SCHEDULE

1. EQUITY LINKED INTEREST NOTE PROVISIONS

For the purposes of paragraph 20 of the Pricing Supplement, if, on the relevant Reference Date, the Transfer and Calculation Agent determines in its sole discretion that the Reference Price is equal to or greater than the Coupon Trigger Price, then the Rate of Interest for the immediately following Specified Interest Payment Date shall be 10.00 per cent. per annum (JPY250,000 per Specified Denomination).

If on the relevant Reference Date, the Transfer and Calculation Agent determines in its sole discretion that the Reference Price is less than the Coupon Trigger Price, then the Rate of Interest for the immediately following Specified Interest Payment Date shall be 0.10 per cent. per annum (JPY2,500 per Specified Denomination).

2. KNOCK-OUT PROVISIONS

The Notes shall be redeemed in whole but not in part at 100 per cent. of their principal amount on the Initial Early Redemption Date, the Interest Payment Date or the relevant Specified Interest Payment Date up to and including 7 October, 2007 if, on the Early Redemption Valuation Date, the Transfer and Calculation Agent determines in its sole discretion that the Reference Price is greater than or equal to the Knock-Out Price.

3. REDEMPTION AT MATURITY

For the purposes of paragraph 24 of the Pricing Supplement, the Final Redemption Amount shall be satisfied in accordance with the provisions set out below, unless previously redeemed or purchased or cancelled:

- (A) If on the Determination Date, the Transfer and Calculation Agent determines in its sole discretion that the Reference Price is equal to or greater than the Strike Price, the Notes will be redeemed in cash at 100 per cent. of their outstanding principal amount per Specified Denomination on the Maturity Date.
- (B) If on the Determination Date, the Transfer and Calculation Agent determines in its sole discretion that the Reference Price is less than the Strike Price, the Notes will be redeemed on the Delivery Date by delivery of 2,000 Underlying Shares per Specified Denomination (the "**Deliverable Underlying Share**"), subject to adjustment as set out in paragraph 3(ii) of this Schedule below together with the Reference Cash Amount.

For the avoidance of doubt, the delivery of the Deliverable Underlying Share pursuant to paragraph (B) above will not affect the Issuer's obligation to pay interest on the Notes on the relevant Specified Interest Payment Date.

When the Transfer and Calculation Agent determines the method of redemption in accordance with paragraphs (A) or (B) above, the Transfer and Calculation Agent shall, as soon as practicable

thereafter, give notice thereof in writing to the Issuer and to the Paying Agent. The Paying Agent shall, on behalf of the Issuer, give notice to the Noteholders via Euroclear and/or Clearstream, as applicable. Such notice shall be deemed to have been received by the Noteholders the day after the day on which such notice was given to Euroclear and/or Clearstream, as applicable.

All determinations made by the Transfer and Calculation Agent by reference to the Underlying Share Price Source shall be conclusive and binding upon all of the parties unless any manifest error exists therein. Even if the information provided by the Underlying Share Price Source is subsequently amended by the provider thereof, the determination previously made by the Transfer and Calculation Agent shall be effective, and no action may be taken against the Issuer or the Transfer and Calculation Agent.

(i) **Delivery**

Where the Notes are to be redeemed by delivery of the Deliverable Underlying Share (as described in paragraph (B) above), the Issuer will deliver on the Delivery Date the Deliverable Underlying Share to the order of each Noteholder through book transfer via the Clearance System. Each Noteholder shall deliver to the Issuer via Euroclear and/or Clearstream, as applicable, three Clearance System Business Days prior to the Delivery Date, a confirmation of the amount of Notes held by such Noteholder at such time of the settlement, together with the notification of its settlement account to which the Deliverable Underlying Share shall be delivered or the name and the settlement account of its agent for such delivery. After the Determination Date, the Noteholders may not transfer any of the Notes.

All expenses, including any applicable depositary charges, transaction or exercise charges, stamp duty and/or other taxes or duties (together, the "**Delivery Expenses**"), arising from the delivery of the Deliverable Underlying Share shall be for the account of the relevant Noteholder and no delivery of the Deliverable Underlying Share shall be made until all Delivery Expenses have been paid by the relevant Noteholder.

For the avoidance of doubt, delivery of the Deliverable Underlying Share shall be effected outside the terms of the Agency Agreement (as defined in the Conditions).

(ii) **Disruptions and Adjustments**

(a) *Settlement Disruptions*

If a Settlement Disruption Event prevents delivery of the Deliverable Underlying Share on the Delivery Date, then the Delivery Date will be the first succeeding day on which delivery of the Deliverable Underlying Share can take place through the Clearance System unless a Settlement Disruption Event prevents settlement on each of eight Clearance System Business Days immediately following the original date that, but for the Settlement Disruption Event, would have been the Delivery Date. In that case, (i) if the Deliverable Underlying Share can be delivered in any other commercially reasonable manner, then the Delivery Date will be the first day on which settlement of a sale of Deliverable Underlying Share executed on the eighth Clearance System Business Day customarily would take place using such other commercially reasonable manner of delivery (which other manner of delivery will be deemed the Clearance System for the purposes of the Deliverable Underlying Share), and (ii) if such Deliverable Underlying Share cannot be delivered in any other commercially reasonable manner, then the Delivery Date will be postponed until delivery can be effected through the Clearance System or in any other commercially reasonable manner.

