Strategic report

The directors present the Beazley Furlonge Limited ("the Company") for the year ended 31 December 2021. The Directors prepared the financial statements in accordance with the UK financial reporting framework FRS 102.

Business review and principal activity

The principal activity of the Company is that of managing agent for six Lloyds syndicates (2623,623,3623,6107,3622,5623). The Company received managing agency fees for the year of at the rate of 0.60% (2020: 0.60%) The Company also receives profit commission from syndicate 623 at a rate of 17.5% (2020: 17.5%).

The capacities of the managed syndicates are as follows:

Syndicate Number	Capacity 2021	Capacity 2020
2623	£2,348.4m	£1,932.4m
623	£514.8m	£423.2m
5623	£144.2m	£83.5m
6107	£70.5m	£69.6m
3623	£65.4m	£71.9m
3622	£27.8m	£25.9m

The principal risks and uncertainties of the Company arise from the management of syndicates 2623, 623, 3623, 6107, 3622 and 5623.

Further information on the Group strategy can be found in Beazley plc "Group", Group's annual report.

Key performance indicators ("KPIs")

The Company's directors are of the opinion that the KPIs for the Company are best represented by the turnover and related notes, in particular note 2 and note 4, set out on page 26.

Risk governance and reporting

Beazley Furlonge Limited's Board of directors has the responsibility for defining and monitoring the risk appetite within which Beazley Furlonge Limited ('BFL') and the managed syndicates operate, with key individuals and committees accountable for day-to-day management of risks and controls. Regular reporting by the risk management team in board meetings and senior management committees ensures that risks are monitored and managed as they arise.

Climate change and responsible business

Led by Beazley's plc Board and supported by the Boards of Beazley Furlonge Ltd, Beazley Insurance Dac, and Beazley Insurance Company Inc, ESG issues and climate related risk have become regular agenda items throughout 2021. In March 2021 we launched our first Responsible Business Strategy. This document, and the subsequent update which is published alongside the Beazley plc annual report and accounts, sets out the goals and targets across a wider range of ESG issues, including climate change.

In addition to the summary Responsible Business report, Beazley plc has disclosed its compliance with the TCFD's Recommendations and Recommended Disclosures at the consolidated group level in the Beazley plc annual report and accounts.

Risk management

As a risk-taking Company, we pride ourselves on understanding the drivers of risk for our clients and our business and in seeking ways to mitigate it. As the syndicate continues its journey of change and growth, the risk function is focused on delivering complementary risk oversight improvements.

The last two years of navigating the pandemic have demonstrated just how quickly a risk can change. It demonstrated the importance of the Company continuing to monitor the development of other significant risks. As an example, the risk that cyber threats pose to the global economy, to society and the Company has climbed up the risk function's agenda. Similarly, the changing scale and profile of natural catastrophe risk driven by climate change has become apparent.

As a risk function we must be ready to explore the changing risk landscape. By creating a risk culture that embeds risk management into our daily operations, built around a robust risk framework, we are able to manage challenges to our assumptions about risks as they arise, whilst protecting our business and those of our clients.

During 2021 we have been actively enhancing the risk management framework to ensure it supports our risk oversight responsibilities and effective challenge of the changing risk landscape. This includes risks arising from our growth plans, and the business' programme of operational enhancement. Our risk framework will also need to adapt to ensure it remains able to manage an increasingly complex risk and controls environment. Just as importantly, we will need to stress test management's assumptions about risk mitigation to ensure they will remain resilient should risks crystallise.

While we manage the challenges that growth and operational enhancement can bring, we also need to address emerging and climate risks as well as regulatory and legal changes such as preparing for the implementation of BEIS proposals for governance reform. The risk function is actively engaged in this initiative to provide second line oversight and ensure the risk framework adapts accordingly.

Key to the success of the performance of risk management across the business has been building the collaboration between the Company's assurance functions, in particular the compliance and risk teams under the new structure, to deliver a more robust second line oversight function. As we move forward, working with our colleagues across the business to further embed risk management into our business processes will ensure that we are able to achieve our goals supported by a robust risk culture.

Control statement

The latest chief risk officer report to the board has confirmed that the control environment has not identified any significant failings or weaknesses in key processes.

Risk management philosophy

The Company's risk management philosophy is to balance the risks the business takes on with the associated cost of controlling these risks, whilst also operating within the risk appetite agreed by the board. In addition, our risk management processes are designed to continuously monitor our risk profile against risk appetite and to exploit opportunities as they arise.

Risk management strategy submission, the Company's capital ratios and its total capital resources are in excess of Lloyd's regulatory requirements.

The board has delegated executive oversight of the risk management department to the Beazley plc executive committee, which in turn has delegated immediate oversight to the risk and regulatory committee. The board has also delegated oversight of the risk management framework to the risk committee.

Risk management philosophy (continued)

Clear roles, responsibilities and accountabilities are in place for the management of risks and controls, and all employees are aware of the role they play in all aspects of the risk management process, from identifying sources of risk to playing their part in the control environment. The impact of each risk is recorded in the risk register on a 1:10 likelihood of that risk manifesting in the next 12 months. A risk owner has been assigned responsibility for each risk, and it is the responsibility of that individual to periodically assess the impact of the risk and to ensure appropriate risk mitigation procedures are in place. External factors facing the business and the internal controls in place are routinely reassessed and changes made when necessary.

On an annual basis, the board agrees the risk appetite for each risk event and this is documented in the risk management framework document. The residual financial impact is managed in a number of ways, including:

- mitigating the impact of the risk through the application of controls;
- transferring or sharing risk through outsourcing and purchasing insurance and reinsurance; and
- tolerating risk in line with the risk appetite.

