Directors' report

for the year ended 31 December 2012

First Technology Ltd

Registration number 01882393

The directors of First Technology Ltd present the report and audited accounts of the company for the year ended 31 December 2012

Principal activities

The principal activity of the company is to act as the holding company for its subsidiaries

Business review and future developments

The results for the year are in line with the directors' expectations. The directors intend that the company will continue to operate as a holding company for its trading subsidiaries for the foreseeable future.

Key performance indicators

The company monitors its net interest income/expense

Principal risks and uncertainties

As a holding company, the company is exposed to the value of its investments and the ability of its subsidiaries to generate surplus funds and pay dividends. The ultimate parent company actively manages the performance of its subsidiaries.

Financial risk management

Hedges

The company hedges its exposures to significant foreign currency movements.

At 31 December, the fair value of unrealised liabilities under hedge contracts was £417,000 (2011 £1,652,000).

Results and dividends

The company's profit for the financial year was £705,000 (2011 £210,000 loss) which will be transferred to reserves. The results for the year are shown on page 4.

The directors do not recommend the payment of a dividend (2011 £nil).

Directors

The directors of the company who held office during the year and up to the date of signing these accounts were

Allan Richards

David DeMeo

John Hakansan

John Tus

Directors' indemnities

Pursuant to the Company's articles of association, the directors were throughout the year to 31 December 2012 and are at the date of this report entitled to a qualifying indemnity provision as defined in section 236 of the Companies Act 2006.

Directors' report

for the year ended 31 December 2012

First Technology Ltd

Registration number 01882393

Directors' responsibilities statement

The directors are responsible for preparing the Directors' report and the accounts in accordance with applicable law and regulations

Company law requires the directors to prepare accounts for each financial year. Under that law the directors have prepared the accounts in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom accounting standards and applicable law). Under company law the directors must not approve the accounts unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing these accounts, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and accounting estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the accounts,
- prepare the accounts on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the accounts comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Going concern

The company's business activities, together with the factors likely to affect its future development and position, are set out in the business review section of the Directors' report. The ultimate parent company, Honeywell International Inc, has indicated it will provide financial support to the company for at least one year from the date of signing these accounts.

The directors, having taken into account the financial support from the ultimate parent undertaking, believe that no material uncertainties exist that cast significant doubt on the company's ability to continue in operation for the foreseeable future.

Disclosure of information to auditors

In the case of each of the persons who is a director at the time this report is approved:

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware, and
- each director has taken all the steps that he/she ought to have taken as a director to make him/herself aware of any relevant audit information and to establish that the company's auditors are aware of that information.

By order of the board

Independent auditors' report

to the members of First Technology Ltd

Registration number 01882393

We have audited the financial statements of First Technology Ltd for the year ended 31 December 2012 which comprise the profit and loss account, the balance sheet and the related notes

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice)

Respective responsibilities of directors and auditors

As explained more fully in the Directors responsibilities statement set out on page 2 the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed, the reasonableness of significant accounting estimates made by the directors, and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the report and accounts to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements

- give a true and fair view of the state of the company's affairs as at 31 December 2012 and of its profit for the year then ended,
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, and
- have been prepared in accordance with the requirements of the Companies Act 2006

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us, or
- the financial statements are not in agreement with the accounting records and returns, or
- certain disclosures of directors' remuneration specified by law are not made, or
- we have not received all the information and explanations we require for our audit

Notes to the accounts

for the year ended 31 December 2012

First Technology Ltd

Registration number 01882393

1. Accounting policies

These accounts are prepared on a going concern basis, under the historical cost convention, and in accordance with the Companies Act 2006 and applicable accounting standards in the United Kingdom. The accounting policies which have been applied consistently throughout the year are set out below.

Changes in accounting policies

The accounting policies have been reviewed by the board of directors in accordance with FRS18 "Accounting policies".

There were no changes to accounting standards in 2012 which were applicable to the company.

Group accounts

The accounts contain information about the company as an individual company and do not contain consolidated financial information as parent of a group. The company is exempt under section 401 of the Companies Act 2006 from the requirement to prepare consolidated accounts as it and its subsidiary undertakings are included by full consolidation in the accounts of Honeywell International Inc, a company registered in the USA, and whose accounts the directors consider to be drawn up in a manner equivalent to the 7th Directive. The accounts of Honeywell International Inc are publicly available.

Going concern

The company's business activities, together with the factors likely to affect its future development and position, are set out in the business review section of the Directors' report. The ultimate parent company, Honeywell International Inc, has indicated it will provide financial support to the company for at least one year from the date of signing these accounts.

The directors, having taken into account the financial support from the ultimate parent undertaking, believe that no material uncertainties exist that cast significant doubt on the company's ability to continue in operation for the foreseeable future.

Foreign currency

Transactions denominated in foreign currency are booked using daily or monthly exchange rates prevailing when the transaction is recorded. Monetary assets and liabilities which are denominated in foreign currencies are translated into Pounds sterling at rates of exchange approximating to those ruling at the balance sheet date. Exchange gains or losses resulting from the year's trading are reflected in the operating results for the year. Exchange gains and losses from financing activities are recognised in interest income and expense. Gains or losses on foreign currency hedges obtained from the ultimate parent company are recognised when realised. The fair value of unrealised hedges at the year end is disclosed in the Directors' report if material.

