1. ACCOUNTING POLICIES

(a) Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with applicable UK accounting standards

(b) Cash flow statement

The directors have taken advantage of the exemption in Financial Reporting Standard No 1 (Revised 1996) from including a cash flow statement in the financial statements on the grounds that the company is small

(c) Turnover

Turnover comprises

- The invoiced value of good and services supplied by the company, net of Value Added Tax and trade discounts
- Rental income
- Any other income during the period

(d) Fixed assets

All fixed assets are initially recorded at cost

(e) Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows

Plant & Machinery	- 20% per annum straight line basis
Fixtures & Fittings	- 10% per annum straight line basis
Motor Vehicles	- 25% per annum reducing balance basis
Equipment	- 33% per annum straight line basis

(f) Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items

(g) Pension costs

1. ACCOUNTING POLICIES *(continued)*

(h) Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date
