Strategic report

for the financial year ended 31 December 2018

The directors present their strategic report for the financial year ended 31 December 2018.

Principal activities

The principal activity of the company is to provide contract manufacturing services, sales and marketing and research and development services to a fellow Honeywell group company, Life Safety Distribution AG.

Review of the business and future developments

The profit for the financial year, after taxation, is £1,816,000 (2017: £1,189,000).

The company provides contract manufacturing services to a fellow Honeywell group company, Life Safety Distribution AG. The level of activity year on year has slightly decreased which reflects on the revenue and on gross margin. The various costs incurred attract a different mark-up rate. The directors are confident that the company will continue to maintain its current level of strong performance in the future.

The company is in a net asset position and expects to remain so for the foreseeable future.

Key performance indicators

Management monitors the business using the following key indicators:

	2018	2017
Gross profit margin %	35.8	37.7

Gross Profit

The gross profit has slightly decreased when compared to prior year, this is driven by the composition of costs and associated mark ups on each category of cost charged to Life Safety Distribution AG.

Financial risk management, objectives and policies

Foreign currency risk

The company monitors and manages the foreign currency risk relating to the operations of the company, with the assistance of the treasury department of Honeywell International Inc.

Liquidity risk

The company ensures availability of funding for its operations through an appropriate amount of committed bank facilities on a group wide basis.

Other risks

The company is exposed to interest rate risk arising out of amounts owed from group undertakings. The exposures to interest rate risks have not been hedged as there is no net interest rate risk at group level on account of intra group loan balances.

Strategy

The company provides contract manufacturing services to a fellow Honeywell group company and to ensure its group interest it is applying the following strategies:

- providing the highest standard of product, service and delivery to its customer at a competitive cost
- productivity and process improvement
- product development
- continued expansion into current and new markets

Strategic report

for the financial year ended 31 December 2018

- proactive alignment of its business structure to meet changing market demands
- defending and extending the installed base through productivity improvements
- strong brand recognition through brand and channel management.

Principal risks and uncertainties

The management of the business and the execution of the company's strategy are subject to number of risks. The key business risks affecting the company are:

- changes in spending and capital investment patterns
- fluctuation in customer demand
- adverse economic conditions
- obsolescence arising from a shift in technology
- changes in legislation or government regulations or policies
- cost of employee retirement benefits
- health and safety of employees and contractors.

In response to the risks the company:

- maintains a UK-wide presence and aims to have a competitive installed cost and integrated product through technology and productivity
- ensures continued recognition of brand and quality to maintain market position
- maintains a high technology offering while widening its product base and expanding into new areas
- implements supply chain and procurement initiatives
- actively investigates new technologies and market trends
- monitors applicable regulations to ensure products and systems provide high quality solutions for current needs
- ensures that pension schemes are adequately funded
- ensures that all reasonable steps are taken to provide a safe working environment.

In response to the risks the company strives to identify emerging technology trends in its target end-markets, understand its customers' needs, enhance its products by adding innovative and differentiating features, and develop, manufacture and bring compelling new products to market quickly and cost effectively.

On 23 June 2016, the UK held a referendum on the UK's continuing membership of the EU, the outcome of which was a decision for the UK to leave the EU (Brexit). The progress of current negotiations between the UK Government and the EU will likely determine the future terms of the UK's relationship with the EU, as well as to what extent the UK will be able to continue to benefit from the EU's single market and other arrangements. Until the Brexit negotiation process is completed, it is difficult to anticipate the potential impact on the Company and the wider Honeywell Group's operations. The uncertainty during and after the period of negotiation is also expected to increase volatility and may have an economic impact particularly in the UK and Eurozone.

Directors' report

for the financial year ended 31 December 2018

The directors present their annual report and audited financial statements for the company for the financial year ended 31 December 2018.

Business review and future developments

A review of the business of the company and future developments is included in the strategic report on page 1.

Results and dividends

The company's profit for the financial year, after taxation was £1,816,000 (2017: £1,189,000) which will be transferred to reserves. The results for the financial year are shown on page 9.

The directors do not recommend the payment of a dividend (2017: £nil).

