NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 31 MARCH 2005

1. ACCOUNTING POLICIES

Basis of accounting

The Financial Statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective June 2002), subject to the departures referred to below.

Turnover

Turnover represents rents receivable and charges recoverable from the tenants of the company's properties, credit for which is taken when the charge is made to the tenants.

Fixed assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Fixtures & Fittings - 25% Reducing Balance Method

Leases having an unexpired term of less that twenty years are amortised evenly over the remaining period of the lease.

Low value items of furniture and fittings are written off in the year in which they are acquired.

Stocks

Stock is comprised of freehold and leasehold properties held for trading and is included in the financial statements at the lower of cost and estimated net realisable value.

Acquisitions and disposals of properties

Acquisitions and disposals are considered to have taken place at the date of legal completion and are included in the financial statements accordingly.

Format of the financial statements

The financial statements are presented in accordance with the format prescribed by Schedule 4 Companies Act 1985 with suitable adaptation thereof which the directors consider to be appropriate having regard to the nature of the company's activities.
