Accordingly, the financial statements have been prepared on a going concern basis.

Principal risks and uncertainties

The Directors consider the principal risks and uncertainties facing the Company to be equivalent to those facing the Group, as outlined within the Directors' report accompanying those consolidated financial statements, which are publicly available as disclosed in note 8.

Credit risk is managed by the confirmation from the Directors of TW plc that it will provide the necessary financial support to the Company. The Directors consider that TW plc have adequate resources in order to financially support the Company if required.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

1. Accounting policies

General information and basis of preparation

The following accounting policies have been used consistently throughout the current and prior year.

McLean TW Limited is a private company incorporated and domiciled in the United Kingdom. The Company is limited by shares. The Company is registered in England and Wales.

The financial statements have been prepared under the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for the goods and services. The financial statements have been prepared in accordance with the Companies Act 2006 and Financial Reporting Standard 101 "FRS 101", "Reduced Disclosure Framework". The financial statements are prepared in pounds sterling, which is the functional currency of the Company and rounded to the nearest thousand.

The financial statements contain information about McLean TW Limited as an individual company. The Company is exempt under section 400 of the Companies Act 2006 from the requirement to prepare consolidated financial statements as it and its subsidiary undertakings are included in the consolidated financial statements of its ultimate parent undertaking, Taylor Wimpey plc, a company registered in England and Wales. The Group financial statements of TW plc are available to the public and can be obtained as set out in note 8.

The preparation of financial statements in compliance with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 2.

Going concern

The Company is reliant on its ultimate parent company TW plc to support the recoverability of its investments and intercompany receivables. As at 31 December 2020 the Company is in a net current asset position and requires support from Taylor Wimpey plc to fund its own operations and working capital requirements as they fall due.

The Directors of the Company have confirmed with Taylor Wimpey plc that it will continue to provide the necessary financial support to the Company for a period of at least 12 months from the date of approval of these financial statements. Taylor Wimpey plc is the ultimate parent of the Taylor Wimpey group ("the Group"). The Group is profitable and has a strong balance sheet.

The Directors of the Company are of the view, at the time of approving the financial statements, that there is a reasonable expectation the Company will be able to remain in existence for a period of at least 12 months from the date of approval of these financial statements. Accordingly, the financial statements have been prepared on a going concern basis.

Disclosure exemptions

As permitted by FRS 101 as a qualifying entity, the Company has taken advantage of the disclosure exemptions available under that standard in relation to share based payments, financial instruments, capital management, presentation of comparative information in respect of certain assets, presentation of a cash flow statement, standards not yet effective, impairment of assets and related party transactions.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020 (continued)

1. Accounting policies (continued)

Adoption of new and revised standards of interpretation

The Company has adopted the following standards and amendments in the year, none of which had a material impact on the financial statements.

- IFRS 3 ‘Business Combinations’ (amendments) – definition of a business;
- Amendments to References to the Conceptual Framework in IFRS Standards;
- IAS 1 ‘Presentation of Financial Statements’ and IAS 8 ‘Accounting Policies, Changes in Accounting Estimates and Errors’ (amendments) – definition of material; and
- IFRS 9, IAS 39 and IFRS 7 (amendments) – interest rate benchmark reform.

Investments in subsidiary undertakings

Investments are included in the balance sheet at cost less any provision for impairment. The Company assesses investments for impairment whenever events or changes in circumstances indicate that the carrying value of an investment may not be recoverable. If any such indication of impairment exists, the Company makes an estimate of the recoverable amount of the investment. If the recoverable amount of an investment is less than the value of the investment, the investment is considered impaired and is written down to its recoverable amount. An impairment loss is expensed immediately. Where an impairment loss subsequently reverses, due to a change in circumstances or in the estimates used to determine the asset's recoverable amount, the carrying amount of the investments is increased to the revised estimate of its recoverable amount, so long as it does not exceed the original carrying value prior to the impairment being recognised.

The Company values its investments in subsidiary holding companies based on a comparison between the net assets recoverable by the subsidiary company and the investments held. Where the net assets are lower than the investment an impairment is recorded. For trading subsidiaries, the investment carrying value in the Company is assessed against the net present value of the cash flows for the subsidiary.

Financial instruments

Financial assets and liabilities are recognised in the Company's Statement of Financial Position when the Company becomes a party to the contractual provisions of the instrument. The below financial instruments are measured at amortised cost.

Group receivables

Amounts receivable from Group undertakings are stated at their nominal value.

Group payables

Amounts payable to Group undertakings are stated at their nominal value.

2. Key sources of estimation uncertainty and critical accounting judgements

Preparation of the financial statements requires management to make significant judgements and estimates. Management consider that there are no material areas of estimation uncertainty or critical accounting judgements to be made in the preparation of these financial statements.