In addition, the following core risk management principles have been adopted:

- there is a culture of risk awareness, in which risks are identified, assessed, challenged and managed;
- risk management is a part of the wider governance environment in which challenge is sought and welcomed;
- risk mitigation techniques employed are fit for purpose and proportionate to the business; risk management is a core capability for all employees;
- risk management is embedded in day-to-day activities;
- risk management processes are robust and supported by verifiable management information; and
- risk management information and reporting are timely, clear, accurate and appropriately escalated.

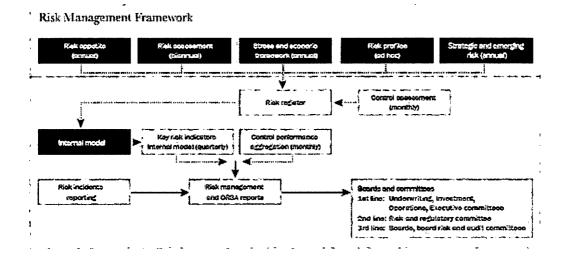

Risk management framework

The managing agent takes an enterprise-wide approach to managing risk, following the Group's risk management framework. The framework establishes our approach to identifying, measuring, mitigating and monitoring the Group's key risks. The managing agent has adopted the 'three lines of defence' framework. Across the business, there are two defined risk-related roles: risk owner and control reporter. Each risk event is owned by the risk owner, who is a senior member of staff. Risk owners, with support and challenge provided by the risk management team, perform a risk assessment twice a year, including an assessment of heightened and emerging risks.

Risk management framework (continued)

The risk management framework comprises a number of risk management components, which when added together describe how risk is managed on a day-to-day basis. The framework includes a risk register that captures the risk universe (approximately 50 risk events Grouped into eight risk categories: insurance, market, credit, liquidity, operational, regulatory and legal, Group and strategic), the risk appetite set by the board, and the control environment that is operated by the business to remain within the risk appetite and which is monitored and signed off by control reporters.

The diagram above illustrates the components of the risk management framework as operated across the Beazley Group.

In summary, the board identifies risk, assesses risk and sets risk appetite. The business then implements a control environment which describes how the business should operate to stay within risk appetite. The risk management review and challenges these assessments and reports to the board on how well the business is operating, using a risk management report.

For each risk, the risk management report brings together a view of how successfully the business is managing risk and whether there have been any events that we can learn from (risk incidents). Finally, the framework is continually evaluated and where appropriate improved, through the consideration of stress and scenario testing, themed reviews using risk profiles, and an assessment of strategic and emerging risks.

During 2021 the risk management framework was enhanced with regards to evidencing risk management challenge, assessing emerging risks and assessing risk culture. A suite of risk management reports are provided to the boards and committees to assist senior management and board members to discharge their oversight and decision making responsibilities. The risk reports include the risk appetite statement, the risk management report, risk profiles, stress and scenario testing, reverse stress testing, an emerging and strategic report, a report to the Beazley plc remuneration committee and the Own Risk and Solvency Assessment (ORSA) report.

The internal audit function considers the risk management framework in the development of its audit universe to determine its annual risk-based audit plan. The plan is based on, among other inputs, the inherent and residual risk scores as captured in the risk register. Finally, a feedback loop operates, with recommendations from the internal audit reviews being assessed by the business and the risk management function for inclusion in the risk register as appropriate.

Risk management framework (continued)

The risks to financial performance

The board of the managing agent monitors and manages risks Grouped into eight categories, which cover the universe of risk that could affect Beazley. The board confirm that they have undertaken a robust assessment of the principal and emerging risks and uncertainties that the Group faces. The board considers the insurance and strategic risk categories to be the most significant for Beazley. Refer to below for further discussion of climate change risk, and how it interacts with the risks and uncertainties discussed here.

Insurance risk

Given the nature of Beazley's business, the key risks that impact financial performance arise from insurance activities. The main insurance risks can be summarised in the following categories:

- Market cycle risk: The risk of systematic mispricing of the medium tailed Specialty Lines and Cyber and Executive risk business, which could arise due to a change in the US tort environment, changes to the supply and demand of capital, and companies using incomplete data to make decisions. This risk would affect multiple classes within the Specialty Lines and Cyber and Executive divisions across a number of underwriting years. The managing agent uses a range of techniques to mitigate this risk including sophisticated pricing tools, analysis of macro trends, analysis of claim frequency and the expertise of our experienced underwriters and claims managers;
- **Natural catastrophe risk:** The risk of one or more large events caused by nature affecting a number of policies and therefore giving rise to multiple losses. Given Beazley's risk profile, such an event could be a hurricane, major windstorm, earthquake or wildfires. This risk is monitored using exposure management techniques to ensure that the risk and reward are appropriate and that the exposure is not overly concentrated in one area;
- Non-natural catastrophe risk: This risk is similar to natural catastrophe risk except that multiple losses arise from one event caused by mankind. Given Beazley's risk profile, examples include a coordinated cyber-attack, global pandemic, losses linked to an economic crisis, an act of terrorism, an act of war or a political event. This risk is monitored using exposure management techniques to ensure that the risk and reward are appropriate and that the exposure is not overly concentrated in one area;
- Reserve risk: Beazley has a consistent reserving philosophy. However, there is a risk that the reserves put aside for expected losses turn out to be insufficient. This could be due to any of the three drivers of risk described above. The managing agent uses a range of techniques to mitigate this risk including a detailed reserving process which compares estimates established by the claims team with a top-down statistical view developed by the actuarial team. A suite of metrics is also used to ensure consistency each year
- Anti-selection risk: There is a risk that poorer than average risks are included in market facilitates. This risk is managed through the underwriting selection criteria and ongoing monitoring for each market facility.
- **Single risk losses:** Given the size of policy limits offered on each individual direct insurance risk, it is unlikely that the poor performance of one policy will have a material impact on the Group's financial performance.