Financial risk management, objectives and policies

Financial risk management of the company is included in the strategic report on page 1.

Directors of the company

The directors of the company who held office during the financial year and up to the date of signing these financial statements were:

Hicham Khellafi

John J Tus

Mehmet Erkilic (resigned on 31 January 2018)

Directors' indemnities

Pursuant to the company's articles of association, the directors were throughout the financial year ended 31 December 2018 and are at the date of this report entitled to a qualifying indemnity provision as defined in section 234 of the Companies Act 2006.

Research and development

Research and development expenditure for the financial year amounted to £1,348,000 (2017: £1,689,000).

Going concern

The company's business activities, together with the factors likely to affect its future development and position, are set out in the strategic report.

The ultimate parent company, Honeywell International Inc. has indicated that it will provide financial support to the company for at least one year from the date of signing these financial statements. The directors, having taken into account both the future trading of the company and the ability of the ultimate parent company to provide financial support, have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and financial statements.

Disclosure of information to auditors

In the case of each of the persons who is a director at the time this report is approved:

- so far as the director is aware, there is no relevant audit information of which the company's auditor is unaware; and
- each director has taken all the steps that he/she ought to have taken as a director to make him/herself aware of any relevant audit information and to establish that the company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of section 418 of the Companies Act 2006.

Events since the balance sheet date

There have been no material adjusting or disclosable events since the financial year end.

Directors' report

for the financial year ended 31 December 2018

Independent auditors

Deloitte LLP have expressed their willingness to be reappointed for another term and appropriate arrangements have been put in place for them to be deemed reappointed as auditor in the absence of an Annual General Meeting.

Directors' responsibility statement

for the financial year ended 31 December 2018

Directors' responsibilities statement

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Practice (United Kingdom Accounting Standards and applicable law), including FRS 101 'Reduced Disclosure Framework.'

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss for that period.

In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards has been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

To assist them in discharging these responsibilities, the directors have engaged a number of third party providers including accounting firms who are engaged to prepare the company's financial statements, as well as Honeywell International Inc.'s own finance shared service centre located in Bengaluru/Bucharest. Honeywell operates a country controllership model under which an identified senior finance representative is responsible for all of the UK and Ireland entities, supported by a wider finance team and under the supervision of the Regional Finance Leader for North & South Europe. The directors have ensured that adequate processes are in place to maintain oversight and supervision over these various providers and processes and to ensure there is clear linkage with the company's activities.

Independent auditor's report

to the members of City Technology Limited

Report on the audit of the financial statements

Opinion

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2018 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice including Financial Reporting Standard 101 "Reduced Disclosure Framework" and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements of City Technology Limited (the 'company') which comprise:

- the profit and loss account;
- the statement of comprehensive income;
- the balance sheet;
- the statement of changes in equity; and
- the related notes 1 to 19.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 "Reduced Disclosure Framework" (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs(UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We are required by ISAs (UK) to report in respect of the following matters where:

- the directors' use of the going concern basis of accounting in preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

We have nothing to report in respect of these matters.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in respect of these matters.

Independent auditor's report

to the members of City Technology Limited

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Report on other legal and regulatory requirements

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors' report.

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

Independent auditor's report
to the members of City Technology Limited

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the Financial Statements

for the financial year ended 31 December 2018

1. General information

City Technology is a private company limited by shares which is incorporated in the United Kingdom under the Companies Act 2006 and registered in England and Wales. The nature of the company's operations and its principal activities are set out in the strategic report on page 1.

The immediate parent undertaking is Comstack Limited, a company incorporated in United Kingdom. The registered address of the parent is Honeywell House, Skimped Hill Lane, Bracknell, Berkshire, RG12 1EB, England, United Kingdom.

The company's results are included in the consolidated financial statements of Honeywell International Inc., a company registered in the USA. Honeywell International Inc. is the company's ultimate parent company and controlling party, heading up the smallest and largest group to consolidate these financial statements. The registered office of the ultimate parent company is located at 251, Little Falls Drive, Wilmington, DE 19808, USA. The financial statements of Honeywell International Inc. are publicly available and can be obtained from Corporate Publications, PO Box 2245, Morristown, New Jersey 07962-2245, USA or from the Internet at www.honeywell.com.

