Directors' report

For the year ended 30 June 2005

The Directors present their annual report on the affairs of Newscorp Investments ("the Company") and its subsidiary undertakings (together "the Group") together with the financial statements and auditors' report for the year ended 30 June 2005.

Principal activities

The principal activities of the Group are the printing and publishing of national newspapers in the United Kingdom.

The Group's other activities include the publishing of books, radio broadcasting and the provision of financial services to other undertakings in the News Corporation group.

An analysis of turnover, profit on ordinary activities before taxation and net assets employed for these activities is given in note 2 to the financial statements.

The subsidiary and associated undertakings primarily affecting the results or net assets of the Group in the year are listed in note 29 of the financial statements.

Business review and future developments

Results for the year

The Group's operating profit for the year was £197.5 million (2004 - £214.3 million). The Group's profit before taxation was £147.4 million (2004 - £74.4 million).

Newspapers

For the year ended 30 June 2005, UK newspapers' revenues increased compared with the corresponding period of the prior year due to higher circulation and advertising revenues. Circulation revenue increased over the corresponding period of fiscal 2004 due to the national rollout of the compact product at *The Times*, as well as cover price increases on the Group's other national newspapers. This increase in circulation revenue was partly offset by lower net circulation on *The Sun*, *The Sunday Times* and *The News of the World*. The increase in advertising revenue was due to higher volume on colour display advertising and increased inserts on *The Sun*, *The News of the World* and *The Sunday Times*.

Operating profit at the UK Newspapers decreased for the year ended 30 June 2005 as compared to the corresponding period of fiscal 2004. The decrease was primarily due to increased depreciation and other costs associated with the development of new printing plants in the United Kingdom.

In October 2004, News Corporation announced its intentions to invest in new printing plants in the United Kingdom. This will involve a total investment in excess of £600 million for new buildings, presses and related costs. The project is proceeding on schedule at the sites in Broxbourne, near Enfield north of London, Glasgow and Knowsley close to Liverpool.

Television and radio broadcasting

The results for the current year relate to the Group's 93% holding in Sky Radio Limited.

Book publishing

Book publishing revenues amounted to £228.6 million (2004 - £229.7 million) and operating profit to £21.3 million (2004 - £16.9 million).

Harper Collins had 41 titles placed on the Sunday Times best-seller lists during the year, 7 of which were number ones.

Directors' report – continued

Results and dividends

The Group profit for the financial year after taxation and minority interests was £100.5 million (2004 – £62.6 million). The Directors do not recommend a dividend (2004 – £Nil).

Directors and their interests

The Directors of the Company are as follows:

S. W. Daintith (appointed 19 September 2005)
C. A. Fairweather
L. F. Hinton
S. F. Hutson
R. M. Linford
K. R. Murdoch

The Articles of Association do not require Directors to retire either by rotation or in the year of appointment.

Except as noted above, all Directors served throughout the year and are still Directors at the date of this report.

News Corporation has indemnified one or more Directors of the Company against liability in respect of proceedings brought by third parties, subject to the conditions set out in the Companies Act 1985. Such qualifying third party indemnity provision was in force during the year and is in force as at the date of approving the Directors' Report.

Charitable and political contributions

Charitable contributions made by the Group in the financial year amounted to £1.3 million (2004 – £1.0 million). There were no political contributions (2004 – £Nil).

Employment of disabled persons

Applications for employment by disabled persons are always fully considered, bearing in mind the respective aptitudes and abilities of the applicant concerned. In the event of members of staff becoming disabled every effort is made to ensure that their employment with the Group continues and that appropriate training is arranged. It is the policy of the Group that the training, career development and promotion of disabled persons should, as far as possible, be identical with that of other employees.

Employee consultation

There are over 6,000 staff working in the Group. They are our most valuable asset. During the past year we have continued to work with considerable success on ways of involving more staff in the decision making process.

Newspapers

There is a staff association ("NISA") at each of the three main newspaper division operating sites – our head office at Wapping, and the plants at Knowsley on Merseyside and Kinning Park in Glasgow. These bodies are made up of democratically elected representatives of the workforce. There are 24 members of NISA at Wapping, 8 members at Knowsley and 8 members at Kinning Park.