The Noteholders will not be entitled to any payment, whether of interest or otherwise, on the Notes in the event of any delay in the delivery of the Deliverable Underlying Share due to the Settlement Disruption Event, and the Issuer shall in no event be responsible for such delay.

(b) *Potential Adjustment Events*

Following the declaration by the Company of the terms of any Potential Adjustment Event, the Transfer and Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has diluting or concentrative effect on the theoretical value of the Underlying Share and, if so, will (i) calculate the corresponding adjustment to be made to the Strike Price and the number of shares of the Underlying Share to be delivered under paragraph 2 above or any other adjustment as the Transfer and Calculation Agent determines appropriate to account for that diluting or concentrative effect and (ii) determine the effective date of such adjustment.

(c) *Merger Event, De-listing, Nationalisation and Insolvency*

If a Merger Event, De-listing, Nationalisation or Insolvency occurs in relation to the Underlying Share, then the Transfer and Calculation Agent may, in its sole and absolute discretion, take the action described in (i) or (ii) or (iii) below:

- (i) determine in its sole and absolute discretion the appropriate adjustment to be made to the Strike Price and the number of shares of the Underlying Share and/or any of the other terms of the Conditions to account for the Merger Event, De-listing, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment; or
- (ii) determine in its sole and absolute discretion the appropriate adjustment by reference to the adjustment method of the exchange(s) or quotation system(s) on which options on the Underlying Share are traded (the "**Option Exchange**") and make corresponding adjustments to the Strike Price and the number of shares of the Underlying Share and/or any of the Conditions, which adjustment will be effective as of the date determined by the Transfer and Calculation Agent to be the effective date of the corresponding adjustment made by the Option Exchange. If options on the Underlying Share are not traded on the Option Exchange, then the Transfer and Calculation Agent will make such adjustment to be made to the Strike Price and the number of shares of the Underlying Share and/or any of the Conditions as the Transfer and Calculation Agent in its sole and absolute discretion determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for the Merger Event, De-listing, Nationalisation or Insolvency, as the case may be, that in the determination of the Transfer and Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were to be traded; or
- (iii) require the Issuer to redeem the Notes by giving not less than 15 or more than 30 days' notice to the Noteholders. If the Notes are to be so redeemed, then the Issuer will pay an amount to the Noteholders, which amount shall be the fair economic value of the Notes immediately prior to such redemption (such fair economic value to include any accrued but unpaid interest in respect of the Notes) taking into account the Merger Event, De-listing, Nationalisation or Insolvency, as the case may be, less the cost (if any, and without taking account of any profit) to the Issuer of unwinding any related underlying hedging arrangements as determined by the Transfer and Calculation Agent in its sole and absolute discretion. Payment will be made to Euroclear or Clearstream, as the case may be, in such manner as shall be notified to the Noteholders.

(d) *Determination Date*

If there is a Market Disruption Event on the Determination Date, then the Determination Date shall be the first succeeding Exchange Business Day on which there is no Market Disruption Event, unless there is a Market Disruption Event on each of the two Exchange Business Days immediately following the original date that, but for the Market Disruption Event, would have been the Determination Date. In that case, (i) the second Exchange Business Day shall be deemed to be the Determination Date, notwithstanding the Market Disruption Event, and (ii) the Transfer and Calculation Agent shall determine the Reference Price on that second Exchange Business Day in accordance with its good faith estimate of the price of the Underlying Share that would have prevailed, but for the Market Disruption Event, on that second Exchange Business Day.

(e) *Fractional Entitlements*

If as a result of any Potential Adjustment Event or for any other reason the delivery of the Underlying Share would involve a fraction of the Minimum Deliverable Lot, the Noteholders shall be entitled to receive (in lieu of such fraction) an amount in Japanese Yen, such amount as calculated on the basis of the product of (i) the number of Underlying Share comprising such fraction and (ii) the price of the Underlying Share at the close of trading on the Determination Date as determined by the Transfer and Calculation Agent.

(f) *Notifications*

The Transfer and Calculation Agent shall as soon as practicable provide details of any determinations and/or adjustments, as the case may be, made pursuant to this paragraph 3 to the Issuer and the Issuer shall give notice thereof to the Noteholders via Euroclear and/or Clearstream, as applicable, as soon as practicable in accordance with the Conditions.

(iii) **Calculations to be binding**

The calculations and determinations of the Transfer and Calculation Agent shall (save in the case of manifest error) be final and binding upon all parties. The Transfer and Calculation Agent shall have no responsibility for good faith errors or omissions in any calculation in respect of the Notes as provided herein.
