		<u>822,628</u>	<u>643,477</u>

These financial statements have been prepared and delivered in accordance with the provisions applicable to companies subject to the small companies regime and the option not to file the profit and loss account has been taken.

These financial statements were approved and authorised for issue by the Board on 29/9/2021 and signed on its behalf by:

B Ayrton
Director

1 General information

Spiroflow Limited is a private company limited by shares and incorporated in England and Wales under company number 01210198.

The address of its registered office and principal place of business is:

Lincoln Way
Clitheroe
Lancashire
BB7 1QG

2 Summary of significant accounting policies

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards including Section 1A of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (FRS102) and the Companies Act 2006.

The financial statements have been prepared on a going concern basis under the historical cost convention, modified, where appropriate, to include certain items at fair value. The presentation currency is £ sterling.

Going concern

Having carried out a detailed review of the company's resources and the challenges presented by the current economic climate, the directors are confident that the company has sufficient cash flows to meet its liabilities as they fall due for at least one year from the date of approval of the financial statements.

The significant accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

Group accounts not prepared

The company is part of a small group. The company has taken advantage of the exemption provided by section 399 of the Companies Act 2006 and has not prepared group accounts.

Critical accounting judgements and estimation accounting

Estimates and judgements are continually evaluated and are based on historic experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

The company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal any related actual results. The key source of estimation uncertainty that has a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year is in relation to recognition of revenue from construction contracts.

Contract revenues and costs are recognised by reference to the degree of completion of each contract as measured by the proportion of total costs at the balance sheet date to the estimated total cost of the contract. Assessments of revenue and costs are undertaken by senior management. When it is probable that total costs of a contract will exceed the contract revenue, the expected loss is recognised immediately.

Turnover

Turnover is measured at fair value of the consideration received or receivable, net of discounts and value added tax. Turnover includes revenue earned from the sale of goods and from the rendering of services.

Turnover from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have transferred to the buyer. This is usually when the goods have been delivered to customers.

Turnover from the rendering of services is recognised by reference to the stage of completion of the contract. The stage of completion of a contract is measured by comparing the costs incurred for work performed to date to the total estimated contract costs. If at the balance sheet date completion of the contract is dependent on external factors, then the revenue is recognised only when the event occurs. In such cases direct costs incurred up to the balance sheet date plus an overhead rate are recognised as revenue to the extent that they are recoverable.

Pension contributions

The company has a defined contribution pension scheme. The pension costs charged to the profit and loss account are the contributions payable in respect of the accounting period.

Taxation

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except that a charge attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

Current tax is recognised for the amount of corporation tax payable in respect of the taxable profit for the year using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed by the balance sheet date. Deferred tax assets are only recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is calculated using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Tangible fixed assets

Tangible fixed assets are measured at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation

Depreciation is calculated to write down the cost less estimated residual value of all tangible fixed assets over their expected useful lives. The annual rates and methods of depreciation are as follows:-

Asset class	Depreciation method and rate
Leasehold property improvements	Life of lease
Plant and machinery	15%-25% straight line basis
Furniture, fittings and equipment	15% straight line basis
Motor vehicles	25% straight line basis

Impairment of fixed assets

At the balance sheet date, if there is an indication of possible impairment, the recoverable amount of any affected asset is estimated and compared to its carrying amount. If the estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised in the profit and loss account. The reversal of an impairment loss is recognised immediately in the profit and loss account.

Investments

Investments in equity shares which are not publicly traded are measured at cost less impairment.

Dividends on equity securities are recognised in income when receivable.

Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell.

The cost of finished goods and work in progress comprises direct materials and, where applicable, direct labour costs and an appropriate proportion of overhead expenses.

Debtors

Short term debtors are measured at transaction price, less any impairment.

Cash at bank and in hand

Cash at bank and in hand comprises cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

Creditors

Short term creditors are measured at transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are subsequently measured at amortised cost using the effective interest method.

Foreign currency

Transactions in foreign currency are translated at the spot rate at the date of the transactions. Assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange at the balance sheet date. All exchange differences are taken to the profit and loss account.

Hire purchase and leasing

Fixed assets acquired under finance leases and hire purchase contracts are included in the balance sheet at cost and an appropriate provision made for depreciation. The outstanding liabilities under such agreements less interest not yet due are included in creditors. Interest attributable to each period is charged to the profit and loss account.

Operating lease rentals are charged to the profit and loss account on a straight line basis over the period of the lease.

3 Employees

The average number of persons employed by the company (including directors) during the year was as follows:

	2021 No.	2020 No.
Employees	<u>38</u>	<u>38</u>

Hire purchase liabilities	<u>32,465</u>	<u>37,132</u>
---------------------------	---------------	---------------

8 Security

Hire purchase liabilities totalling £59,849 (2020: £59,616) are secured by the finance company's title to the assets financed.

9 Share capital

Allotted, called up and fully paid shares

	2021		2020	
	No.	£	No.	£
A ordinary shares of £1 each	38,067	38,067	38,067	38,067
B ordinary shares of £1 each	37,400	37,400	37,400	37,400
D ordinary shares of £1 each	4,600	4,600	4,600	4,600
	<u>80,067</u>	<u>80,067</u>	<u>80,067</u>	<u>80,067</u>

Share rights

The separate share classes rank pari passu in all respects. The directors have the power to vote varying amounts of dividends on the different classes of shares.

10 Leasing commitments

Operating leases

The total of future minimum operating lease payments is as follows:

	2021 £	2020 £
Within one year	70,000	81,260
Between one and five years	<u>214,653</u>	<u>-</u>
	<u>284,653</u>	<u>81,260</u>

11 Related party transactions

Summary of transactions with other related parties

In accordance with FRS102, no disclosures have been made relating to transactions between group members where the subsidiaries are wholly owned.

A director has provided a personal guarantee up to the value of £50,000 for the bank overdraft.

12 Parent company

The company's parent company is Solids & Powder Handling Limited, a company incorporated in England and Wales. Its ultimate parent company is Spiroflow Holdings Inc, a company registered in the United States of America.

13 Audit information

The option not to file the Audit Report has been taken. However, the following information is relevant:

- The report was unqualified; and
- There were no matters to which the auditor drew attention by way of emphasis.

The auditors were Brown Butler and the senior statutory auditor, who signed the report, was Denis Cross.
