## Notes to the financial statements for the year ended 31 December 2016

### 1 Accounting policies

#### Basis of accounting

The financial statements are prepared on the going concern basis, under the historical cost convention, and in accordance with Financial Reporting Standard 101 *Reduced Disclosure Framework* ("FRS 101"). In preparing these financial statements, the Company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the EU ("IFRS"), but makes amendments where necessary in order to comply with the Companies Act 2006 and where advantage of disclosure exemptions available under FRS 101 have been taken.

The preparation of the financial statements requires the Directors to make estimates and assumptions that affect the reported amounts of income, expenses, assets and liabilities, and the disclosure of contingent liabilities at the date of the financial statements. The key estimates and assumptions are set out in the accounting policies below, together with the related notes to the accounts.

The most significant items include:

- the review of asset values and impairment testing of non-financial assets;
- the estimation of amounts to be recognised in respect of taxation; and
- the exemptions taken under IFRS 1 on the first time adoption of FRS 101 at 1 January 2014.

Such estimates and assumptions are based on historical experience and various other factors that are believed to be reasonable in the circumstances and constitute management's best judgment at the date of the financial statements. In the future, actual experience may deviate from these estimates and assumptions, which could affect the financial statements as the original estimates and assumptions are modified, as appropriate, in the year in which the circumstances change.

The Company is included in the consolidated financial statements of British American Tobacco p.l.c. which is incorporated in the United Kingdom and registered in England and Wales. Consequently, the Company has taken advantage of the exemption from preparing consolidated financial statements under the terms of section 400 of the Companies Act 2006.

The accounting policies set out below, have unless otherwise stated, been applied consistently to all periods presented in these financial statements and in preparing the opening balance sheet at 1 January 2014 for the purpose of the transition to FRS 101.

#### Cash flow statement

The Company is a wholly owned subsidiary of British American Tobacco p.l.c. The cash flows of the Company are included in the consolidated cash flow statement of British American Tobacco p.l.c. which is publicly available. Consequently, the Company has taken advantage of the exemption from preparing a cash flow statement under the terms of FRS 101.

#### Foreign currencies

The functional currency of the Company with effect from 1 January 2015 is US dollar, and prior to this the functional currency of the Company was sterling. Transactions arising in currencies other than the functional currency of the Company are retranslated at the rate of exchange ruling on the date of the transaction. Monetary assets and liabilities expressed in currencies other than the functional currency of the Company are translated at rates of exchange ruling at the end of the financial year.

## 1 Accounting policies (continued)

### Taxation

Taxation is that chargeable on the profits for the period, together with deferred taxation.

The current income tax charge is calculated on the basis of tax laws enacted or substantively enacted at the balance sheet date.

Deferred taxation is provided in full using the liability method for temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amount used for taxation purposes.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. As required under IAS 12 *Income Taxes*, deferred tax assets and liabilities are not discounted.

Deferred tax is determined using the tax rates that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or deferred tax liability is settled.

Tax is recognised in the Profit and loss account except to the extent that it relates to items recognised in other comprehensive income or directly in equity, in which case it is recognised in other comprehensive income or changes in equity.

The Company has exposures in respect of the payment or recovery of a number of taxes. Liabilities or assets for these payments or recoveries are recognised at such time as an outcome becomes probable and when the amount can reasonably be estimated.

### Dividends

Final dividend distributions to the Company's shareholders are recognised as a liability in the Company's financial statements in the period in which the dividends are approved by the Company's shareholders at the Annual General Meeting, while interim dividend distributions are recognised in the period in which the dividends are declared and paid.

### Investments in Group undertakings

Investments in Group undertakings are stated at cost, together with subsequent capital contributions, less provisions for any impairment in value, where appropriate.

## 2 Other operating charges

There were no employees (2015: none) and no staff costs during the year (2015: \$nil).

Further reductions to 19% (effective from 1 April 2017) and to 18% (effective 1 April 2020) were substantively enacted on 26 October 2015, and an additional reduction to 17% (effective 1 April 2020) was substantively enacted on 6 September 2016. This will reduce the Company's future current tax charge accordingly.