2. Significant accounting policies

The accounting policies that have been applied consistently throughout the financial year and in the preceding year are set out below:

Basis of preparation

The company meets the definition of a qualifying entity under FRS 100 'Application of Financial Reporting Requirements' issued by the FRC. Accordingly, these financial statements were prepared in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework'.

In preparing these financial statements, the company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the EU ("Adopted IFRSs"), but makes amendments where necessary in order to comply with Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken.

These financial statements are prepared on a going concern basis, under the historical cost convention, and in accordance with the Companies Act 2006. The company's financial statements are presented in Sterling and all values are rounded to the nearest thousand pounds (£000) except when otherwise indicated.

The company has taken advantage of the following disclosure exemptions under FRS 101:

- the requirements of IFRS 7 Financial Instruments: Disclosures;
- the requirements of paragraphs 91-99 of IFRS 13 Fair Value Measurement;
- the requirement in paragraph 38 of IAS 1 'Presentation of Financial Statements' to present comparative information in respect of paragraph 79(a)(iv) of IAS 1, paragraph 73(e) of IAS 16 Property, Plant, Equipment and paragraph 118(e) of IAS 38 Intangible Assets and paragraph 17 of IAS 24 Related Party Disclosures;
- the requirements of paragraphs 10(d), 10(f), 16, 38A to 38D, 40A to 40D, 111 and 134-136 of IAS 1 Presentation of Financial Statements;
- the requirements of IAS 7 Statement of Cash Flows;
- the requirements of paragraphs 30 and 31 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors; and
- the requirements in IAS 24 Related Party Disclosures to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member.
- the requirements of the second sentence of paragraph 110 and paragraphs 113(a), 114, 115, 118, 119(a) to (c), 120 to 127 and 129 of IFRS 15 Revenue from Contracts with Customers.

Notes to the Financial Statements

for the financial year ended 31 December 2018

Going concern

The company's business activities, together with the factors likely to affect its future development and position, are set out in the strategic report.

The ultimate parent company, Honeywell International Inc. has indicated that it will provide financial support to the company for at least one year from the date of signing these financial statements. The directors, having taken into account both the future trading of the company and the ability of the ultimate parent company to provide financial support, have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and financial statements.

Turnover and revenue recognition

The company has applied IFRS 15 using the cumulative effect method and therefore the comparative information has not been restated and continues to be reported under IAS 18.

Turnover comprises service revenues net of value added tax.

The company recognises revenue when it satisfies an identified performance obligation by transferring a promised service to a customer excluding amounts collected on behalf of third parties. The company measures revenue at the transaction price, excluding estimates of variable considerations. A service is considered to be transferred when the customer obtains control. IFRS 15 states that "control of an asset refers to the ability to direct the use of and obtain substantially all of the remaining benefits from the asset". Control also means the ability to prevent others from directing the use of, and receiving the benefit from, a service.

As per IFRS 15, the performance obligations are deemed to be satisfied in respect of the following when:

<u>Type of sale</u>	<u>Recognition</u>
Sale of goods	On delivery and when acceptance by the customer has occurred
Rendering of services	As and when performance obligations are satisfied using cost to cost measure of progress

Revenue – Accounting policies applied until 31 December 2017

- *Turnover and revenue recognition*

In the comparative period, revenue was recognised to the extent that it was probable that the economic benefits would flow to the company and the revenue could be reliably measured. Revenue was measured at the fair value of the consideration received, excluding discounts, rebates, value added tax and other sales taxes. The following criteria was assessed before revenue was recognised:

<u>Type of sale</u>	<u>Recognition</u>
Rendering of services	as the cost is incurred

Interest receivable

Interest income is recognised as interest accrues using the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to its net carrying amount.

Operating leases – as lessee

Leases where the lessor retains a significant portion of the risks and benefits of ownership of the asset are classified as operating leases and rentals payable are charged in the profit and loss account on a straight line basis over the lease term.

Notes to the Financial Statements

for the financial year ended 31 December 2018

Research and development

All costs associated with research and development are written off to the profit and loss account in the year of expenditure, less any R&D expenditure credit reclaimable from HM Revenue and Customs in respect of those costs.

