I Accounting Policies

Accounting Convention

The financial statements have been prepared under the historical cost convention and are in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008). The director has elected to take advantage of the exemption under FRS 1 not to prepare a cash flow statement.

Turnover

Turnover represents invoiced sales less credit notes, excluding value added tax.

Goodwill

Goodwill, being the amount paid in connection with the acquisition of a business in 2008 is being amortised evenly over its estimated useful life of three years.

Depreciation of Tangible Fixed Assets

Depreciation is provided to write off the cost less estimated residual values of all fixed assets over their expected useful lives. It is calculated on the original cost of the assets, on a straight line basis, at the following rates:

Fixtures, fittings & equipment	20%-25% per annum
Motor vehicles	25% per annum

Stocks

Stocks are valued at the lower of cost and net realisable value. Cost is based on the cost of purchase on an average basis. Net realisable value is based on estimated selling price less further costs to completion and disposal.

Hire Purchase and Leasing Commitments

Where assets are financed by hire purchase or leasing agreements that give rights approximating to ownership ("finance leases"), the assets are treated as if they had been purchased outright. The assets are capitalised and the obligation to the finance provider is treated as a creditor. Depreciation on the relevant assets is charged to the profit and loss account.

Payments to the finance provider are analysed between capital and interest using the straight-line method. The interest is charged to the profit and loss account. The capital part reduces the amounts payable to the finance provider. All other leases are treated as "operating leases". Their annual rentals are charged to the profit and loss account on a straight-line basis over the term of the lease.

Pension costs

The company operates a defined contribution pension scheme. The assets are held separately from those of the company in an independently administered fund. Contributions paid by the company are charged to the profit and loss account in the year in which they become payable.
