## **Directors' report**

The directors present their annual report and the audited financial statements for the year ended 31 December 2000.

### **Principal activities**

The principal activity of the company during the year was precision engineering, specialising in the manufacture of turbine blades.

### **Business review**

The company made a profit of £2,543,000 in the year.

### **Proposed dividend**

The directors do not recommend the payment of a dividend for the year (1999: *£nil*).

### **Directors and directors' interests**

The directors who held office during the year were as follows:

Paul Daniell

Ernest Gault

Andrew White

Since the company and its subsidiaries meet the definition in s736 (2)(3) of the Companies Act 1985 of wholly owned subsidiaries of body corporates incorporated outside Great Britain, they have taken advantage of regulation 3 (1)(a) of Statutory Instrument 1985/802 exempting them from the requirement to disclose directors' share interests and options in group companies.

**Directors' report** *(continued)*

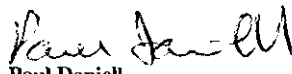

**Political and charitable contributions**

The group made no political or charitable contributions during the year.

**Auditors**

In accordance with Section 384 of the Companies Act 1985, a resolution for the re-appointment of KPMG Audit Plc as auditors of the company is to be proposed at the forthcoming Annual General Meeting.

By order of the board

  
Paul Daniell  
Director

## Statement of directors' responsibilities

Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and group and of the profit or loss for that period. In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 1985. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the group and to prevent and detect fraud and other irregularities.

**Report of the auditors to the members of Turbine Blading Limited**

We have audited the financial statements on pages 5 to 17.

**Respective responsibilities of directors and auditors**

The directors are responsible for preparing the directors' report and, as described on page 3, the financial statements in accordance with applicable United Kingdom law and accounting standards. Our responsibilities, as independent auditors, as established in the United Kingdom by statute, the Auditing Practices Board and by our profession's ethical guidance.

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Act. We also report to you if, in our opinion, the directors' report is not consistent with the financial statements, if the company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding directors' remuneration and transactions with the group is not disclosed.

**Basis of opinion**

We conducted our audit in accordance with Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the group's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

**Opinion**

In our opinion the financial statements give a true and fair view of the state of affairs of the company as at 31 December 2000 and of the profit of the company for the year then ended and have been properly prepared in accordance with the Companies Act 1985.

## Notes

*(forming part of the financial statements)*

### 1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the group's financial statements.

#### *Basis of preparation*

The financial statements have been prepared in accordance with applicable accounting standards and under the historical cost accounting rules, modified to include the revaluation of certain fixed assets.

Under Financial Reporting Standard 1 the company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the company in its own published consolidated financial statements.

As the company is a wholly owned subsidiary of General Electric Company, the company has taken advantage of the exemption contained in FRS 8 and has therefore not disclosed transactions or balances with entities which form part of the group (or investees of the group qualifying as related parties). The consolidated financial statements of Turbine Blading Group Limited, within which this company is included, can be obtained from the address given in note 19.

#### *Tangible fixed assets and depreciation*

Depreciation is provided to write off the cost less the estimated residual value of tangible fixed assets by equal instalments over their estimated useful economic lives as follows:

Freehold buildings	-	1½% on revalued amount
Plant and machinery	-	10% on cost
Fixtures and fittings	-	10-25% on cost
Computers	-	25% and 33 ⅓ % on cost
Motor vehicles	-	25% on cost

#### *Patents and trade marks*

Patent and trademark fees are written off as incurred.

#### *Stocks and work in progress*

Work in progress and raw material stocks are stated at the lower of cost and net realisable value. Cost includes all direct costs incurred in bringing stocks and work in progress to their present location and condition, including an appropriate proportion of manufacturing overheads and, in the case of long term contracts, an appropriate proportion of commercial, administration and selling overheads. Provision is made for all anticipated liabilities and foreseeable losses on long term contracts.

A deduction is made to the extent that finished goods and work in progress are covered by progress payments received and receivable.

#### *Deferred taxation*

Deferred taxation is provided for in full.

#### *Hire purchase*

Additions to fixed assets purchased under hire purchase and lease purchase contracts are capitalised at cost. Interest applicable to the accounting period is charged in the profit and loss account.

## Notes (continued)

### *Leasing and rental transactions*

Lease and rental payments for items acquired under operating leases are charged to the profit and loss account as incurred.

### *Foreign currencies*

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated at the GE monthly operating rate. Exchange differences are included in administration expenses.

## 2 Analysis of turnover by business segment

### 20 Pension scheme

The pension scheme is a funded defined benefit scheme. Formal actuarial valuations of the scheme are carried out every three years and the latest valuation was performed as at 6 April 1998, using the Projected Unit Method. The valuation showed assets £2,251,000 (market value £3,193,000) and a surplus of £172,000. The funding level was assessed to be 108%. A Minimum Funding Requirement analysis at the same date showed the value to be £2,763,000, giving a surplus of £430,000 on this basis. The actuary recommended a continued company contribution rate of 9.7% of pensionable pay until 5 April 1999, then a reduced rate of 8.95%. Active members pay an additional 4.25% of pensionable pay.

There was an accrual of £31,100 (*31 December 1999: £34,600*) in the balance sheet representing the difference between the amount charged in the profit and loss account and the amount paid into the pension scheme. The charge to the profit and loss account for the year was £228,000 (*year to 31 December 1999: £224,000*)
