Transversal Sheet Metal Co. Limited

Abbreviated balance sheet (continued)

As at 30 September 2014

For the year ended 30 September 2014 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Directors' responsibilities:

- The member has not required the company to obtain an audit of its accounts for the year in question in accordance with section 476; and
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These abbreviated accounts have been prepared in accordance with the special provisions applicable to companies subject to the small companies regime.

These abbreviated accounts were approved by the directors and authorised for issue on 30 April 2015, and are signed on their behalf by:

M.J. Marsden

Company Registration Number: 01209583

The notes on pages 3 to 5 form part of these abbreviated accounts.

Transversal Sheet Metal Co. Limited

Notes to the abbreviated accounts

Year ended 30 September 2014

1. Accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

These financial statements have been prepared on the going concern basis. At the balance sheet date the company had net current liabilities of £96,864 (2013: £94,657) and net liabilities of £67,898 (2013: £62,947). The directors consider the company to be a going concern on the basis that the company's bankers will continue to offer the necessary financial support together with its parent company Truduct Products Limited.

Consolidation

In the opinion of the directors, the company and its subsidiary undertakings comprise a small group. The company has therefore taken advantage of the exemption provided by Section 398 of the Companies Act 2006 not to prepare group accounts.

Turnover

Turnover represents the amount derived from the provision of goods and services, recognised at the point of despatch.

Fixed assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Plant & Fixtures	-	15% Reducing Balance
Computer Equipment	-	25% Reducing Balance
Motor Vehicles	-	25% Reducing Balance

Stocks

Stocks are valued at the lower of cost and net realisable value. Cost representing purchase price plus attributable overheads is computed on a first in, first out basis. Net realisable value is based on estimated selling price less the estimated cost of disposal.

Work in progress

The cost of work in progress includes all production overheads and depreciation and the attributable proportion of indirect overheads based on the normal level of activity. Net realisable value is based on estimated selling price less the estimated cost of disposal.

Operating lease agreements

Operating leases are charged to the Profit and Loss Account as incurred.

Pension costs

The company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the company. The annual contributions payable are charged to the profit and loss account.

Deferred taxation

Deferred taxation is provided on the liability method in respect of the taxation effect of all timing differences to the extent that tax liabilities are likely to crystallise in the foreseeable future.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
