1 Accounting Policies

Basis of accounting

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Going Concern

The financial statements have been prepared on a going concern basis. The company's ongoing activities are dependent upon the continued support of the directors who have undertaken to provide such support for the foreseeable future.

If the going concern basis were not appropriate, adjustments would have to be made to reduce the value of assets to their recoverable amount, to provide for any further liabilities that may arise and to reclassify fixed assets as current assets and long term liabilities as current liabilities

Turnover

Turnover comprises the invoiced value of goods and services supplied by the company, net of Value Added Tax and trade discounts

Operating lease rentals

Rentals payable under operating leases are charged against income on a straight line basis over the lease term

Website Cost

Planning and operating costs for the company's website are charged to the profit and loss account as incurred

Dividends

Proposed dividends are only included as liabilities in the financial statements when their payment has been approved by the shareholders prior to the balance sheet date

Tangible fixed assets

Tangible fixed assets, other than freehold land, are stated at cost or valuation less depreciation and any provision for impairment. Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following basis.

Plant and Machinery	20 Straight line
Computer Equipment	20 Straight line
Motor Vehicles	20 Straight line
Fixtures and Fittings	20 Straight line

Preference shares

The company's preference shares are treated as a financial liability since they are subject to mandatory redemption for a fixed or determinable amount at a fixed or determinable time and are thus included in creditors in the financial statements rather than as part of the company's issued share capital.
