Directors' report

The directors present their annual report and the audited financial statements for the year ended 31 December 2007

Principal activities

The principal activity of the company is to provide services to the United Kingdom General Branch of Munich Reinsurance Company AG

The company continues to fulfil its role as a service provider to the Munich Re UK General Branch, but during 2007 the role was expanded as part of Munich Re Group's decision to bring together in one location in the City its non-marine non-life insurance and reinsurance operations. This move was successfully completed during the summer As well as a physical move, a number of the back-office and front-office functions have been consolidated including a Claims Shared Service which also supports the business of our sister company. Great Lakes Reinsurance (UK) pic

As reported last year. MRGS holds the leasehold interest in the third floor of Plantation Place, together with the fixed assets associated with the new offices and as a result, the company's balance sheet has grown substantially. As the company is a wholly owned subsidiary of Munich Reinsurance Company AG. the level of risk is however limited

There was no dividend declared during 2007 (2006 none) and directors recommend transferring the profit for the year to retained earnings

- Key Performance Indicators
 1 Costs incurred in respect of provision of administration services. (In respect of administration services only operating evnenses)
- 2 Margin on services provided by MRGS (in respect of administration services only operating profit divided by operating expenses)

Key Performance Indicators	2007	2006
Costs in respect of administration services (£m)	17 7	138
Maroin on administration services	4 2%	4 3%

Principal risks and uncertainties

As the principal risks and uncertainties.

As the principal activities are provision of services and staff to MRUKGB and other Munich Re UK trading entities.

MRGS is dependant on the continuing need for those services. Therefore, should MRUKGB case to require the services from MRGS it would have a dramatic and adverse impact on MRGS. Because of the nature of the business of MRUKGB, its place in the UK reinsurance market and its status as part of the UK branch of Munich Re this risk is not considered significant.