The Association is the representative body, which formally negotiates on behalf of staff with News International management. The Joint Executive Committee of NISA receives information and consultation on the evolution of work organisation, training of employees, major operational issues, development and promulgation of Company policies, significant Company initiatives and in fulfilling the Company's legal obligations on subjects such as redundancy or transfers of undertakings.

Directors' report – continued

Book publishing

The book publishing division of the Group practises the policy of providing its employees with information concerning the division through meetings, bulletins, circulars and a house magazine. There are frequent open exchanges of views with recognised UK trade unions and employee representatives participate on various committees and panels. A number of employee benefit schemes are in operation and are designed to promote employee identification and association with division performance. Some form of bonus scheme is now in operation for virtually all staff within the division based on either productivity, sales and/or company/division profitability.

Other

All other Group companies keep employees informed on matters affecting them as employees and on various factors affecting the performance of their company.

Creditors payment policy

The Group's policy is to pay suppliers at the end of the month following that in which the supplier's invoice is received. The policy is made known to the staff who handle payments to suppliers and is made known to all suppliers on request. The number of suppliers' days outstanding at the year end was 42 days (2004 - 39 days).

Auditors

The Directors will place a resolution before the Annual General Meeting to reappoint Ernst & Young LLP as auditors for the ensuing year.

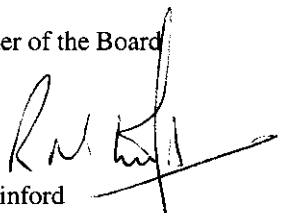

Statement of Directors' responsibilities

Company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company and of the Group and of the profit or loss of the Group for that period. In preparing those financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group will continue in business.

The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and the Group and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the Company and the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent Auditors' report

To the members of Newscorp Investments

We have audited the Group's financial statements for the year ended 30 June 2005 which comprise the Consolidated Profit and Loss account, Consolidated Statement of Total Recognised Gains and Losses, the Consolidated and Company Balance Sheets and the related notes numbered 1 to 29. These financial statements have been prepared on the basis of the accounting policies set out therein.

This report is made solely to the Company's members, as a body, in accordance with Section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

As described in the Statement of Directors' Responsibilities the Company's directors are responsible for the preparation of the financial statements in accordance with applicable United Kingdom law and accounting standards.

Our responsibility is to audit the financial statements in accordance with relevant legal and regulatory requirements and United Kingdom Auditing Standards.

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Act 1985. We also report to you if, in our opinion, the Directors' Report is not consistent with the financial statements, if the Group has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding directors' remuneration and transactions with the Group is not disclosed.

We read the Directors' Report and consider the implications for our report if we become aware of any apparent misstatements within it.

Basis of audit opinion

We conducted our audit in accordance with United Kingdom Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the Directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the Group's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Opinion

In our opinion the financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 30 June 2005 and of the profit of the Group for the year then ended and have been properly prepared in accordance with the Companies Act 1985.

Notes to the financial statements

30 June 2005

1 Principal accounting policies

Basis of preparation

The financial statements are prepared under the historical cost convention and in accordance with United Kingdom Generally Accepted Accounting Principles, modified to include the revaluation of certain fixed assets.

The principal accounting policies have been applied consistently throughout the year and the preceding year.

Basis of consolidation

The Group financial statements are made up to 30 June 2005 and consolidate the financial statements of Newscorp Investments and all its subsidiary undertakings.

Entities, other than subsidiary undertakings or joint ventures, in which the group has a participating interest and over whose operating and financial policies the Group exercises a significant influence are treated as associates. In the Group financial statements, associates are accounted for using the equity method.

The results of subsidiary undertakings acquired or sold are consolidated for the periods from or to the date on which control passed. Acquisitions are accounted for under the acquisition method.

Certain prior year amounts have been reclassified to conform to the current year presentation.

In the Company's financial statements, investments in subsidiary undertakings are stated at cost less amounts written off.

No profit and loss account is presented for the Company, as provided by section 230 of the Companies Act 1985. The loss for the financial year of the Company was £0.1 million (2004 - £0.2 million).

Cash flow statement

The Group is exempt from the requirement of FRS 1 'Cash Flow Statements' to include a cash flow statement as part of its financial statements because it is a wholly owned subsidiary undertaking of News Corporation, which prepares consolidated financial statements which are publicly available, in which a consolidated cashflow statement is included.

