Strengthening Our Core Businesses

CHAIRMAN'S

REVIEW

In 1989 we achieved significant growth in our core businesses, Northern House Building and Commercial Development, in line with our long term objectives and in the South East we have taken firm measures to respond to the downturn in the residential market. This is reflected in pre-tax profits before provisions, which rose 53% to £4.2 million.

The Board has considered it prudent to make a provision of £1.4m. arising from the joint Southern house building operation of Cussins Green in the 1989 results, rather than allowing losses to show through in 1990. The provision reflects the continuing downturn in demand for Southern housing and the resultant carrying costs of holding stock at present rates of interest.

In addition, where land is held undeveloped, interest costs have been written off and not capitalised. Our aim is to break even in the South East in 1990. Sales incentives are being offered and a very close control is in place over work in progress to ensure that building costs are only expended if they produce completed sales.

In contrast, North East residential development produced excellent figures with turnover up 32% to £20m. Profit margins also increased from 23% to 31% for the year, resulting in a gross profit for the Division of £6.1m.

We have a broad and diversified commercial development programme in sectors such as industrial and provincial offices and in regions where we envisage the maximum potential for uplift. In general we do not embark upon major schemes without substantial pre-letting or funding. This year we expect to benefit from a string of

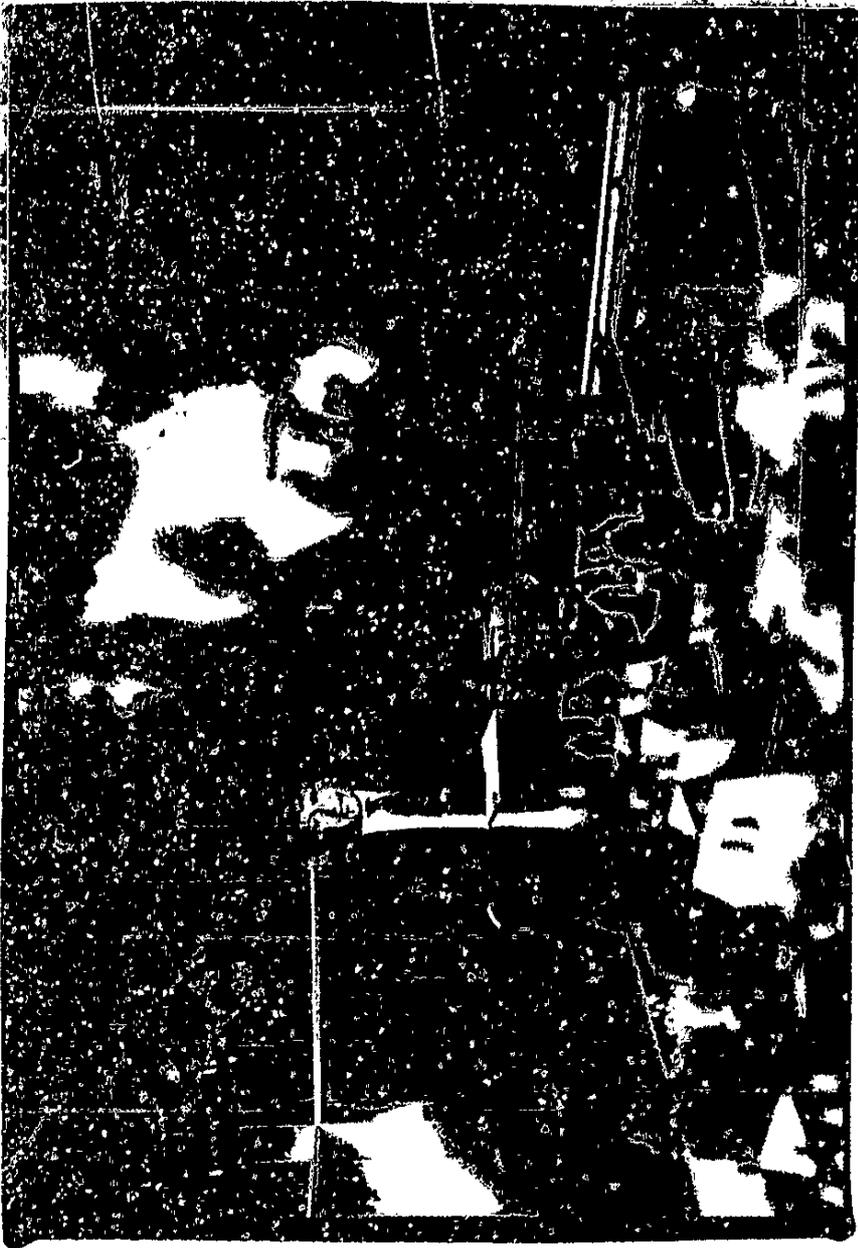

development property sales, the most significant of which is our 100,000 sq ft Erskine House office refurbishment in the heart of Edinburgh's financial sector.