Foreign currency translation

The company's financial statements are presented in Sterling, which is also the company's functional currency.

Transactions in foreign currencies are initially recorded in the entity's functional currency by applying the spot exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange ruling at the balance sheet date. All differences are taken to the profit and loss account.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Taxation

The tax currently payable is based on taxable profit for the financial year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other financial years and it further excludes items that are never taxable or deductible. Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that are enacted or substantively enacted by the balance sheet date.

Deferred income tax is recognised on all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements, except when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred income tax assets are recognised only to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, carried forward tax credits or tax losses can be utilised.

Deferred income tax assets and liabilities are measured on an undiscounted basis at the tax rates that are expected to apply when the related asset is realised or liability is settled, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date. Deferred income tax assets and liabilities are offset, only if a legally enforceable right exists to set off current tax assets against current tax liabilities, the deferred income taxes relate to the same taxation authority and that authority permits the company to make a single net payment.

Income tax is charged or credited to other comprehensive income if it relates to items that are charged or credited to other comprehensive income. Similarly, income tax is charged or credited directly to equity if it relates to items that are credited or charged directly to equity. Otherwise income tax is recognised in the profit and loss account.

Tangible assets and depreciation

Tangible assets are stated at historical purchase cost less accumulated depreciation. Depreciation is calculated using the straight-line method at rates calculated to write down the cost to the estimated residual value over the estimate useful life. Cost comprises purchase costs together with any incidental expenses of acquisition. The annual depreciation rates used for the major assets are:

Land & buildings	Over lease term
Plant & machinery	8-33%

Notes to the Financial Statements

for the financial year ended 31 December 2018

Fixtures & fittings

7-33%

Depreciation is not provided on construction in progress until the asset is completed.

Land is not depreciated.

The assets' estimated useful lives, depreciation rates and residual values are reviewed, and adjusted if appropriate, at the end of each reporting period.

Impairment of non-financial assets

The company assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the company makes an estimate of the asset's recoverable amount in order to determine the extent of the impairment loss. An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses on continuing operations are recognised in the profit and loss account in those expense categories consistent with the function of the impaired asset.

For assets where an impairment loss subsequently reverses, the carrying amount of the asset or cash generating unit is increased to the revised estimate of its recoverable amount, not to exceed the carrying amount that would have been determined, net of depreciation, had no impairment losses been recognised for the asset or cash generating unit in prior years. A reversal of impairment loss is recognised immediately in the profit and loss account.

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial asset – recognition and measurement

Initial recognition and measurement

Financial assets are recognised when the entity becomes a party to the contract and, as a consequence, has a legal right to receive cash.

All financial assets are initially measured at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the company commits to purchase or sell the asset.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets

Classification of financial assets depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

The company classifies its financial assets in the following measurement categories:

- those measured at amortized cost,
- those to be measured subsequently at fair value, either through other comprehensive income (FVTOCI) or through profit or loss (FVTPL)

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the company's balance sheet) when:

Notes to the Financial Statements

for the financial year ended 31 December 2018

- The rights to receive cash flows from the asset have expired, or
- The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

In accordance with IFRS 9, the company applies expected credit loss (ECL) model for the measurement and recognition of impairment loss on financial assets measured at amortised cost e.g., loans and amounts owed by group undertakings.

The company has considered any expected credit loss in respect of the amounts owed from group undertakings. A letter of guarantee has been provided by the ultimate parent company, Honeywell International Inc. indicating that support will be given in order to settle these amounts should it be necessary. Accordingly, the company has not recognised a provision for expected credit loss.

Financial liabilities - recognition and measurement

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and loans and borrowings.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

The company's financial liabilities comprise of trade creditors and loans and borrowings.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the profit and loss account.

Financial Instruments – Accounting policies applied until 31 December 2017

Financial assets - recognition and measurement

Financial assets within the scope of IAS 39 are classified as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, available-for-sale financial assets, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

Notes to the Financial Statements

for the financial year ended 31 December 2018

The company determines the classification of its financial assets at initial recognition. Trade debtors, amounts owed by group undertakings and other debtors have been classified as loans and receivables. The company has no other financial assets.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are initially recognised at fair value and subsequently measured at amortised cost less impairment.

