The company is entitled to exemption from audit under Section 249A(1) of the Companies Act 1985 for the year ending 31 January 1998.

No notice has been deposited under Section 249B(2) of the Companies Act 1985 in relation to its financial statements for the financial year.

The directors acknowledge their responsibilities for:

- (a) ensuring that the company keeps accounting records which comply with Section 221 of the Companies Act 1985 and
- (b) preparing financial statements which give a true and fair view of the state of affairs of the company as at the end of each financial year and of its profit or loss for each financial year in accordance with the requirements of Section 226 and which otherwise comply with the requirements of the Companies Act 1985 relating to financial statements, so far as applicable to the company.

## ABBREVIATED BALANCE SHEET 31 JANUARY 1998

These abbreviated financial statements have been prepared in accordance with the special provisions of Part VII of the Companies Act 1985 relating to small companies.

ON BEHALF OF THE BOARD:

Mrs V L Hansen - DIRECTOR

Mr B Hansen - DIRECTOR

Approved by the Board on

1998

22nd July

## NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 JANUARY 1998

## 1. ACCOUNTING POLICIES

## Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities.

#### Turnover

Turnover represents net invoiced sales of goods, excluding value added tax.

## Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Fixtures and fittings

- 15% on cost

Motor vehicles

- 25% on cost

The freehold property is stated in accordance with the professional valuation carried out on 6th December 1990. No depreciation is provided on the freehold property since the directors consider that the life of the asset is so long and the residual value so high that depreciation is inappropriate.

#### Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items. Stocks delivered early for the Spring Season 1997 have been excluded from the financial statements as have the related trade creditor balances. The amounts involved are detailed at notes 9 and 11.

#### Deferred taxation

Provision is made at current rates for taxation deferred in respect of all material timing differences except to the extent that, in the opinion of the directors, there is reasonable probability that the liability will not arise in the foreseeable future.

## Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

#### Pensions

The company operates a defined contribution pension scheme. Contributions payable for the year are charged in the profit and loss account.

#### Purchases

Deliveries of Spring merchandise are treated as purchases in the six months to July each year. Deliveries of Autumn merchandise are treated as purchases in the six months to January each year.

Where merchandise for any reason is delivered early (ie in the previous half year) it is not treated as purchased until the season has commenced nor is the merchandise put on sale to the public.
