STATEMENT OF ACCOUNTING POLICIES

The following accounting policies are applied consistently in dealing with items which are considered material in relation to the company's financial statements.

BASIS OF ACCOUNTING

The financial statements are prepared under the historical cost convention.

TURNOVER

Turnover represents the invoiced amount of goods and services sold, net of trade discounts and value added tax.

TANGIBLE FIXED ASSETS AND DEPRECIATION

Tangible fixed assets are stated in the balance sheet at cost less accumulated depreciation.

Depreciation is provided on all tangible fixed assets, so as to write off the cost less estimated residual value, of each asset over its expected useful economic life on the straight line basis at the following annual rates:

| | |
|------------------------|-----|
| Leasehold improvements | 2% |
| Plant and machinery | 20% |
| Fixtures and fittings | 20% |
| Motor vehicles | 25% |

STOCKS

Stocks are stated at the lower of cost and net realisable value. Cost includes all expenditure which has been incurred in the normal course of business in bringing the products to their present location and condition.

Net realisable value is the actual or estimated selling price net of trade discounts, less all further costs to completion and all costs to be incurred in realising the selling price.

DEFERRED TAXATION

Deferred taxation is provided on timing differences to the extent that it is expected to become payable in the foreseeable future.

Timing differences are temporary differences between profits as computed for taxation purposes and profits as stated in the financial statements.

FOREIGN CURRENCIES

Unless specifically covered by forward exchange contracts, whereupon the contract rate is used, monetary assets and liabilities denominated in a foreign currency are translated into Sterling at the exchange rate ruling at the balance sheet date. Revenues, costs and non-monetary assets are translated at the exchange rates ruling at the dates of the transactions.

All foreign exchange profits or losses are dealt with through the profit and loss account.

STATEMENT OF ACCOUNTING POLICIES CONTINUED

PENSIONS

The company's parent undertaking operates a defined benefit scheme and the expected cost of providing pensions to employees is charged to the profit and loss account as incurred over the period of employment of pensionable employees. The cost is calculated, with the benefit of advice from independent actuaries, at what is expected to be a reasonably stable proportion of pensionable pay.

LEASED ASSETS

Tangible fixed assets held by the company under finance leases are recorded in the balance sheet as an asset. Obligations to pay future rentals under such leases are consequently recorded in the balance sheet as a liability. The amount recorded at inception, both as an asset and a liability, is the total minimum lease payments, net of interest. The interest element of the rental obligations is charged to the profit and loss account so as to produce a constant periodic rate of charge. Rentals in respect of all other leases are charged to the profit and loss account as incurred.