Participating interests and joint ventures

Undertakings, not being subsidiary undertakings, in which the Group has a participating interest (usually comprising not less than 20% of the voting capital) and over which it exerts significant influence, are treated as associates or joint ventures. The consolidated profit and loss account includes the appropriate share of these undertakings' profits or losses for the year and the Group's share of post acquisition retained profits or losses and reserves is added to the cost of investment in the consolidated balance sheet.

Other participating interests over which the Group does not exert significant influence are accounted for as investments.

Goodwill

Goodwill is the difference between the cost of an acquired entity and the aggregate of the fair value of that entity's identifiable assets and liabilities.

Positive goodwill is capitalised, classified as an asset on the balance sheet and amortised on a straight-line basis over its useful economic life which is considered to be 20 years or less. It is reviewed for impairment at the end of the first full financial year following the acquisition and in other periods if events or changes in circumstances indicate that the carrying value may not be recoverable.

Negative goodwill is similarly included in the balance sheet and is credited to the profit and loss account in the periods expected to benefit from its consumption.

Investments

Investments are stated at cost or valuation less provision for impairment.

Notes to the financial statements – continued

1 Principal accounting policies – continued

Publishing rights and titles

Newspaper publishing rights and titles are stated at cost or valuation less any provision made for impairment within intangible assets. No amortisation is provided on the publishing rights and titles since, in the opinion of the Directors, these assets have indefinite useful economic lives. An impairment review is performed at each year end and provision is made for any impairment.

The Directors believe that the publishing rights and titles have a sufficiently well established position in the market place to be defended against threats arising from current competitors, potential new entrants and potential technological changes in the industry.

Book publishing rights are based on the Directors' estimation of fair value at the date of acquisition and are amortised on a straight line basis over 5 - 10 years. An impairment review is performed at each year end and provision is made for any impairment.

Licences

Radio Licences are included at cost and amortised in annual instalments over the remaining period of the licence.

The amount capitalised is based on the aggregate of the licence fees estimated to be payable over the life of the licence, discounted to their fair value at inception.

Stocks and work-in-progress

Stocks are stated at the lower of cost and net realisable value. Cost represents purchase cost of stock.

Net realisable value is based on estimated selling price, less further costs of disposal. Provision is made for obsolete, slow-moving or defective items where appropriate.

Foreign currency

Transactions in foreign currencies are recorded at the rate ruling on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance sheet date. All differences are taken to the profit and loss account.

For the purpose of consolidation, the closing rate method is used to translate balance sheets of subsidiary undertakings maintained in foreign currencies and the related translation gains or losses are shown as a movement on reserves. Average exchange rates ruling during the year are used to translate profit and loss accounts of those subsidiary undertakings. When foreign currency borrowings are used to finance foreign investments, the borrowings and investments are translated at the rates of exchange prevailing at the year-end and the resulting exchange differences are shown as a movement on reserves.

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantially enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax.

Deferred tax assets are recognised only to the extent that the Directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Notes to the financial statements – continued

Turnover

Turnover is the net amount receivable by the Group in the ordinary course of its business, excluding value added tax, trade discounts, other sales related taxes and transactions within the Group. Estimates of future returns are provided for at the time of sale of the publications to which they relate.

Turnover and costs in respect of barter transactions for advertising are recognised only where there is persuasive evidence of the value at which, if it had not been exchanged, the advertising would have been sold for cash in a similar transaction.

Tangible fixed assets and depreciation

All fixed assets are originally recorded at cost.

Land is stated at cost less provision for any impairment. Other tangible fixed assets are stated at cost or valuation net of depreciation and any provision for impairment.

Where borrowings are used to finance capital projects, interest incurred prior to the completion of those projects is capitalised.

No provision for depreciation is made in respect of freehold land and leasehold land on 999 year leases; buildings thereon are depreciated at 2% per annum on the straight-line basis. Other leasehold properties are amortised over the shorter of the length of the lease or 50 years.

Other fixed assets are depreciated over their expected useful economic lives or anticipated length of use by the Group in order to write off their cost less estimated residual value. The principal rates, using the straight-line basis, are as follows:

Plant, motor vehicles, fixtures and fittings - 3.3% to 100% per annum

Assets in course of construction are not depreciated. When such assets come into use they are transferred to the appropriate fixed asset category and depreciated accordingly.

Residual value is calculated on prices prevailing at the date of acquisition.