Impairment of financial assets

The company assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Pensions

As described in note 15, the company participates in a defined benefit pension scheme for the benefit of certain of its employees, the assets of which are held separately from those of the company in independently administered funds. The rates of contribution are determined by independent professionally qualified actuaries.

The cost of providing benefits under the defined benefit plans is determined separately for each plan using the projected unit credit method, which attributes entitlement to benefits to the current period (to determine current service cost) and to the current and prior periods (to determine the present value of defined benefit obligation) and is based on actuarial advice. Past service costs are recognised in profit or loss. When a settlement (eliminating all obligations for benefits already accrued) or a curtailment (reducing future obligations as a result of a material reduction in the scheme membership or a reduction in future entitlement) occurs, the obligation and related plan assets are re-measured using current actuarial assumptions and the resultant gain or loss recognised in the profit and loss account during the period in which the settlement or curtailment occurs.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset, both as determined at the start of the annual reporting period, taking account of any changes in the net defined benefit liability during the period as a result of contribution and benefit payments. The net interest is recognised in profit or loss as interest receivable or payable.

Remeasurements, comprising actuarial gains and losses and the return on the net assets (excluding amounts included in net interest), are recognised immediately in other comprehensive income in the period in which they occur.

The defined benefit pension asset or liability in the balance sheet comprises the total for each plan of the present value of the defined benefit obligation (using a discount rate based on high quality corporate bonds), less the fair value of plan assets out of which the obligations are to be settled directly. Fair value is based on market price information and in the case of quoted securities is the published bid price. The value of a net pension benefit asset is restricted to the present value of any amount the company expects to recover by way of refunds from the plan or reductions in the future contributions.

Defined contribution plans are externally funded, with the assets of the plan held separately from those of the company in separate trustee administered funds. Contributions to such plans are charged to the profit and loss account as they become payable.

Notes to the Financial Statements

for the financial year ended 31 December 2018

3. Judgements and key sources of estimation uncertainty

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for revenues and expenses during the financial year.

Judgements

There are no judgements that have a significant effect on amounts recognised in the financial statements.

Estimates

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the company. Such changes are reflected in the assumptions when they occur.

(i) Estimates used for DB pension scheme

The cost of defined benefit pensions plans and other post-employment medical benefits are determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, future salary increases, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions and the long term nature of these plans, such estimates are subject to significant uncertainty. In determining the appropriate discount rate, the actuary considers the interest rates of corporate bonds in the respective currency with at least AA rating, with extrapolated maturities corresponding to the expected duration of the defined benefit obligation. The underlying bonds are further reviewed for quality, and those having excessive credit spreads are removed from the population of bonds on which the discount rate is based, on the basis that they do not represent high quality bonds. The mortality rate is based on publicly available mortality tables for the specific country. Future salary increases and pension increases are based on expected future inflation rates for the respective country. Management works closely with the actuary to agree to these assumptions. The value of a net pension benefit asset is restricted to the present value of any amount the company expects to recover by way of refunds from the plan or reductions in the future contributions. Further details are given in note 15.

Notes to the Financial Statements

for the financial year ended 31 December 2018

4. New and amended standards and interpretations

The company applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 January 2018. The company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The nature and the effect of these changes are disclosed below:

IFRS 15 Revenue from contracts with customers

IFRS 15 superseded IAS 11 Construction Contracts, IAS 18 Revenue and related Interpretations and it applies, with limited exceptions, to all revenue arising from contracts with its customers. IFRS 15 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

IFRS 15 requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. In addition, the standard requires extensive disclosures.

The company adopted IFRS 15 using the cumulative effects method. There was no impact of the transition to IFRS 15 on the profit and loss account of the company.

IFRS 9 Financial Instruments

IFRS 9 Financial Instruments replaced IAS 39 Financial Instruments: Recognition and Measurement for annual periods beginning on or after 1 January 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting.