Rental income rose by 12% to £1.6m. No properties from the investment portfolio were sold during the year. In view of the uncertain market in retail property where most of our assets reside, the value of the portfolio was £24.58m, virtually unchanged from the previous year. The Net Asset Value at 31 December 1989 was £21.8m, representing 306p per share. Rental income is set to rise in 1990 primarily as a result of rent reviews.

Pressure for increased investment in the profitable core areas of operation is intense particularly as many good commercial development opportunities are appearing in the current downturn. It is, therefore, conceivable that we might reduce our exposure from Southern Housebuilding to increase our capital commitment elsewhere, thereby incurring further short term losses in the joint residential business.

Overall, the year has begun satisfactorily for the Group and we are set to benefit from a sound residential programme in the North East, coupled with the probable completion of longer term commercial schemes. Due to the timing of this year's completions in the commercial and residential programme, the majority of profit will be derived in the second half of the year.

Further ahead, we are involved in a number of exciting projects, such as Royal Quays, a £200,000,000 condominium development on the quayside near Newcastle, which should supplement our established

PETER CUSSINS

forward programme and lead to secure growth in the 1990's.

The quality and diversity of our programme gives me confidence to predict a successful outcome for the current year. In view of this progress and with confidence in the future your board is pleased to recommend a final dividend of 5.5p, making a total of 9.25p for the year, an increase of 12⁰/₀.

OPERATIONAL REVIEW

Good design and value for money are key elements in the success of the Division. This month, we are introducing a new and improved range of properties at prices varying from £42,000 to £250,000. These can be built at the same cost per square metre as the current range.

Our reputation for quality has helped establish customer loyalty in the North East. Whilst traditionally we have been best known at the higher end of the market, our current programme is largely lower to middle range, from £39,000 to £80,000, where we perceive the strongest forward demand. We are however building properties covering a wide range of prices from £39,000 for first time buyers to £250,000 on the Gosforth Rugby Club site in Newcastle.

Our new range of properties is based on a design which we pioneered on a joint Cussins Green site in Durham, where we are currently building some 40 units for this year's programme. These properties have been well received and have resulted in record prices and demand for a project in that part of Durham.

