DIRECTORS' RESPONSIBILITY STATEMENT

Company law requires the directors to prepare accounts for each year which give a true and fair view of the state of the affairs of the Company and of the profit or loss of the Company for that period. In preparing those accounts, the directors are required to:

- . select suitable accounting policies and apply them consistently;
- . make judgements and estimates that are reasonable and prudent;
- . state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the accounts;
- prepare the accounts on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the accounts comply with the Companies Act 1985. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

REPORT OF THE AUDITORS, KPMG, TO THE MEMBERS OF TSB TRUST COMPANY LIMITED

We have audited the accounts on pages 7 to 16.

Respective responsibilities of directors and auditors

As described on page 5, the Company's directors are responsible for the preparation of accounts. It is our responsibility to form an independent opinion, based on our audit, on those accounts and to report our opinion to you.

Basis of opinion

We conducted our audit in accordance with Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the accounts. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the accounts, and of whether the accounting policies are appropriate to the Company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the accounts are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the accounts.

Opinion

In our opinion the accounts give a true and fair view of the state of the Company's affairs as at 31 October 1994 and of its profit for the year then ended and have been properly prepared in accordance with the Companies Act 1985.

NOTES TO THE ACCOUNTS

31 OCTOBER 1994

NOTE 1 Accounting policies

Accounting convention

The accounts have been prepared under the historical cost convention and in accordance with the Companies Act 1985 and applicable accounting standards, and include the results of the activities described in the directors' report, all of which are continuing.

The Company has taken advantage of the exemption contained in s228 of the Companies Act 1985 and has not prepared consolidated accounts. Consolidated accounts will be drawn up by TSB Group plc, the ultimate holding company, which is registered in Scotland.

Turnover

Turnover comprises amounts charged to subsidiaries and group companies for management services and personnel.

Depreciation

Depreciation is calculated on a straight line basis so as to write off the cost of tangible fixed assets by equal annual instalments over their estimated useful lives as follows:

Premises:

Leasehold land and buildings

Term of lease

Equipment:

Motor vehicles
Office fixtures and equipment
Electronic office equipment
Computer equipment

25% per annum 10% per annum 33 1/3% per annum 20% per annum

Leases

Assets acquired under finance leases are capitalised as fixed assets. The present value of the corresponding lease obligation is recorded as a liability. The total finance charge under the lease is allocated to accounting periods during the lease term based on the underlying rate of interest.

Rentals payable under operating leases are charged to the profit and loss account on the accruals basis.

Deferred taxation

Deferred taxation is provided under the liability method on material timing differences where there is a reasonable probability that taxation will become payable in the foreseeable future.

Investment in subsidiaries

The Company's investment in subsidiaries is included at cost less provisions for diminution in value, which are charged to the profit and loss account.

Pensions

Based on actuarial advice pension costs are charged to the profit and loss account on a basis whereby the regular cost is a substantially level percentage of the current and expected future pensionable payroll. Variations from the regular cost are allocated over the average remaining service lives of current employees.
