NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 29TH FEBRUARY 2008

1 ACCOUNTING POLICIES

1.1 Basis of preparation of accounts

The financial statements are prepared under the historical cost convention in accordance with the Financial Reporting standards for Smaller Entities (effective January 2007) and include the results of the company's operations which are described in the director's report and all of which are continuing.

The company has taken advantage of the exemption in Financial Reporting Standard No.1 from the requirement to produce a cashflow statement on the grounds that it is a small company.

1.2 Turnover

Turnover comprises the invoiced value of goods and services supplied by the company, net of Value added Tax and trade discounts.

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:-

Plant & Machinery	25%	reducing balance
Motor Vehicle	25%	reducing balance

1.4 Leasing and hire purchase

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible fixed assets and depreciated over the shorter of the lease term and their useful lives. Finance leases are those where substantially all of the benefits and risks of ownership are assumed by the company. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss accounts so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

1.5 Operating leases

Rental applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged to profit and loss account as incurred.

1.7 **Research and development**

Expenditure on research and development is written off in the year that it is incurred

1.8 **Deferred Taxation**

Provision is made for taxation deferred as a result of material timing differences between the incidence of income and expenditure for taxation and accounts purposes, using the liability method, only to the extent that, in the opinion of directors there is reasonable probability that a liability or asset will crystallise in the near future.