Dividend income

Dividend income is recognised when the shareholder's right to payment is established, that is on declaration of the dividend by the subsidiary.

Taxation

Current tax is the amount of tax estimated to be payable or recoverable in respect of the taxable profit or loss for a period, along with adjustments to estimates in respect of previous periods.

Deferred tax

Deferred tax is recognised in respect of the future estimated tax consequences of transactions or events recognised in the accounts of the current and previous periods.

Deferred tax assets are recognised to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

Notes to the accounts

for the year ended 31 December 2012

First Technology Ltd

Registration number 01882393

Investments

The company's interest in subsidiary undertakings is shown at cost less provision for permanent impairment. The value of investments is reviewed annually by the directors or more frequently if there is a triggering event, and provision made where it is considered that there has been a permanent impairment of value.

Pensions

Defined benefit plan assets are measured at market value and plan liabilities are measured using the projected unit method. Liabilities are discounted at the current rate of return on a high quality corporate bond of term and equivalent currency to the liability. Full actuarial valuations are obtained every three years, and are updated at each balance sheet date.

The company's share of the surplus or deficit of a defined benefit plan in which it participates is based on its actual shares of assets and obligations to the extent they are identifiable, or otherwise in proportion to its anticipated share of future contributions to the plan, normally in proportion to the number of defined benefit members reported on the most recent annual return from the trustees to the pension regulator.

A surplus is recognised to the extent that it is recoverable through reduced contributions and refunds.

Current and past service costs are included in the profit and loss account within operating expenses. The net amount of interest cost and expected return on assets is shown as other finance costs or income. Actuarial gains and losses, including differences between the expected and actual return on plan assets, are recognised in the statement of total recognised gains and losses, net of related deferred tax.

2. Cash flow statement and related party transactions

The company is a wholly owned subsidiary company of a group headed by Honeywell International Inc, and is included in the consolidated accounts of that company, which are publicly available. Consequently, the company has taken advantage of the exemption within FRS 1 "Cash flow statements" (revised 1996) from preparing a cash flow statement.

In accordance with the exemptions available under FRS 8 "Related party disclosures", transactions with other wholly owned undertakings within the Honeywell group are not required to be disclosed in these accounts, on the grounds that this company is a wholly owned subsidiary of Honeywell International Inc, whose accounts are publicly available.

3. Operating loss

Operating loss is stated after charging

5. Employees and directors

In 2012, all directors (2011 all directors) were remunerated by other group companies for their services to the group as a whole. No charge has been made to the company as in the opinion of the directors it is not possible to determine with reasonable accuracy the split by company.

The company has no other employees.

	2012	2011
	<u>£000</u>	<u>£000</u>
<i>Current tax</i>		
UK corporation tax on profit/(loss) for the year	-	-

Factors affecting tax charge for the year

The standard rate of corporation tax in the UK changed from 26% to 24% with effect from 1 April 2012. Accordingly, the company's profits for this accounting period are taxed at an effective rate of 24.5%.

	2012	2011
	<u>£000</u>	<u>£000</u>
<i>Difference between tax at standard rate of UK corporation tax and total tax charge</i>		
Profit/(loss) on ordinary activities before taxation	705	(210)

Expenses not deductible for tax purposes and other permanent differences	(451)	(226)
Group relief not paid for	278	282
Total tax charge for the year	<u>-</u>	<u>-</u>

Factors that may affect future tax charges

Deferred tax is provided at 23% on temporary differences reversing in 2013 and thereafter. There are proposals to reduce UK Corporation Tax in stages to 20% by April 2015. The effect of these proposals is not material.

9. Deferred tax

	2012	2011

13. Pensions

Prior to 31 March 2011, the company was a participating employer in the Honeywell UK Pension Scheme (HUKPS) which is a funded defined benefit plan providing retirement benefits based on salary. It is closed to new entrants and has no active members. Until the 31 March 2011 valuation, the company accounted for the total pension assets and liabilities of its subsidiary undertakings as they were unable to identify their share of assets and liabilities. Following the valuation, the company transferred its net liability to its subsidiaries. The transfer was reflected in 2011 as an actuarial gain in the statement of total recognised gains and losses.

The allocation of each participating employer's share of assets and liabilities as at 1 January 2011 was updated in the 31 March 2011 valuation to reflect the pooling of the plan's assets, which were previously identifiable by predecessor plan. The effect of this change on the movements in pension assets and obligations is disclosed in this note as "effect of transfer to HUKPS" in the prior year.

16. Contingent liabilities

The company, with other Honeywell group companies in the UK, has provided a bank guarantee under a composite accounting agreement. Under this agreement, bank interest is calculated on the net group position after setting off positive and overdrawn cash balances. The maximum contingent liability under this agreement is the total of overdrawn balances held by group companies, amounting to £431,583,000 (2011 £568,591,000).

Positive cash balances held by the group exceeded overdrawn balances in 2012 and 2011.

17. Ultimate parent undertaking

The immediate parent undertaking is Honeywell Acquisitions II Ltd, a company incorporated in England.

The ultimate parent undertaking and controlling party is Honeywell International Inc, a company incorporated in the USA, which is the smallest and largest group to consolidate these accounts. Copies of these accounts are publicly available and can be obtained from Corporate Publications, PO Box 2245, Morristown, New Jersey 07962-2245 USA or from the Internet at www.honeywell.com.