Strategic risk

Alongside these insurance risks, the success of the Group depends on the execution of an appropriate strategy. The main strategic risks can be summarised as follows:

- **Strategic decisions:** The Group's performance would be affected in the event of making strategic decisions that do not add value. The managing agent on behalf of the syndicates mitigates this risk through the combination of recommendations and challenge from non-executive directors, debate at the executive committee and input from the strategy and performance Group (a Group of approximately 30+ senior individuals from across different disciplines at Beazley);
- **Environment:** There is a risk that the chosen strategy cannot be executed because of the environmental conditions within which Beazley operates, thereby delaying the timing of the strategy;

Risk management framework (continued)

- **Communication:** Having the right strategy and environment is of little value if the strategy is not communicated internally so that the whole Group is heading in the same direction, or if key external stakeholders are not aware of Beazley's progress against its strategy;
- Senior management performance: There is a risk that senior management could be overstretched or could fail to perform, which would have a detrimental impact on the Group's performance. The performance of the senior management team is monitored by the Chief Executive Officer and talent management team and overseen by the nomination committee;
- **Reputation:** Although reputational risk is a consequential risk, i.e. it emerges upon the occurrence of another risk manifesting, it has the potential to have a significant impact on an organisation. Beazley expects its staff to act honourably by doing the right thing;
- **Flight:** There is a risk that Beazley could be unable to deliver its strategy due to the loss of key personnel. Beazley has controls in place to identify and monitor this risk, for example through succession planning;
- **Crisis management:** This is the risk caused by the destabilising effect of the Group having to deal with a crisis and is mitigated by having a detailed crisis management plan;
- **Corporate transaction:** There is a risk that Beazley could undertake a corporate transaction which did not return the expected value to shareholders. This risk is mitigated through the due diligence performed, the financial structure of transactions and the implementation activity.

Under the environment risk heading, the board identifies and analyses emerging and strategic risk on an annual basis for discussion at the board strategy day in May.

Other risks

The remaining six risk categories monitored by the board are:

- Market (asset) risk: This is the risk that the value of investments could be adversely impacted by movements in interest rates, exchange rates, default rates or external market forces. This risk is monitored by the investment committee;
- **Operational risk:** This is the risk of failures of people, processes and systems or the impact of an external event on Beazley's operations, and is monitored by the operations committee. An example would be a cyber-attack having a detrimental impact on our operations;
- **Credit risk:** Beazley has credit risk to its reinsurers, brokers and coverholders, of which the reinsurance asset is the largest. The underwriting committee monitors this risk;
- **Regulatory and legal risk:** This is the risk that Beazley might fail to operate in line with the relevant regulatory framework in the territories where it does business. Of the eight risk categories, the board has the lowest tolerance for this risk. This risk is monitored by the risk and regulatory committee;
- **Liquidity risk:** This is the risk that the Group might not have sufficient liquid funds following a catastrophic event. The investment committee monitors this risk to ensure there is sufficient liquidity which, given the nature of the asset portfolio, is currently small; and
- **Group risk**: The key risk is a deterioration in Beazley's culture which leads to inappropriate behaviour, actions or decisions. This is monitored through engagement surveys, staff feedback and regular dialogue with senior management. The other main Group risk is that one Group entity operates to the detriment of another Group entity or entities, including the 3rd party syndicates managed by the Company. The Beazley plc board monitors this risk through the reports it receives from each entity.

Risk management framework (continued)

Financial crime risk

The Company also considered anti-bribery and corruption risk across all risk categories. We are committed to ensuring that all business is conducted in an ethical and honest manner, and that we are not involved in any illicit activity defined under the UK Bribery Act 2010 and US Foreign Corrupt Practices Act 1977. This risk includes the risk of bribery and corruption we are exposed to and manifests itself in the susceptibility to unethical or dishonest influences whereby illicit payments and/or inducements are either made or received.

Such activity has severe reputational, regulatory and legal consequences, including fines and penalties.

Considerations relevant to this risk include the nature, size and type of transactions, the jurisdiction in which transactions occur, and the degree to which agents or third parties are used during such transactions.

Every employee and individual acting on Beazley's behalf is responsible for maintaining our reputation. We have a zero-tolerance approach to bribery and corruption and are committed to acting professionally, fairly and with integrity in all aspects of our business. In doing so, we aim to recruit and retain high calibre employees who carry out their responsibilities honestly, professionally and with integrity. We maintain a number of policies designed to prevent any risk of bribery and corruption, which are communicated to all employees and supplemented with appropriate training.

Climate change risk

The changing global climate is recognised as an important emerging risk due to its widespread potential impact on the global population, environment and economy. A key aspect of Beazley's business model is to support our clients who have been affected by natural catastrophes, helping them return to pre-catastrophe conditions as soon as possible. As a speciality insurer, various classes of business we underwrite are subject to the effect climate change presents to the risk environment.

