Statement of Directors' Responsibilities

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to

- select suitable accounting policies and apply them consistently,
- make judgements and accounting estimates that are reasonable and prudent, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Disclosure of information to the auditors

Each director has taken steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information. Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed, the reasonableness of significant accounting estimates made by the directors, and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Directors' Report to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

1 Accounting policies

Basis of preparation

The financial statements have been prepared under the historical cost convention, modified to include the revaluation of the company's fixed asset investments, and comply with applicable United Kingdom accounting standards and have remained unchanged from the prior period

Harrods Holdings Limited is a wholly owned subsidiary of Harrods Group (Holding) Limited which produces Group accounts in accordance with the Companies Act 2006. Consequently the company has taken advantage of the exemption permitted by section 400 of the Act from producing Group accounts. These accounts therefore present information about the company and not about its group.

Harrods Group (Holding) Limited produces a consolidated cash flow statement in accordance with Financial Reporting Standard No 1 (FRS1). Consequently the company has taken advantage of the exemption in FRS1 from producing a cash flow statement.

Fixed asset investments

Fixed asset investments in subsidiary undertakings are stated in the balance sheet of the company at the consolidated net asset value of those subsidiary undertakings, as the directors of the company believe that the subsidiaries' value is not materially less than their combined net asset value. Net surpluses are transferred to a non-distributable revaluation reserve, and net deficits are transferred from this reserve where investments have previously been revalued upwards.

Deferred tax

Deferred tax is recognised on all timing differences where the transactions or events that give the company an obligation to pay more tax in the future, or a right to pay less tax in the future, have occurred by the balance sheet date. Deferred tax assets are recognised when it is more likely than not that they will be recovered. Deferred tax is measured using rates of tax that have been enacted or substantively enacted by the balance sheet date.

Deferred tax relating to defined benefit pension scheme surpluses or deficits is netted against the respective retirement benefit surplus or obligation.

Dividend Income

Revenue is recognised when the Group's right to receive payment is established.

Harrods Holdings Limited

Notes to the Financial Statements

For the Period ended 2 February 2013

Pensions

Defined Contribution Scheme

The pension costs charged against profits represent the amount of the contributions payable to the scheme in respect of the accounting period

Defined Benefit Scheme

Certain company employees are members of the Harrods Group Pension Plan under which retirement benefits are funded by contributions from the company. Payment is made to the pension trust, which is separate from the company, in accordance with calculations made periodically by consulting actuaries

Scheme assets are measured at fair values. Scheme liabilities are measured on an actuarial basis using the projected unit method and are discounted at appropriate high quality corporate bond rates. The net surplus or deficit, adjusted for deferred tax, is presented separately from other net assets on the balance sheet

A net surplus is recognised only to the extent that it is recoverable by the company. The amount charged to the profit and loss account in respect of pension costs and other post-retirement benefits is the current service cost of providing the benefits, curtailment and settlement gains and losses and financial returns on the pension fund, all reflected in the period to which they relate. The current service cost and costs from settlements and curtailments are charged against operating profit. Past service costs are spread over the period until the benefit increases vest. Interest on the scheme liabilities and the expected return on scheme assets are included in other finance costs. Actuarial gains and losses are recorded through the statement of recognised gains and losses. Disclosure has been made of the assets and liabilities of the scheme under FRS 17 in note 17 to the accounts
