## Notes to the financial statements for the year ended 31 December 2001

### 1. Principal accounting policies

#### Basis of accounting

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of certain tangible fixed assets, in accordance with applicable Accounting Standards in the United Kingdom. During the period, the Company has implemented Financial Reporting Standards ("FRS") 18, "Accounting Policies". Other than the item referred to below under the heading "Tangible fixed assets" this has not resulted in any change to the accounting policies of the company. A summary of the more important accounting policies, which have been consistently applied, is set out below:

#### Tangible fixed assets

The cost of fixed assets is their purchase cost, and any costs directly attributable to bringing them into working condition for their intended use. Land and buildings are stated at valuations made by directors based on valuations made by independent professionally qualified valuers on an existing use open market value basis. Land and buildings are revalued by professionally qualified valuers every five years and in the intervening years these valuations are updated by the directors with the assistance of independent professional advice as required.

Depreciation is calculated so as to write off the cost of tangible fixed assets less their estimated residual values, on the following bases:

Freehold land	- nil
Freehold buildings	- 2% straight line
Equipment	- 10% to 25% straight line (previously 15% reducing balance)
Furniture and fittings	- 10% to 25% straight line (previously 15% reducing balance)
Computer equipment	- 25% straight line

The change in the basis for depreciating equipment, furniture and fittings did not have a material impact on the results for the year.

Provision is made for any impairment in the period in which it arises. The impairment is calculated by comparing the carrying value to the recoverable amount as required by FRS11, 'Impairment of fixed assets and goodwill'. The recoverable amount of land and buildings is taken to be the higher of realisable value and value in use. Value in use is determined by reference to the expected future cash flows of the care home, discounted at a risk adjusted weighted cost of capital.

Provisions for impairment in the carrying value of fixed assets to below historical cost are charged to the profit and loss account.

#### Stocks

Stocks are stated at the lower of cost and net realisable value.

#### Finance and operating leases

Costs in respect of operating leases are charged as incurred.

Leasing agreements which transfer to the group substantially all the benefits and risks of ownership of an asset are treated as if the asset had been purchased outright. The assets are included in fixed assets and the capital element of the leasing commitments is shown as obligations under finance leases. The lease rentals are treated

as consisting of capital and interest elements. The capital element is applied to reduce the outstanding obligations and the interest element is charged against profit so as to give a constant periodic rate of charge on the remaining balance outstanding at each accounting period. Assets held under finance leases are depreciated over the shorter of the lease terms, generally 25 years and the useful lives of equivalent owned assets.

#### Deferred taxation

Deferred tax is provided using the tax rates estimated to arise when the timing differences reverse and is accounted for to the extent that it is probable that a liability or asset will crystallise.

#### Pension costs

The company does not operate a pension scheme. Pension costs represent amounts paid to employees' private pension schemes.

#### Cash flow statement

The company is a wholly owned subsidiary of Craegmoor Limited, and the cash flows of the company are included in the consolidated group cash flow statement of that company. Consequently, the company is exempt under the terms of Financial Reporting Standard No. 1 (Revised) from publishing a cash flow statement.

### 2. Turnover

Turnover which excludes value added tax consists entirely of fee income charged for the year in the United Kingdom.

### 3. Related party transactions

The company has taken advantage of the exemption granted under paragraph 3 (c) of FRS 8 and not disclosed any transactions with other group companies.