We acknowledge and accept that over time climate change could impact the risks facing our insureds and we aim to manage the resulting risk to the syndicates as described below:

- **Pricing risk:** This is the risk that current pricing levels do not adequately consider the prospective impact of climate change resulting in systemic underpricing of climate exposed risks. The syndicates' business planning process establishes how much exposure in certain classes of business or geographic area we wish to accept. We benefit from a strong feedback loop between our claims and underwriting teams to ensure that emerging claims trends and themes can be contemplated in the business planning process, the rating tools and the underwriter's risk by risk transactional level considerations. Our underwriters are empowered to think about climate risk during their underwriting process in order to determine the implication on each risk;
- Catastrophe risk: This is the risk that current models do not adequately capture the impact of climate change on the frequency, severity or nature of natural catastrophes or other extreme weather events (e.g. wildfires) that could drive higher-than-expected insured losses. The syndicate utilises commercial catastrophe models to facilitate the estimation of aggregate exposures based on the syndicate's underwriting portfolio. These catastrophe models are updated to reflect the latest scientific perspectives. Catastrophe models are evolving to include new or secondary perils which may be related to climate change. In addition, the syndicate runs a series of Natural Catastrophe Realistic Disaster Scenarios (RDS) on a monthly basis which monitor the syndicates' exposure to certain scenarios that could occur. These RDS's include hurricanes in the US, typhoons in Japan, European windstorms and floods in the UK;

Risk management framework (continued)

- Reserve risk: This is the risk that established reserves are not sufficient to reflect the ultimate impact climate change may have on paid losses. This includes a unanticipated liability risk of losses arising from our clients facing litigation if they are held to be responsible for contributing to climate change, or for failing to act properly to respond to the various impacts of climate change. With support from our Group actuarial team, claims teams and other members of management the syndicate establishes financial provisions for our ultimate claims liabilities. The syndicate maintains a prudent approach to reserving to help mitigate the uncertainty within the reserves estimation process;
- Asset risk: This is the risk that climate change has a significant impact across a number of industries which may negatively impact the value of investments in those companies. The Group considers the impact of climate change on its asset portfolio by seeking to incorporate an assessment of environmental risks in the investment process. The managing agent subscribes to the research services of a specialist Company in the field of environmental, social and governance research and have integrated their proprietary ratings into the internal credit process applied to investments in corporate debt securities. A minimum standard for environmental, social and governance performance is defined and companies not meeting the required standard will be excluded from the approved list of issuers. The analysis also includes a consideration
- of the sustainability of each Company with regard to the potential decline in demand in specific sectors;
- External event risk: This is the risk that the physical impact of climate related events has a material impact on our own people, processes and systems leading to increased operating costs or the inability to deliver uninterrupted client service. The Company has business continuity plans in place to minimise the risk of an interrupted client service in the event of a disaster;
- Commercial management risk: The Company aims to minimise where possible the environmental impact of our business activities and those that arise from the occupation of our office spaces. As we operate in leased office spaces our ability to direct environmental impacts is limited. However, we do choose office space and engage with our employees, vendors and customers in an effort to reduce overall waste and environmental footprint;
- **Credit risk:** As a result of material natural catastrophe events, there is a risk that the syndicates' reinsurance counterparties are unable to pay reinsurance balances due to the syndicates; if the frequency or severity of these events is increased due to climate change this could cause a corresponding increase on credit risk. An important consideration when placing our reinsurance programme is evaluation of our counterparty risk. Every potential reinsurer is evaluated through a detailed benchmarking which considers: financial strength ratings, capital metrics, performance metrics and other consideration.
- Regulatory and legal risk: Regulators, investors and other stakeholders are becoming increasingly interested in companies' responses to climate change. Failure to appropriately engage with these stakeholders and provide transparent information may result in the risk of reputational damage or increased scrutiny. The Company regularly monitors the regulatory landscape to ensure that we can adhere to any changes in relevant laws and regulations. This includes making any necessary regulatory or statutory filings with regard to climate risk;
- Liquidity risk: Linked to the underwriting and credit risks noted above, there is a risk that losses resulting from unprecedented natural disasters or extreme weather could erode the ability to pay claims and remain solvent. The Beazley group establishes capital at a 1:200 level based on the prevailing business plan.

Section 172 statement

The directors are fully aware of their responsibilities to promote the success of the company in accordance with s172 of the Companies Act and have acted in accordance with these responsibilities during the year. The board has identified that its key stakeholders are:

- the staff who act on behalf of the managed syndicates
- Lloyd's
- external names on our managed syndicates
- the managed syndicates' customers and brokers
- regulators

The company's core values, which are professionalism, integrity, effectiveness and dynamic, reflect the company's commitment to do the right thing simply because it is the right thing to do. The requirement to adhere to this principle is embedded within all job descriptions across the group.

Throughout the year the board considered the wider impact of strategic and operational decisions on the company's stakeholders. Key decisions included the various board changes undertaken throughout the year, approval of the annual results for the company and all of its managed syndicates, and the approval of the syndicate business plans. The board believes that the interests of all stakeholders are aligned in the decisions that were taken. The company complies with the Prompt Payment Code reporting requirements and publishes its average payment times for supplier invoices. Where a supplier proposes payment terms that differ from our standard terms, the company uses its best endeavours to accommodate the supplier's terms.

The Beazley group has a responsible business strategy which sets out six areas of focus:

Charity - our global partnership, fund raising and match funding;

Community - how we interact the people and places in our local area;

<u>Environment</u> – taking responsibility for our own use of resources as we conduct our business to minimise our environmental footprint;

<u>Marketplace</u> - our awareness of the social and environmental impact of the business we conduct, and how we can support global sustainability efforts through the provision of insurance;

<u>Inclusivity and diversity</u> – our vision is to inspire and develop people with diverse perspectives to thrive at all levels of our business; and

<u>Responsible underwriting compliance</u> – we are committed to ensuring that our business is conducted in an ethical and honest manner, thus ensuring that we do the right thing for our stakeholders.

Further information on the group's responsible business strategy and how the group aims to provide support for our communities and the environment are discussed on pages 30 to 41 of Beazley plc's 2021 annual report.

