1. Accounting policies

Basis of measurement and preparation

These financial statements have been prepared in accordance with the provisions of Section 1A (Small Entities) of Financial Reporting Standard 102

Other accounting policies

Basis of preparation The financial statements have been prepared under the historical cost convention. In previous years, the financial statements have been prepared on a going concern basis. The Company did not trade during the year, and subsequent to the balance sheet date the directors decided that trading activity will not resume in the foreseeable future. Accordingly, the directors have not prepared the financial statements on a going concern basis. There have been no changes to the presentation of the balance sheet as a result of this decision. The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

Disclosure exemptions A parent undertaking of the company, Centremanor Limited includes the Company in its consolidated financial statements. The consolidated financial statements of Centremanor Limited are prepared in accordance with FRS 102 and are available to the public and may be obtained from Freshwater House, 158-162 Shaftesbury Avenue, London WC2H 8HR. In these financial statements, the company is considered to be a qualifying entity (for the purposes of this FRS) and has applied the exemptions available under FRS 102 in respect of the following disclosures: Reconciliation of the number of shares outstanding from the beginning to end of the period; Cash Flow Statement and related notes; Key Management Personnel compensation; and Basic and other financial instruments.

Basic financial instruments Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all its financial liabilities.

Trade and other debtors Trade and other debtors are recognised initially at transaction price plus attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses. If the arrangement constitutes a financing transaction, for example if payment is deferred beyond normal business terms, then it is measured at the present value of future payments discounted at a market rate of instrument for a similar debt instrument.

Trade and other creditors Trade and other creditors are recognised initially at transaction price less attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method. If the arrangement constitutes a financing transaction, for example if payment is deferred beyond normal business terms, then it is measured at the present value of future payments discounted at a market rate of instrument for a similar debt instrument.
