ANTI-WASTE LIMITED**NOTES TO THE ACCOUNTS****FOR THE FIFTEEN MONTH PERIOD ENDED 31ST DECEMBER 1990****1. ACCOUNTING POLICIES****a) Accounting Convention**

The accounts have been prepared under the historical cost convention.

b) Turnover

Turnover represents net invoiced sales of goods and services provided excluding V.A.T.

c) Depreciation

Depreciation is provided on all tangible fixed assets at rates calculated to write off the cost of each asset over its expected useful life as follows:

Freehold buildings	- over 50 years
Leasehold properties and licence agreements	- over the expected life of each individual site.
Leased assets	- over the term of the lease
Plant and equipment	- over 5 years
Motor vehicles	- over 4 years

d) Stocks

Stocks have been valued at the lower of cost and net realisable value.

e) Deferred Taxation

The company is an active trading concern with a continuous replacement policy for its fixed assets. It has therefore been decided that no provision for deferred tax is required on the excess book value of its assets over their corresponding written down value for tax purposes.

f) Finance Leases

In respect of each finance lease entered into after 1st October 1987, the cost of the asset is capitalised and depreciated over its expected useful life. Rentals payable are apportioned between the finance charge and leasing commitment. The total finance charge is allocated to accounting periods over the terms of the lease at a constant periodic rate of charge on the remaining leasing commitment balance for each accounting period.

2. TURNOVER

Turnover is attributable to the principal activity of the company and the sale of the property, which proved surplus to the Company's requirements, and relates wholly and exclusively to receipts from United Kingdom residents.