How we engage:

The staff who act on behalf of the managed syndicates: We recognise that our people are fundamental to the long-term success of the company and as such, have been identified as one of the five pillars of Beazley's new strategy. Active engagement with our employees has always been a priority and has become increasingly important during the sustained period of remote working. During this time, direct employee engagement has continued as before, albeit much of this has been conducted virtually. This has consisted of regular all-employee meetings, Q&As with senior management and smaller team meetings. This direct engagement has been especially important in bringing Beazley's culture to life for new employees who, until recently, may not have met other colleagues in person. We have taken the opportunity to hold 'welcome back to the office' events as and when this has been possible. More information on employee engagement is provided in the Culture & People section on pages 46-47 of Beazley plc's 2021 annual report.

Strategic report (continued) Section 172 statement (continued)

Historically we have conducted all-employee surveys every other year that measure employee engagement. We conducted the survey in in the fourth quarter of 2021 and overall employee engagement had increased to 86%, during a time when remote working presented challenges to engagement. This result is significantly higher than the global benchmark. In addition to the all-employee survey, employee insight has been gained through various employee networks and via the day-to-day engagement with the workforce.

The 'Sounding Board', chaired by Bob Stuchbery, has been in existence since 2019 to support the formal engagement of the Board with the workforce. Bob is the Non-Executive Director nominated by the Board to bring the views of the workforce to the boardroom and there is a Q&A with him on page 45 of the Beazley plc 2021 annual report.

<u>Lloyd's</u>: As a Lloyd's managing agency that manages seven active syndicates, the board views the success of the Lloyd's market as a whole as fundamental to the company's success. The company has been part of the Lloyd's market for 34 years and is a strong supporter of market initiatives..

<u>The names on our syndicates</u>: The support and engagement of the Names is imperative to the future success of our business. In all of the board's decision making, they have ensured that they acted fairly with regard to the Names supporting the syndicates. We have appropriate channels for Members' Agents to contact us to discuss the performance and management of the syndicates.

<u>The syndicates' customers</u>: Our clients are at the heart of our decision making and one of the five pillars of our strategy. The Covid-19 pandemic has brought into sharp focus the need for us to actively engage with and support our insureds during a time of particular challenge and uncertainty to them.

During 2021, significant work to engage with and better understand the needs of our clients took place through the 'Closer to the Client' strategic initiative. Key insights from this work were shared with the Board and throughout the business. We will seek to incorporate key learnings from this work as we embed our new strategy and associated ways of working.

<u>The syndicates' brokers</u>: There is regular, coordinated engagement with our key broker partners which is facilitated through the group's broker relations team. There are a number of annual industry-wide events that bring our senior management together with the senior leaders of the broking firms. The board receives updates on our key broker relationships through reports from the chief executive.

<u>Regulators</u>: We have transparent communication with our key regulators supported by our compliance team. Our business teams and the non-executive directors have ongoing engagement with our regulators on an ad hoc basis, including when requested to discuss specific matters. Any significant regulatory engagements are reported to the board.

Directors' report

Business review

The Directors present their report together with the audited financial statements for the year end 31 December 2021. A review of Beazley Furlonge Limited's (the 'Company', registered no: 01893407) activities is included in the strategic report.

Future developments

Syndicate 4321 was launched on 1 January 2022. The Company will act as a managing agent for the syndicate 4321 is Lloyd's first ESG syndicate, which provides additional capacity to responsible risks that perform well against ESG metrics.

Results and dividends

The results for the period are shown in the profit or loss account on page 18. No dividend was paid in 2021 (2020: nil).

A dividend of £25.0m has been declared by the board since the balance sheet date.

Donations

During the period the Company made no charitable donations (2020: £nil).

Director's indemnity insurance

Beazley plc, ultimate parent of this Company, has granted indemnities to one or more of the directors against liability in respect of proceedings brought to third parties, subject to the conditions set out in section 234 of the Companies Act 2006. Such qualifying third party indemnity provisions remain in force as at the date of approving the Directors' report.

Directors

The directors of the Company at 31 December 2021, who served during the year and to the date of this report, were as follows:

D L Roberts - chairman

N H Furlonge

G P Blunden

K W Wilkins

R A Stuchbery

A J Reizenstein

C LaSala

N Wall (Appointed - 01/02/2021)

D A Horton(Resigned - 31/03/2021)

C C W Jones (Resigned - 26/02/2021)

A P Cox - chief executive officer

I Fantozzi

A S Pryde (Resigned - 31/05/2021)

S M Lake

R S Anarfi

L Santori (Appointed - 01/03/2021)

Directors' report (Continued)

The directors of Beazley Furlonge Limited during the period covered by this annual report who participated in syndicate 623 through Beazley Staff Underwriting Limited are as follows:

Year of Account	2020 year of account underwriting capacity £	2021 year of account underwriting capacity	2022 year of account underwriting capacity
A P Cox	400,000	400,000	400,000
D A Horton	400,000	400,000	-
A S Pryde	350,000	350,000	-
S M Lake	100,000	100,000	100,000
I Fantozzi	350,000	350,000	350,000
R S Anarfi	· -	-	100,000

Disclosure of information to auditor

The directors who held office at the date of approval of this directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the Company's auditor is unaware; and each director has taken all the steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

Going concern

The financial statements of the Company have been prepared on a going concern basis. As a wholly owned subsidiary of the Group, the business activities, together with the factors likely to affect its future development, performance and position, are set out in the Strategic report contained in the Group's Annual Report & Accounts. In addition, the Risk report includes the Group's risk management objectives and the Group's objectives, policies and processes for managing its capital.