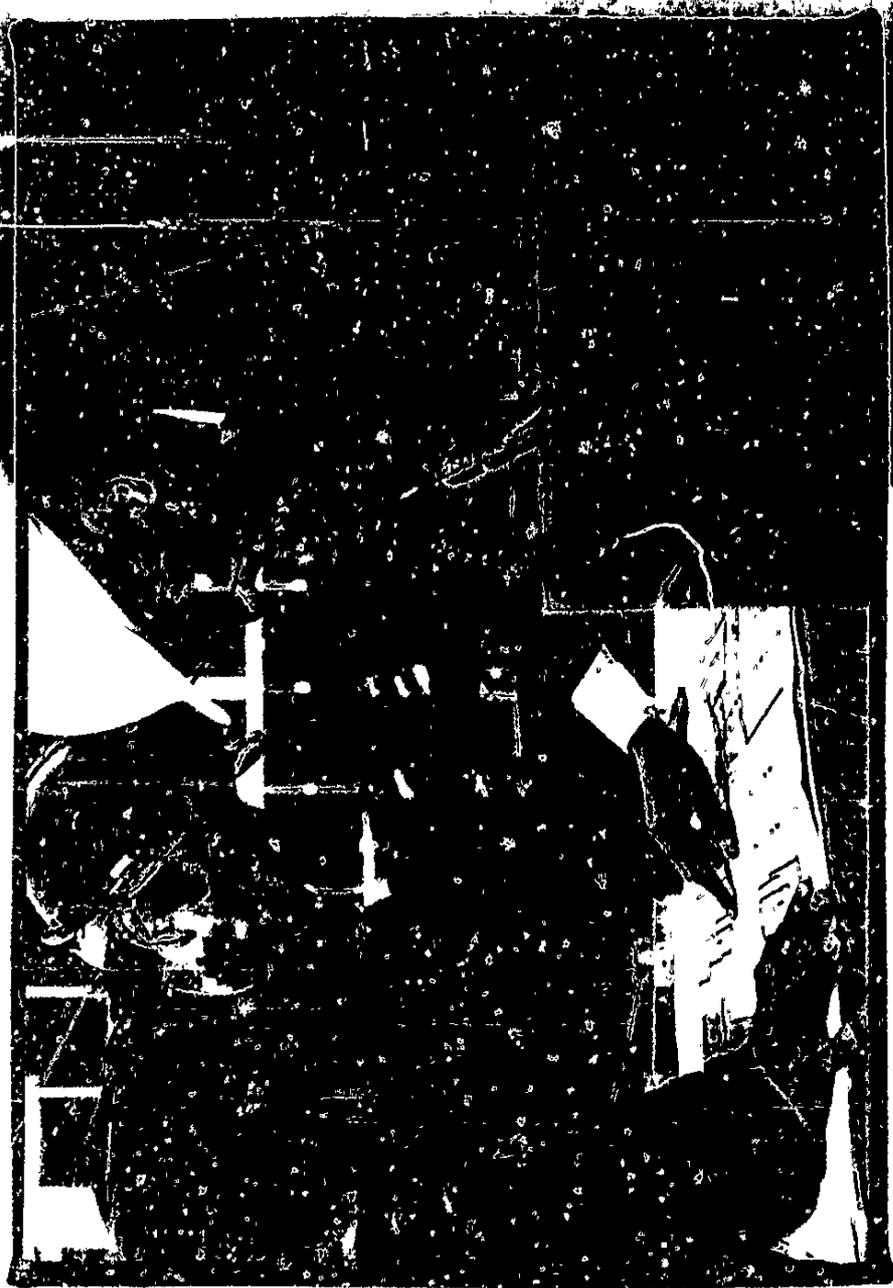

Further South, all our joint projects continue to suffer from a weaker market place and, in consequence, we are budgeting for only 60 completions in 1990, which will leave 2 years' land supply based on an annual turnover of 160 units.

The quality of reservations taken this year is higher than in 1989.

In order to assist purchasers, we are offering part exchange and shared equity schemes, together with discounts to those who can proceed quickly. Our policy is to build to sales and no work is being undertaken on sites unless the property concerned is contracted for sale. On some sites where we have planning permission for low density development, we are seeking approval to improve the mix by providing a higher number of properties at lower prices, thereby improving viability and demand.

In the South, 1990 will be a tough year and a reduction in interest rates is an important factor in building a sounder platform to produce a healthier market place.

Since the beginning of the year there is some evidence of a slow down in demand for certain types of property and there has been a withdrawal by some institutions from the lending market. The Group is not substantially exposed on any speculative schemes, carefully selecting future projects which have low risk but which will appeal to institutions because of their quality.

"Ralph and the team have done a great job here. Everything's moving so fast, only 5 months ago there were 2 less floors on this building."

A Strong Investment Portfolio

OPERATIONAL REVIEW

Our investment portfolio continued to benefit from increasing income as a result of rent reviews and new lettings. The net rent rose by 12% to £1.6m and we anticipate a further increase in 1991.

Most of the portfolio is retail, principally comprising two new covered shopping precincts developed by the Group. The Denmark Centre on Tyneside and the Aylesham Centre in London. Both are fully let and the latter will benefit from substantial rent reviews commencing in 1991. Our properties are centrally located where the majority of traders are national multiple retailers, mainly

selling necessity items, less affected by the current retail downturn. Both centres report satisfactory trading conditions.

The property portfolio at the end of 1989 was valued at £24.6m, the same as in 1988. This is due to the current uncertain market, but we expect increasing value once short term uncertainties are out of the way. The portfolio provides high quality income to the Group and we intend to continue to add to it from our completed development programme, as and when suitable opportunities are identified.

The directors have pleasure in submitting their report together with the audited accounts for the year ended 31 December 1989. A review of the Groups business is given in the Chairman's Review and Operational Review on pages 2 to 11.

Activities

The business of the Cussins Property Group and its subsidiaries is the development of commercial, industrial and residential property, and the creation of a commercial investment portfolio

Dividends and profit retained

The directors recommend the payment of a final dividend of 5.5p per share. This, together with the interim dividend of 3.75p per share, will make a total of 9.25p for the year. The final dividend will be paid on 6 July 1990 to shareholders on the register on 30 March 1990. The dividends paid and proposed amount to £659,103 leaving a retained profit of £1,206,085.

Property valuation

The investment properties have been valued by two directors on the basis of 'open market value' as defined by the Guidance Notes on the Valuation of Assets issued by the Royal Institution of Chartered Surveyors in August 1976 and April 1981.

The result incorporated in the financial statements to 31 December 1989 shows a cumulative net surplus of £7,162,417 attributable to ordinary shareholders.