Leases

The Group as Lessee

Rentals payable under operating leases are charged on a straight-line basis to the profit and loss account over the lease term.

Assets held under finance leases and other similar contracts, which confer rights and obligations similar to those attached to owned assets, are capitalised as tangible fixed assets and are depreciated over the shorter of the lease terms and their useful lives. The capital elements of future lease obligations are recorded as liabilities, while the interest elements are charged to the profit and loss account over the period of the leases to produce a constant rate of charge on the balance of capital repayments outstanding.

The Group as Lessor

Income from assets leased under finance leases is credited to the profit and loss account over the period of the lease so as to give a constant rate of return on funds invested. The net amount receivable under finance leases is included in debtors.

Notes to the financial statements - continued

1 Principal accounting policies – continued

Pension costs and post retirement medical benefits

The employees of the Group participate in either a defined contribution or a defined benefit pension scheme, both of which require contributions to be made to separately administered funds.

For defined contribution schemes the amount charged to the profit and loss account in respect of pension costs is the contributions payable in the year. Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet.

For defined benefit schemes contributions are charged in the profit and loss account so as to spread the cost of pensions over the employees' working lives within the Group. The regular cost is attributed to individual years using the projected unit method. Variations in pension cost, which are identified as a result of actuarial valuations, are amortised over the average expected remaining working lives of employees in proportion to their expected payroll costs. Differences between the amounts funded and the amounts charged in the profit and loss account are treated as either accruals or prepayments in the balance sheet.

The Group has agreed to provide additional post-retirement healthcare benefits to certain current and former employees. The estimated cost of providing such benefits is charged against profits on a systematic basis over the employees' working lives within the Group.

Revaluation reserve

Surpluses arising on the revaluation of fixed assets are transferred to a revaluation reserve. Where assets, which have been revalued, are sold, the previous revaluation surplus is transferred directly to realised reserves (profit and loss account) and the difference between sale price and depreciated revalued amount is recorded in arriving at profit on ordinary activities before taxation.

The Group has taken advantage of the transitional provisions of FRS 15 'Tangible fixed assets', and retained the book amounts of certain freehold properties, which were revalued prior to implementation of that standard. The properties were last revalued at 30 June 1988 and the valuations have not subsequently been updated.

Related party transactions

As a wholly owned subsidiary undertaking of News Corporation, whose financial statements are publicly available, the Group has taken advantage of the exemption in FRS 8 'Related Party Disclosures', not to disclose transactions with other members of the group headed by News Corporation.

Research and development

Research and development expenditure is written off as incurred.

Going concern

The financial statements are prepared on the going concern basis because News Corporation has committed to provide financial support to the Group for the foreseeable future to enable it to meet its liabilities as they fall due.

9 Pensions

a) Impact on financial statements

The Group operated eight pension schemes during the year.

- The major scheme, which covers the majority of newspaper executives, staff and works personnel, is a UK defined contribution scheme.
- The remainder of UK non-book publishing employees are covered by two defined benefit schemes.
- The book publishing employees are covered by two defined benefit schemes for UK employees and three defined contribution schemes for Australian employees.

The latest actuarial valuations range from 1 July 2003 to 31 March 2005. The actuarial valuations have been updated at 30 June 2005 by a qualified actuary using revised assumptions that are consistent with the transitional requirements of FRS 17. Investments have been valued for this purpose, at fair value.

The assets of the pension schemes are held in separate externally administered trust funds, which are fully funded. The pension costs relating to the defined benefit schemes are assessed in accordance with the advice of a qualified actuary using the projected unit method. The defined benefit schemes are valued by an independent qualified actuary on at least a triennial basis.

The total pension costs for the Group are as follows:

| | 2005 £m | 2004 £m |
|------------------------------|------------|------------|
| Defined contribution schemes | 14.5 | 12.3 |
| Defined benefit schemes | 4.9 | 4.9 |

c) Unapproved pension arrangements

The Finance Act 1989 reduced the maximum approvable pensionable salary to members who joined the defined benefit scheme after June 1989. This led to the setting up of a multi-employer unapproved retirement benefits arrangement. This arrangement will pay promised pension benefits for salary in excess of those payable from the defined benefit scheme.