In assessing the Company's going concern position as at 31 December 2021, the directors have considered a number of factors, including the current statement of financial position, the Company's strategic and financial plan, taking account of possible changes in trading performance and funding retention. The assessment concluded that, for the foreseeable future, the Company has sufficient capital and liquidity for 12months from the date financial statement are authorised for issue. At its most recent 2021 QF1 regulatory submission, the Company's capital ratios and its total capital resources are in excess of Lloyds regulatory requirements.

As a result of the assessment, the directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future and therefore believe that the Company is well placed to manage its business risks successfully. Accordingly, they continue to adopt the going concern basis in preparing the Company's financial statements.

In accordance with section 487(2) of the Companies Act 2006 and in the absence of notice proposing that the appointment be terminated at a general meeting, EY will be deemed to be reappointed for the next financial year.

Signed on behalf of the board

A P Cox Director

Statement of directors' responsibilities in respect of the strategic report, the directors' report and the financial statements

The directors are responsible for preparing the Directors' report, strategic report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law).

Under Company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so;
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- State whether applicable UK Accounting Standards have been followed, subject to material departures disclosed and explained in the financial statements.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BEAZLEY FURLONGE LIMITED

Opinion

We have audited the financial statements of Beazley Furlonge Limited for the year ended 31 December 2021 which comprise the primary statements such as the Profit or loss account, the Statement of income and retained earnings and the Balance sheet and related notes 1 to 14, including a summary of Significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the company's affairs as at 31 December 2021 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BEAZLEY FURLONGE LIMITED (CONTINUED)

Other information

The other information comprises the information included in the annual report set out on pages 1-14 other than the financial statements and our auditor's report thereon. The directors are responsible for the other information.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year
 for which the financial statements are prepared is consistent with the financial statements;
 and
- the strategic report and directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit

Responsibilities of directors

As explained more fully in the directors' responsibilities statement set out on page 14, the directors are responsible for the preparation of the financial statements and

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BEAZLEY FURLONGE LIMITED (CONTINUED)

for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's and the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the entity and management.

- Our approach was as follows:
- We obtained an understanding of the legal and regulatory frameworks that are applicable
 to the company and determined that the most significant are the relevant laws and
 regulations related to elements of company law, tax legislation and the financial reporting
 framework. Our considerations to other laws that may have a material effect on the
 financial statements included permissions and supervisory requirements of the Financial
 Conduct Authority ('FCA') and the Companies Act 2006.
- We understood how Beazley Furlonge Limited is complying with those frameworks by making enquiries of management, internal audit and those responsible for the legal and compliance matters. We also reviewed minutes of the Board and attended the Audit Committees and gained an understanding of the company's approach to governance demonstrated by the Board's approval of the company's governance framework.
- We assessed the susceptibility of the Company's financial statements to material
 misstatement, including how fraud might occur by considering the controls that the
 company has established to address risks identified by the entity, or that otherwise seek
 to prevent, deter or detect fraud. Additionally, we tested year-end adjustments i.e. early
 close topside adjustments and manual journals, to provide reasonable assurance that the
 financial statements were free from fraud or error.
- Based on this understanding we designed our audit procedures to identify non- compliance
 with such laws and regulations. Our procedures involved making enquiry of those charged
 with governance and senior management for their awareness of any non-compliance of
 laws and regulations; inquiring about the policies that have been established to prevent
 non-compliance with laws and regulations by officers and employees; inquiring about the
 company's methods of enforcing and monitoring compliance with such policies and
 inspecting significant correspondence with the FCA.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BEAZLEY FURLONGE LIMITED (CONTINUED)

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Signed on behalf of the board of directors

July Lake

S M Lake Director

The financial statements were approved by the board of directors on 02 March 2022.

The notes on pages 22 to 31 form part of these financial statements.

Notes to the financial statements

1. Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements.

Statement of compliance and basis of preparation

Beazley Furlonge Limited is a limited liability Company incorporated in England under the Companies Act. The address of the registered office is given on page 1. The nature of the Company's operations and its principal activities are set out in the strategic report on pages 2 to 11.

The financial statements of Beazley Furlonge Limited were authorised for issue by the Board of directors on 02 March 2022. The financial statements have been prepared in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK(FRS 102), as it applies to the financial statements of the Company for the year ended 31 December 2021 and in accordance with the provisions of the Large and Medium- sized Companies and Group (Accounts and Reports) Regulations. The financial statements are presented in pounds sterling, being the functional currency of the Company, and in millions unless otherwise stated.

Exemptions for qualifying entities under FRS 102

Beazley Furlonge Limited has taken advantage of Companies Act 2006 Section 400 and claimed exemption form preparing Group accounts as it's a wholly owned subsidiary of the ultimate parent Company, Beazley plc, whose financial statements are publicly available, please refer to note 12.

FRS 102 allows a qualifying entity certain disclosure exemptions, subject to certain conditions. As these conditions have been complied with, the Company has taken advantage of the following exemptions:

- (i) from preparing a reconciliation of the number of shares outstanding at the beginning and at the end of the period;
- (ii) from preparing a statement of cash flows, on the basis that it is a qualifying entity and the consolidated statement of cash flows, included in the Group's consolidated financial statements, includes the Company's cash flows;
- (iii) from disclosing share based payment arrangements concerning its own equity instruments. The Group's share based payment arrangements and relevant disclosures are presented in the Group's consolidated financial statements;
- (iv) from disclosing the Company key management personnel compensation, as required by FRS 102; and
- (v) from disclosing transactions entered into between related parties within a Group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member.