As required by IFRS 9, the company has considered any expected credit loss in respect of the amounts owed from group undertakings. A letter of guarantee has been provided by the ultimate parent company, Honeywell International Inc. indicating that support will be given in order to settle these amounts should it be necessary. We are satisfied that Honeywell International Inc. has the ability to provide this guarantee. Accordingly, the company has not recognised a provision for expected credit loss.

5. Turnover

	2018	2017
	£000s	£000s
<i>Analysis of turnover by geographical market</i>		
Europe	11,270	11,388
<i>Total turnover by geographical market</i>	11,270	11,388
	2018	2017
	£000s	£000s
<i>Analysis of turnover by category</i>		
Rendering of services	11,270	11,388
<i>Total turnover by category</i>	11,270	11,388

Notes to the Financial Statements

for the financial year ended 31 December 2018

6. Operating profit

	2018	2017
	£000s	£000s
This is stated after charging/(crediting):		
Depreciation (refer note 11)		
Tangible assets – owned	216	243
Rental charges under operating leases		
Land and buildings	346	346
(Gain)/loss on disposal of fixed assets	(2)	3
Research and development	1,348	1,689
Loss on foreign exchange	30	6

7. Auditor's remuneration

Fees payable to the auditor, Deloitte LLP, amounted to £16,154 (2017: £15,680) for the audit of the financial statements. This cost was incurred by Honeywell Control Systems Limited, a fellow UK subsidiary of Honeywell International Inc., and it is not recharged to the company.

There are no non audit services fees payable to the auditor.

8. Employees and directors

(a). Staff costs

	2018	2017
	£000s	£000s
Wages and salaries	4,792	4,790
Social security costs	408	421
Contributions to defined contribution pension plans	302	225
Pension costs for defined benefit plans (note 15)	-	336
Total staff costs	5,502	5,772

Notes to the Financial Statements

for the financial year ended 31 December 2018

The average monthly number of employees during the financial year was made up as follows:

(including executive directors)

	2018	2017
	No.	No.
Direct	114	113
Indirect	66	69
<i>Total monthly average number of employees</i>	<u>180</u>	<u>182</u>

In 2018, all directors (2017: all directors) did not undertake any relevant services to the entity and were remunerated by other group companies for their services to the group as a whole.

9. Interest receivable and similar income

	2018	2017
	£000s	£000s
Interest receivable from group undertakings	862	683
Pension interest (note 15)	152	83
<i>Total interest receivable and similar income</i>	<u>1,014</u>	<u>766</u>

10. Taxation

(a) Tax charged in the profit and loss account

	2018	2017
	£000s	£000s
<i>Current tax:</i>		
UK corporation tax on profit for financial year	18	-
Adjustment in respect of prior years	78	-
<i>Total current tax</i>	<u>96</u>	<u>-</u>
<i>Deferred tax:</i>		
Origination and reversal of temporary differences	81	160
Adjustment in respect of prior years	(5)	79
Effect of change in tax laws and rates	-	(9)
<i>Total deferred tax</i>	<u>76</u>	<u>230</u>
<i>Total tax expense reported in the profit and loss account</i>	<u>172</u>	<u>230</u>

Notes to the Financial Statements

for the financial year ended 31 December 2018

(b). Tax relating to items charged to statement of comprehensive income

	2018	2017
	£000s	£000s
<i>Deferred tax:</i>		
Remeasurements on defined benefit pension plans	138	316
Total deferred tax	138	316
<i>Total tax expense in the statement of comprehensive income</i>	138	316

(c). Reconciliation of the total tax charge

The tax expense in the profit and loss account for the financial year is lower to the standard rate of corporation tax in the UK of 19% (2017: 19.25%). The differences are reconciled below:

	2018	2017
	£000s	£000s
Profit before tax	1,988	1,419
Profit multiplied by the effective rate of corporation tax in the UK of 19% (2017: 19.25%)	378	273
<i>Effects of:</i>		
Income not chargeable	(63)	(5)
Expenses not deductible for tax purposes and other permanent differences	1	-
Effect of change in tax laws and rates	-	(9)
Difference in current tax rate to deferred rate	(10)	(21)
Adjustment for tax for prior years	73	79
Group relief not paid for	(207)	(87)
<i>Total tax expense reported in the profit and loss account</i>	172	230

(d). Factors affecting tax charge for the financial year

The standard rate of UK corporation tax reduced from 20% to 19% on 1 April 2017. The Finance (No.2) Act 2017 received Royal Assent on 16 November 2017 which will reduce the rate further to 17% from 1 April 2020. These reductions may reduce the company's future tax charge accordingly.