Directors

The names of the directors of the company are set out on page 29. Mr H R M Dixon resigned as a director on 31 March 1989. Messrs J F Gregory and B M Wylie are non-executive directors. J F Gregory, a stockbroker, is 55 and joined the board of the company in June 1983. He is a corporate finance director of agency stockbrokers, Beeson Gregory Ltd, and has been involved in corporate finance for 30 years. B M Wylie, a banker, is 64 and joined the board in April 1986. Prior to joining the board he was Northern Regional General Manager of

Lloyds Bank and has recently completed a three year term as a non-executive director of the Northern Regional Board of Lloyds Bank. Mr B M Wylie retires and offers himself for re-election.

Directors' interests

The interests of the directors in the ordinary shares of the company including particulars of options granted under the Cussins Property Group plc Executive Share-Option Scheme are as follows.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31st December 1989

1 Accounting Policies

The group prepares its financial statements on the historical cost basis of accounting, modified to include the revaluation of investment properties.

a) Basis of consolidation
The consolidated profit and loss account and balance sheet include the accounts of the subsidiaries for the year and their holding company, Cussins Property Group plc. In respect of the associated company, the Group's share of income is included in the Group's profit and loss account and the Group's share of net assets is included in investments on the Group balance sheet.

b) Turnover

Represents legal completions of commercial properties and houses during the year.

c) Stock

Land and site development is valued at the lower of cost and net realisable value. Long term contract work in progress comprises costs incurred to date less amounts transferred to the profit and loss account in respect of work carried out to date, provisions for foreseeable losses and applicable payments on account.

d) Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation. Depreciation is charged over their estimated useful economic lives on a straight line basis using the following rates:

Machinery and equipment	10% - 25%
Motor vehicles	25%

e) Investment properties

In accordance with SSAP 19, (i) investment properties are revalued annually and the aggregate surplus or deficit is transferred to a revaluation reserve, and (ii) no depreciation or amortisation is provided in respect of freehold investment properties and leasehold investment properties with over 20 years to run. The directors consider that this accounting policy results in the financial statements giving a true and fair view.

f) Ground rents

Ground rents are capitalised at the time of sale of the property, on the basis of up to 51 years' purchase.

g) Deferred taxation

Deferred taxation is provided in full using the liability method on all material timing differences to the extent that a liability is likely to crystallise in the foreseeable future.

h) Capitalisation of interest

Interest attributable to the cost of constructing commercial properties is capitalised during the construction period. The construction period ends on technical completion.

i) Pension obligations

The group operates a defined contribution pension scheme for various directors and employees. The charge to the profit and loss account is the amount of contributions payable to the scheme in the year. The assets of the scheme are held separately from those of the group in an independently administered fund.

**NOTICE
OF MEETING**

Notice is hereby given that the ninth Annual General Meeting of the company will be held at the Savoy Hotel, Strand, London WC2 on 4th July 1990 at 12.30 pm, for the following purposes:

Ordinary Business Resolutions

- 1 To receive and adopt the directors' report and the financial statements for the year ended 31 December 1989.
- 2 To confirm the payment of the interim dividend and declare the final dividend recommended by the directors.

- 3 To re-elect as a director:

Mr B.M. Wylie who retires by rotation.

- 4 To reappoint Coopers & Lybrand Deloitte, the retiring auditors, and to authorise the directors to fix their remuneration.

Special Business Resolutions

To consider and, if thought fit, to pass the following resolutions:

- 5 Ordinary resolution (Directors' authority to allot shares)

That:

a) the directors be and they are hereby generally and unconditionally authorised in accordance with section 80 of the Companies Act 1985 ("the Act") and in substitution for their existing power to allot relevant securities (as defined below) to exercise all the powers of the company to allot relevant securities up to an aggregate nominal amount of £122.638 during the period commencing on the date of

the passing of this Resolution and expiring on 3rd July 1995 (both dates inclusive) but so that this authority shall allow the company to make offers or agreements before the expiry of this authority which would or might require relevant securities to be allotted after such expiry;

- b) words and expressions defined in or for the purposes of Part IV of the Act shall bear the same meaning in the Resolution.

6 Special Resolution (Disapplication of Pre-emption Rights)

That subject to the passing of Resolution 5 set out in the Notice of this Meeting:

a) the directors be and they are hereby empowered, pursuant to section 95 of the Companies Act 1985 ("the Act") and in substitution for their existing power to allot equity securities (as defined below) pursuant to the authority given in accordance with section 80 of the Act by the said Resolution 5 as if section 89(1) of the Act did not apply to any such allotment, provided that this power shall be limited to the allotment of equity securities:

- i) in connection with an offer of securities, open for acceptance for a period fixed by the directors, by way of rights to holders of ordinary shares and (if the directors shall so determine) debentures, subscription warrants and/or other securities in proportion (as nearly as may be) to their holdings on a record date fixed by the directors (but