Going Concern

The financial statements of Beazley Furlonge Limited have been prepared on a going concern basis. The Group's business activities, together with the factors likely to affect its future development, performance and position, are set out in the Strategic report contained in the annual report. In addition, the Strategic report includes the entity's risk management objectives and the entity's objectives, policies and processes for managing its capital.

Accounting policies (continued) Going Concern(continued)

In assessing the Company's going concern position as at 31 December 2021, the directors have considered a number of factors, including the current statement of financial position and the Company's strategic and financial plan. The assessment concluded that, for the foreseeable future, the Company has sufficient capital and liquidity for the 12 months from the date financial statement are authorised for issue.

As a result of the assessment, the directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future and therefore believe that the Company is well placed to manage its business risks successfully. Accordingly, they continue to adopt the going concern basis in preparing the financial statements.

Use of estimates and judgements

The preparation of financial statements requires the use of certain critical accounting estimates and judgements that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from those on which management's estimates are based. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Estimates which are sensitive to changes in future economic conditions could be impacted by significant changes in the economic and regulatory environment, such as COVID-19, climate change, US legislation and Brexit.

Specific to climate change, since responses to it are still developing, it is not possible to consider all possible future outcomes when determining asset and liability valuations, and timing of future cash flows, as these are not yet known. Nevertheless, the current management view is that reasonably possible changes arising from climate risks would not have a material impact on asset and liability valuations at the year-end date.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Information about areas of judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are described in this statement of accounting policies and also specifically in the following:

Post-retirement benefits

The Company operates a defined benefit pension plan that is now closed to future service accruals. The scheme is generally funded by the Company taking account of the recommendations of an independent qualified actuary.

A defined benefit plan is a pension plan that defines an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors like age, years of service and compensation. The pension costs are assessed using the projected unit credit method. Under this method the costs of providing pensions are charged to the profit or loss account so as to spread the regular costs over the service lives of employees in accordance with the advice of the qualified actuary, who values the plans annually. The pension obligation is measured at the present value of the estimated future net cash flows and is stated net of plan assets.

The pension scheme surplus (to the extent that it is recoverable) or deficit is recognised in full. The movement in the scheme surplus/deficit is split between operating charges, finance items and, in the statement of income and retained earnings, actuarial gains and losses.

Significant accounting policies

(1) Turnover

Turnover represents agency fees and profit commission derived from underwriting names at Lloyd's.

Agency fees represent net retained fees in respect of the 2021 underwriting account.

Profit commission, which is recognised as profit, is commission on profit earned in syndicate 623.

(2) Taxation

Taxation expense for the period comprises current and deferred tax recognised in the reporting period. Tax is recognised in the profit and loss account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity, in which case tax is also recognised in those locations.

Current tax

Current tax is the amount of income tax payable in respect of the taxable profit for the year or prior years. Tax is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the period end.

Deferred tax

Deferred tax arises from timing differences that are differences between taxable profits and total comprehensive income as stated in the financial statements. Deferred tax is recognised on all timing differences at the reporting date. Deferred tax assets are recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the period end and that are expected to apply to the reversal of the timing difference.

(3) Cash

Cash consists of cash at bank and in hand.

(4) Other debtors

Other debtors principally consist of intercompany debtor balances and sundry debtors and are carried at amortised cost less any impairment losses.

(5) Other creditors

Other creditors are stated at amortised cost determined on the effective interest rate method.

(6) Foreign currencies

Transactions in foreign currencies are translated to the company's functional currency at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are retranslated to the functional currency at foreign exchange rates ruling at the dates the fair value was determined. Foreign exchange differences arising on translation are recognised in the profit and loss account.

Significant accounting policies (continued)

(7) Dividends

Dividends unpaid at the balance sheet date are only recognised as a liability at that date to the extent that they are appropriately authorised and are no longer at the discretion of the company. Unpaid dividends that do not meet these criteria are not recognised in the financial statements but are disclosed in the notes to the financial statements.

2. Turnover and other operating income

	2021 £m	2020 £m
Underwriting agency fees	20.1	14.5
	20.1	14.5

Turnover and profit before taxation arise in the United Kingdom, from business underwritten at Lloyd's on behalf of names resident in the United Kingdom and overseas.

Other operating income of £197.5m (2020: £155.3m) represents charges to managed syndicates (623/2623/3622/3623). All charges to the syndicates other than those directly charged by Lloyd's to the syndicates are now paid by Beazley Management Limited and are then charged through Beazley Furlonge Limited to the relevant syndicate. The financial statements on pages 18 to 20 provide for these charges gross, as income and expense.

3. Directors and employees

The directors and employees rendering services to the Company are paid for those services through Beazley Management Limited. The charges in relation to the services provided by directors and employees are subsequently recharged through Beazley Furlonge Limited to the managed syndicates. Remuneration paid to directors of Beazley Furlonge Limited specifically relating to services rendered to the Company are shown below.

	2021 £	2020 £
G P Blunden N H Furlonge K W Wilkins R A Stuchbery D L Roberts A J Reizenstein C LaSala N Wall L Santori	64,000 59,000 59,000 28,800 52,850 19,000 19,000 54,083 49,167	64,000 59,000 59,000 28,800 52,850 19,000 14,201
	404,900	296,851

Further details of the remuneration paid to directors and employees for their services to the Group are shown in the ultimate parent undertaking's accounts, Beazley plc, which can be found at www.beazley.com.

4. Administrative expenses

	2021 £m	2020 £m
Recharged from Beazley Management Limited	199.9	157.1
Administrative expenses	199.9	157.1

The main driver of the increase in administrative expenses is an increase in incentive costs driven by the increase in the profit of Beazley plc in 2021.

