**NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS  
YEAR ENDED 30 NOVEMBER 2010**

---

**1 ACCOUNTING POLICIES**Basis of preparation of the accounts

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover

Turnover comprises the amounts receivable, less value added tax, in respect of sales of produce, and includes revenue based grants and subsidies

Fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows

Freehold land	Nil
Property improvements	4% reducing balance
Plant and machinery	15% reducing balance
Motor vehicles	20% reducing balance

Production herds

The herds are stated at cost or valuation at the time of transfer from trading stock. No provision is made for depreciation because the herd's replacement policy is designed to maintain the herds' value at cost

Stocks

Stocks are stated at the lower of cost and net realisable value. Cost of home produced stock is estimated using percentage deductions applied to realisable value

Hire purchase agreements

Assets held under hire purchase agreements are capitalised and disclosed under tangible fixed assets at their fair value. The capital element of the future payments is treated as a liability and the interest is charged to the profit and loss account at a constant rate of charge on the balance of capital repayments outstanding

Deferred tax

Provision is made on the liability basis if a deferred tax liability on accelerated capital allowances and other timing differences is likely to crystallise in the foreseeable future