Notes to the Financial Statements

for the financial year ended 31 December 2018

(e). Deferred tax

	2018	2017
	£000s	£000s
<i>The deferred tax included in the balance sheet is as follows:</i>		
Deferred tax asset		
Differences between capital allowances and depreciation	260	224
<i>Total deferred tax asset</i>	<u>260</u>	<u>224</u>
Deferred tax liability		
Deferred tax provision on pension asset (note 15)	(1,104)	(854)
<i>Total deferred tax liability</i>	<u>(1,104)</u>	<u>(854)</u>
Net deferred tax liability	<u>(844)</u>	<u>(630)</u>

<i>Movements in deferred tax</i>	<i>Excluding pension £000s</i>	<i>Pension £000s</i>	<i>Total £000s</i>
At 1 January 2018	223	(853)	(630)
Credit/(charge) to the profit and loss account	37	(113)	(76)
Charged to statement of comprehensive income	-	(138)	(138)
<i>At 31 December 2018</i>	<u>260</u>	<u>(1,104)</u>	<u>(844)</u>

The deferred tax asset is recognised because it is more likely than not that there will be sufficient taxable profits in the future to recover the assets.

There are no unprovided amounts relating to deferred tax.

15. Pension commitments

Honeywell UK Pension Scheme (HUKPS)

The company is a participating employer in the Honeywell UK Pension Scheme (HUKPS) which is a funded defined benefit plan based on salary. It is closed to new entrants. Regular employer contributions to the plan by the company in 2019 are estimated to be £nil. Defined benefit obligations are based on a full valuation of the schemes liabilities as at 31 March 2018, measured using the projected unit credit method and rolled forward to the year-end date as at 31 December 2018.

	2018	2017

<i>Rate of increase for pensions</i>		
Pensions subject to limited price indexation to 5%	3.1	3.1
Pensions subject to limited price indexation to 2.5%	2.2	2.2
Other pensions and deferred pensions	2.1	2.1
Discount rate for scheme liabilities	2.9	2.5

Mortality

Mortality assumptions are based on standard mortality tables that allow for future mortality improvements. These tables assume that a member who retired in 2018 at age 65 will live on average for a further 21.6 years (2017: 22.7 years) after retirement if male or a further 23.5 years (2017: 24.5 years) if female.

Overall long-term rate of return

The company employs a building block approach in determining the long-term rate of return on pension plan assets. Historical markets are studied and assets with a higher volatility are assumed to generate higher returns consistent with widely accepted capital market principles. The overall expected rate of return on assets is then derived by aggregating the expected rate of return for each asset class over the actual asset allocation for the plan at the year end.

16. Called-up share capital

	2018	2017
	£000s	£000s
<i>Authorised and allotted, called up and fully paid</i>

Notes to the Financial Statements

for the financial year ended 31 December 2018

18. Operating lease commitments

	2018	Restated 2017
	£000s	£000s
At 31 December the future minimum rentals payable under non-cancellable operating leases are as follows:		
<i>Land and buildings</i>		
Not later than one year	346	346
After one year but not more than five years	1,384	1,384
After five years	346	693
<i>Total land and building operating lease commitments</i>	<u>2,076</u>	<u>2,423</u>

The company has entered into commercial leases agreement on a property in Portsmouth, United Kingdom. The termination date of this lease is 2025. There is an option for renewal which can be exercised in 2020, when the lease is due for review.

19. Contingent liabilities

The company, with other Honeywell group companies in the UK, has provided a bank guarantee under a composite accounting agreement. Under this agreement, bank interest is calculated on the net group position after setting off positive and overdrawn cash balances. The maximum contingent liability under this agreement is the total of overdrawn balances held by group companies, amounting to £423,389,000 (2017: £527,287,000).

Positive cash balances held by the group exceeded overdrawn balances in 2018 and 2017.
