**Diversey UK Production Limited (Formerly Diversey (UK) Limited)****Registered Number: 1585827****Strategic Report****Principal activity**

The principal activities of Diversey UK Production Limited is the production of cleaning and sanitising chemical products, utensils and floorcare equipment, machines and any other products requested by the EPC. In 2012 the Company entered into a toll manufacturing agreement with Diversey Europe Operations BV (the "EPC") under which the company agrees to provide toll manufacturing service to the EPC in respect of any products manufactured.

**Business review and future developments**

The company's key financial and other performance indicators for the year were as follows:

	2014 £'000	2013 £'000
Company turnover	6,271	9,635
Operating profit	648	685
Operating margin	10.3%	7.1%
Profit after tax	470	480
Average number of employees	83	81

Turnover decreased during the year by £3.4m, which is mostly counteracted by a decrease of cost of sales of £3.2m. Therefore gross profit was fairly stable, at only £154K lower than 2013. The operating profit was also stable at only a decrease of £37K. A reduction in administrative expenses of £117K helped to improve the operating margin from 7.1% up to 10.3%.

The directors consider that given the conditions prevailing during the year, the development of the company's business and its financial position at the end of the year were satisfactory.

**Principal risks and uncertainties**

- Competitive risks

Risk arises due to our dependency on the regional Diversey Group operating companies for continued support as our principal customers.

- Legislative risks

Our manufacturing facility continues to maintain compliance with all current EU and UK standards although these are subject to change. Whilst compliance to legislative standards remains critical to the company's success, there is a cost consequence for compliance.

- Exposure to credit, liquidity and cash flow risk

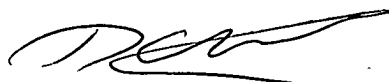

**Diversey UK Production Limited (Formerly Diversey (UK) Limited)**

**Registered Number: 1585827**

Within the company, debtor management is carefully targeted to ensure adequate provisions are in place for any doubtful debtors and that credit-worthiness of potential customers is always assessed before agreeing any form of credit terms.

The company aims to mitigate liquidity risk by targeting cash generation in all its operations. In addition, the corporate group manages liquidity risk via revolving credit facilities and long term debt.

### **Notes to the financial statements as at 31 December 2014**

#### **(1) Principal Accounting Policies**

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the Company's financial statements.

**Basis of preparation:** The financial statements have been prepared under the historical cost convention and in accordance with applicable Accounting Standards.

**Going Concern:** The Company's business activities, together with the factors likely to affect its future development, performance and position, are set out in the directors' report. The directors believe that the Company is well-placed to manage its business risks successfully, despite the current uncertain economic outlook.

The directors have a reasonable expectation that the Company has adequate resources to continue in existence for the foreseeable future. Thus, they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

**Taxation:** The charge for taxation is based on the result for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19.

**Tangible Fixed Assets:** Tangible fixed assets are stated at their purchase cost together with any incidental cost of acquisition less accumulated depreciation.

Depreciation is provided to write off the cost less the estimated residual value of tangible fixed assets by equal instalments over their estimated useful economic lives as follows:

Freehold buildings	- 40 years
Plant and machinery	- 3-14 years
Fixtures and fittings	- 3-14 years

Freehold land is not depreciated.

The carrying values of tangible fixed assets are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable.

## **Diversey UK Production Limited (Formerly Diversey (UK) Limited)**

### **Notes to the financial statements as at 31 December 2014**

#### **(1) Principal Accounting Policies (continued)**

**Turnover:** Turnover comprises the amount receivable for goods and services supplied, excluding VAT. In the opinion of the directors, there is only one class of business.

**Revenue Recognition:** Revenue is recognised to the extent that the company obtains the right to consideration in exchange for its performance. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates, VAT and other sales taxes or duty.

**Post-Retirement Benefits:** In the UK the company participates in the JohnsonDiversey UK Pension Scheme ('the JDPS'). The scheme is partly a defined benefit arrangement and partly a defined contribution arrangement. With Effect from 1 April 2010, contributions ceased to the defined contribution arrangement of the JohnsonDiversey UK Pension Scheme and the group contributed to the Diversey Stakeholder Pension Scheme, another defined contribution arrangement.

The JohnsonDiversey UK Pension Scheme is funded by company contributions. The assets of the scheme are held separately from those of the company in separate trustee administered funds. Company contributions are determined on an actuarial basis. The level of contributions is assessed on the advice of independent professionally qualified actuaries.

The employer is unable to identify the company's share of the underlying assets and liabilities of the scheme and accordingly the company have accounted for the scheme as if it were a defined contribution scheme as permitted by FRS17 'Accounting for retirement benefits'. At 31 December 2014 the deficit in the UK pension schemes to which the company contributes was £nil (2013: £nil).

The pension charge for the year ended 31 December 2014 was £552,639 (2013: £466,816).

Full details of the latest actuarial valuations are included in the financial statements of Diversey Limited.

**Dividends on shares presented within shareholder's funds:** Dividends unpaid at the balance sheet date are only recognised as a liability at that date to the extent that they are appropriately authorised and are no longer at the discretion of the Company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.