A charge for the year of £2.3 million (2004 - £1.4 million) has been made in respect of this scheme. The latest full actuarial valuation was prepared at 30 June 2003. The actuarial valuation has been updated using revised assumptions and estimates the present value of the accumulated obligation at 30 June 2005 to be £13.0 million (2004- £10.2 million). A provision of £11.7 million (2004 - £9.4 million) is held in respect of this scheme.

d) Post retirement medical benefits

The Group operates a post-retirement medical benefits scheme, which is unfunded. The credit relating to this scheme is £1.0 million for the year (2004 – £2.5 million charge). The credit for the year has been assessed in accordance with the advice of qualified actuaries. The latest full valuation was carried out at 30 June 2003. A “roll forward” valuation was completed in June 2005 and estimated the present value of the accumulated benefit obligation at £11.7 million (2004 – £10.3 million). The amount provided is £11.8 million (2004 - £12.8 million).

The main actuarial assumptions used to estimate this obligation are health care claims costs escalation of 8.0% per annum for one year, reducing linearly to the long term rate of 4.25% over four years and a discount rate of 5.0% per annum.

10 Taxation on profit on ordinary activities

The tax charge/(credit) is made up as follows:

| | 2005 £m | 2004 £m |
|---|------------|------------|
| Current tax | | |
| UK corporation tax at 30 % (2004 – 30%) | 47.5 | 52.0 |

| | <hr/> | <hr/> |
| Total tax charge/(credit) | 31.8 | (14.2) |
| | <hr/> | <hr/> |

No UK tax has been provided on the profits of overseas subsidiary undertakings where there is no intention of remitting such profits to the UK.

The adjustment in respect of prior years relates to the release of surplus provisions following agreement on prior year tax matters.

Group

The remaining ordinary share capital of these participating interests is held by other subsidiary undertakings of News Corporation. The Directors consider that the Group is not in a position to exercise significant influence over the affairs of the Companies and they are therefore treated as investments.

The net assets of News Publishing Australia Limited and subsidiary undertakings as included in the consolidated financial statements of News Corporation totalled £17,190.3 million at 30 June 2005 (2004 – £14,022.0 million). The consolidated net profit for the year ended 30 June 2005 was £595.6 million (2004 – £686.1 million). The Group's interest in the consolidated net assets through its 27.60% (2004 – 27.71%) holding of Common Stock is £4,744.5 million (2004 – £3,885.5 million).

24 Guarantees and contingent liabilities

The Group operates a collective overdraft facility with its bankers, which allows individual companies in the Group to overdraw subject to an agreed limit not being exceeded in aggregate. The overdraft facility is also guaranteed by News Corporation.

The Company is registered for VAT purposes in a group of subsidiary undertakings, which share a common registration number. As a result, it has jointly guaranteed the VAT liability of the Group, and failure by other members of the Group would give rise to additional liabilities for the Company.

Certain companies within the Group enter into agreements which require payment of royalty advances and have certain minimum advance commitments to authors that are contingent upon the publication of future titles.

25 Funding

The financial statements are prepared on the going concern basis. The Group and Company have net current liabilities of £722.4 million and net current assets of £0.1 million respectively at 30 June 2005 (2004 net current liabilities of £851.6 million and net current assets of £0.2 million respectively). News Corporation has confirmed its intention of providing continuing financial support to enable the Group to meet its liabilities as they fall due for at least the next twelve months.

26 Post balance sheet events

On 18 October 2005, the Group disposed of its investment in TSL Education Limited for consideration of £235 million.

On 14 November 2005, Sky Radio A/S, a subsidiary undertaking, ceased to broadcast in Denmark as the population coverage was materially less than the Radio and Television Board promised during the competitive auction process in 2003. As a result, the Denmark contract is deemed to be annulled as it is not possible to run a commercial radio station under these circumstances. At 30 June 2005 the Denmark licence is included within licences at £27.3 million. There is also a contractual obligation included within creditors of £26.6 million.

27 Ultimate parent company

On 12 November 2004, News Corporation announced its reincorporation from Australia to the United States of America. News Corporation, a Delaware corporation, is now the parent company of the News Corporation group of companies.

The Company's immediate and ultimate parent company is News Corporation, a company incorporated in Delaware.

The results of Newscorp Investments and its subsidiary undertakings were consolidated in the group headed by News Corporation, whose principal place of business is at 1211 Avenue of the Americas, New York, NY 10024. The consolidated financial statements of this group is available to the public and may be obtained from 1 Virginia Street, London E98 1FN.
