Notes to the Abbreviated Accounts for the year ended 31 December 2014

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Exemption from preparing a cash flow statement

Exemption has been taken from preparing a cash flow statement on the grounds that the company qualifies as a small company.

Turnover

Turnover represents rents and service charges due in the year, excluding value added tax.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery

- 15% on reducing balance

Computer equipment

- 33% on cost

Investment property

In accordance with Statement of Standard Accounting Practice No. 19, certain of the company's properties are held for long-term investment and are included in the Balance Sheet at their open market values. The surplus or deficit on revaluation of such properties are transferred to the investment property revaluation reserve. Depreciation is not provided in respect of freehold investment properties. This policy represents a departure from the requirements of the Companies Act, which requires depreciation to be provided on all fixed assets. The directors consider that this policy is necessary in order that the Financial Statements may give a true and fair view because current values and changes in current values are of prime importance rather than the calculation of systematic annual depreciation. Depreciation is only one of many factors reflected in the valuation and the amount which might otherwise have been shown cannot be separately identified or quantified.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where material.

Investments

Listed investments are included in the accounts at their market value at the balance sheet date. Dividends are credited to the profit and loss account when received.
