated cash flow statement of Carlton Communications Plc. Consequently the company is exempt under the terms of Financial Reporting Standard 1 (Revised) from publishing a cash flow statement.

Turnover

Turnover, which excludes value added tax, is arrived at as follows:-

- (i) Where facilities are being provided, turnover represents the sales value of the service during the year.
- (ii) Where a production contract exists, turnover represents the sales value of contracts completed during the year. Completion is defined as when all post production work is finished.
- (iii) Where a long term contract exists, turnover represents the value of contracts work done on contracts not completed.

Depreciation

Depreciation is calculated on a straight line basis so as to write off the book value of fixed assets over their expected useful lives. The main annual rates adopted are as follows:-

Leasehold improvements Equipment, fixtures and fittings Motor vehicles Length of lease 15-33% per annum 25% per annum

Depreciation policies are reviewed on a regular basis.

Work in progress

Work in progress on productions for third parties is valued at the lower of cost and net realisable value. No value is attributed to work in progress unless there is a contract committing a customer to purchase the production. Cost comprises direct costs of production. Net realisable value is the estimated selling price less all further costs to completion. Payments in advance are set off against work in progress in the balance sheet, and any amount in excess of the value of work in progress is included in current liabilities.

Long term contracts

Turnover on long term contracts is recognised according to the stage reached in the contract with reference to the value of work done. A prudent estimate of the profit attributable to the work completed is recognised once the outcome of the contract can be assessed with reasonable certainty. The amount by which turnover exceeds payments on account is shown under debtors as amounts recoverable on contracts. The costs on long term contracts not yet taken to the profit and loss account less related foreseeable losses and payments on account are shown as work in progress.

Pensions

Certain employees of the Company are members of the Carlton Communications Plc group pension scheme, a defined benefit scheme. The costs of this scheme are determined by external actuaries and charged against profits each year.

The Company also operates two defined contribution schemes for one of its employees. The costs of these schemes are charged against profits in the year they are incurred.

Leases

Operating lease rentals are charged to income in equal amounts over the lease term.

Foreign Currencies

Transactions denominated in foreign currencies are translated at the rate of exchange ruling at the date of the transaction. Exchange differences are taken to the profit and loss account in the year in which they arise.

Deferred taxation

Provision is made for deferred taxation to the extent that the liability is expected to crystallise within the foreseeable future.

2 Restatement of prior year comparatives

At 28 February 2001 the company closed its commercials productions division, Blonde Films. The 2000 comparative figures have therefore been restated to reclassify this activity as discontinued operations.
