(CONTINUED)

Statement of directors' responsibilities in relation to financial statements

The following statement, which should be read in conjunction with the Auditors' statement of their responsibilities, is made with a view to distinguishing for shareholders the respective responsibilities of the directors and of the auditors in relation to the financial statements.

The Directors are required by the Companies Act 1985 to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company as at the end of the financial year and of the profit or loss for the financial year. The Directors are required to prepare the financial statements on the going concern basis unless it is not appropriate. Since the Directors are satisfied that the Company has resources to continue in business for the foreseeable future, the financial statements continue to be prepared on a going concern basis.

The Directors consider that in preparing the financial statements, the Company has used appropriate accounting policies, consistently applied and supported by reasonable and prudent judgements and estimates, and that all accounting standards which they consider to be applicable have been followed.

The Directors have responsibility for ensuring that the Company keeps accounting records which disclose with reasonable accuracy the financial position of the Company and which enable them to ensure that the financial statements comply with the Companies Act 1985.

The Directors have a general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

Year 2000

The company adopts the Year 2000 conformity requirements issued by the British Standards Institution ('BSI') as its definition of Year 2000 compliance.

The Company has assessed the impact of Year 2000 and does not expect its operations to be disrupted up to, during and after the turn of the millennium, as a result of the Company's systems not being Year 2000 compliant.

The Year 2000 compliance programme ('Programme') involves testing all relevant systems to ensure that they are Year 2000 compliant.

The costs of the Year 2000 modifications have been assessed on a group basis and are incorporated within the report of Forward Trust Group Limited.

The directors are satisfied with the overall progress of the programme to date.