The audit fee in the current financial year was £24,000 (2020: £24,000) and was paid by Beazley Management Limited.

Amounts receivable by the Company's auditor and its associates in respect of services to the Company and its associates, other than the audit of the Company's financial statements, have not been disclosed as the information is required instead to be disclosed on a consolidated basis in the consolidated financial statements of the Company's ultimate parent, Beazley plc.

All staff are employed and paid by Beazley Management Limited. The executive directors of the Company are paid by Beazley Management Limited in relation to their directorships of this Company

5. Income tax expense

	2021 £m	2020 £m
Current tax UK corporation tax charge at 19.0% (2020: 19.0%) Adjustment in respect of prior year	3.3	2.3 0.1
Deferred tax: Origination of and reversal of timing differences Effect of change in tax rate	0.2	(0.1)
Taxation charge for the year	3.5	2.4

The tax charge for the current year is equal to (2020: higher than) the standard rate of corporation tax in the UK of 19.0% (2020: 19.0%) due to the differences explained below

	2021 £m	2020 £m
Profit on ordinary activities before taxation Tax calculated at 19% (2020: 19.0%)	18.7 3.5	11.6 2.2
Effect of; Adjustment in respect of prior year Effect of change in tax rate	<u>-</u>	0.1 0.1
Tax charge for the year	3.5	2.4

Income tax expense (continued)

The Finance Act 2021, which provides for an increase in the UK corporation tax rate from 19% to 25% effective from 1 April 2023 received Royal Assent on 10 June 2021. This tax rate change to 25% will increase the company's future current tax charge. It has also been reflected in the calculation of the deferred tax balances as at 31 December 2021.

The timing of the unwind of the deferred tax liabilities in respect of the defined benefits pension scheme cannot be predicted.

6. **Debtors**

	2021 £m	2020 £m
Amounts due from Group companies	2.1	1.3
Amounts due from syndicates	49.9	17.2
Profit commission receivable	2.7	-
Managing agent fee receivable	44.3	39.5
	99.0	58.0

The managing agent fee receivable for both the 2020YOA and 2021YOA are due after more than one year. The remainder of the Company's debtors are due within one year.

7. Creditors

	2021 £m	2020 £m
Amounts due to other Group companies Amounts due to coverholders	71.2	28.8 1.9
Current tax payable	1.6	2.3
	72.8	33.0

Amounts due to coverholders are funds due to 3rd party coverholders that have premiums internally brokered by the Company. All amounts are payable within one year.

8. **Deferred tax**

	2021 £m	2020 £m
The movement in deferred tax during the year was:		
Opening balance	(0.7)	(0.7)
Movements during the year	(1.9)	-
Effect of change in tax rate	(0.8)	-
Closing (liability)	(3.4)	(0.7)
Deferred tax (liabilities)/assets provided in the accounts	are:	
Defined benefit pension scheme	(3.4)	(0.7)

9. Share capital

	2021		2020		
	No. of shares (m)	£m	No. of shares (m)	£m	
Ordinary shares of £1 each Issued and fully paid	0.4	0.4	0.4	0.4	
Balance at 1 January and 31 December	0.4	0.4	0.4	0.4	

10. Retirement benefit obligations

·	2021 £m	2020 £m	2019 £m	2018 £m	2017 £m
Present value of funded obligations	43.0	47.5	41.5	36.8	41.9
Fair value of plan assets	56.7	51.0	45.6	34.9	40.2
Experience (losses)/gains on scheme liabilities	0.8	(0.9)	(0.1)	(0.5)	1.3

Beazley Furlonge Limited operates a defined benefit pension scheme ('the Beazley Furlonge Limited Pension Scheme') which closed to new members in January 2002. The scheme provides benefits based on final pensionable pay, with contributions being charged to the profit or loss account so as to spread the cost of pensions over employees' working lives with the Company. No additional years of service can be accrued for those members still employed by the Company. Contributions are determined by a qualified independent actuary using the projected unit credit method and the most recent valuation was at 31 December 2021.

The major assumptions used in this valuation were:

	2021	2020
Future salary increases	3.8%	3.3%
Future pensions increases	1.9%	2.9%
Discount rate	1.9%	1.3%
Inflation rate	3.8%	3.3%
Life expectancy for male members		
aged 60 at 31 December	90 years	89 years
Life expectancy for female members	·	·
aged 60 at 31 December	91 years	91 years

The assumptions used by the actuary are chosen from the range of possible actuarial assumptions which, due to the timescale covered, may not necessarily be borne out in practice.

10. Retirement benefit obligations (continued)

Plan assets

The fair value of plan assets, which are not intended to be realised in the short term and may be subject to significant change in fair value before they are realised, and the present value of funded obligations, which are derived from cash flow projections over long periods and thus inherently uncertain, were:

	2021 £m	2020 £m
Equities ·	-	50.9
Bonds	2.5	_
UCITS funds	52.9	-
Cash	1.3	0.1
	56.7	51.0
Fair value of plan assets	56.7	51.0
Present value of funded obligations	(43.0)	(47.5)
Net pension asset	13.7	3.5

The expected rate of return on scheme assets (including bonds, equities and UCITS funds) was 1.9% at 31 December 2021 (31 December 2020: 1.3%). This expected return on scheme assets reflects the discount rate.

Movement in defined benefit obligation

	2021 £m	2020 £m
Balance at beginning of year	47.5	41.5
Interest cost	0.5	0.8
Actuarial (gain)/loss	(3.0)	6.2
Benefits paid	(2.1)	(1.1)
Balance at the end of year	43.0	47.5

Movement in fair value of plan assets

·	2021 £m	2020 £m
