Risk Mitigation

The board has examined the principal areas of the Charity's operations and considered the major risks which may arise in each of these areas. Restricted funds (continued)

Projects financed by restricted funds are supported by unrestricted funding where necessary. This occurs where the funding is in arrears or the incidence of expenditure on the project occurs disproportionately at the beginning of the project compared to the income flows. Where restricted projects end the year with a deficit, this is met by after year-end restricted income or transfers from unrestricted funds.
