#### NOTES TO THE FINANCIAL STATEMENTS - 31 MARCH 2007

#### 1 ACCOUNTING POLICIES

### Basis of preparation of financial statements

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2005)

#### Consolidation

The company and its subsidiaries comprise a small group. The company has therefore taken advantage of the exemption provided by section 248 of the Companies Act 1985 not to prepare group accounts.

#### Cash flow

The financial statements do not include a cash flow statement because the company, as a small reporting entity, is exempt from the requirements to prepare such a statement under the Financial Reporting Standard 1 'Cash flow statements'

#### Turnover

#### a) Brokerage

Brokerage is treated as earned when lease documentation is completed and lodged with the lessor

#### b) Finance Leases

Lease payments received are apportioned between repayments of capital and interest so that the earnings for each accounting period are a constant percentage of the remaining balance of the capital sum outstanding

#### Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided, at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases.

Fixtures and fittings - 15% reducing balance Office equipment – 25% straight line

#### Deferred taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred taxation is measured on a non-discounted basis at the average tax rates that would apply when the timing differences are expected to reverse, based on tax rates and laws that have been enacted by the balance sheet date.

### Operating leases

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profit as incurred

(previously Broughfame Limited)

## NOTES TO THE FINANCIAL STATEMENTS (CONTD)- 31 MARCH 2007

#### **Pensions**

The company contributes to a defined contribution pension scheme and the pension charge represents the amounts payable by the company to the fund in respect of the year

In the year to 31 March 2007, NIL% of the company's turnover was derived from markets outside the United Kingdom (2006 – NIL%)

## 3 OPERATING PROFIT/(LOSS)
