# NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 SEPTEMBER 2012

#### 1 ACCOUNTING POLICIES

The principal accounting policies are set out below. They have all been applied consistently throughout the current period and preceding year.

#### 1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards

The Company is itself a subsidiary company and is exempt from the requirement to prepare group accounts by virtue of section 400 of the Companies Act 2006. These financial statements therefore present information about the Company as an individual undertaking and not about its group.

12 Going concern

The Company has a net asset position with no significant liabilities or commitments. The Company will receive interest income on the loan to other group entities in future years and is expected to be profit making.

The financial position and cash flows of the Company are such that the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and accounts.

#### 1.3 Cash flow

The Company, being a subsidiary undertaking where 90% or more of the voting rights are controlled within the group whose consolidated financial statements are publicly available, is exempt from the requirement to draw up a cash flow statement in accordance with FRS 1

### 1.4 Investments

Investments held as fixed assets are shown at cost less provision for impairment

#### 1.5 Taxation

Corporation tax is provided on taxable profits at amounts expected to be paid, or recovered, under tax rates and laws that have been enacted or substantively enacted at the balance sheet date

Deferred tax is recognised to take account of timing differences between the treatment of transactions for financial reporting purposes and their treatment for tax purposes. A deferred tax asset is only recognised when it is regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing difference can be deducted.

Deferred tax is measured at the tax rates that are expected to apply in periods in which the timing differences are expected to reverse, based on the tax rates that have been enacted or substantively enacted at the balance sheet date. Deferred tax is measured on a non discounted basis.

#### 1.6 Dividends

Dividends to the Company's shareholders are recognised as a liability and deducted from shareholders' equity in the period in which the shareholders' right to receive payment is established

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 SEPTEMBER 2012

During the period the main rate of corporation tax reduced from 26% to 24% with effect from 1 April 2012. The Finance Act 2012, which was enacted and received Royal Assent on 17 July 2012, reduced the main rate of corporation tax to 23% from 1 April 2013.

Legislation to reduce the main rate of corporation tax from 23% to 21% from 1 April 2014 and to 20% from 1 April 2015 was included in the Finance Act 2013 which was enacted in July 2013. These rate reductions had not been substantively enacted at the balance sheet date and, therefore, are not included in these financial statements.
