PERIGORDEAN LIMITED**NOTES TO THE ACCOUNTS****FOR THE YEAR ENDED 31ST MARCH, 2013****I Accounting Policies****a) Basis of Accounting**

The Financial Statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (Effective April 2008)

b) Turnover

Turnover represents the invoiced value of sales wholly derived within the European Union

c) Investment Property

The property is included in the balance sheet at cost. Surpluses or deficits on revaluation of the property are taken to the statement of total recognized gains and losses.

This represents a departure from SSAP 19 'Accounting for Investment Properties', which requires investment properties to be included in the balance sheet at their open market value. In the opinion of the director this is necessary for the Financial Statements to show a true and fair view. In the opinion of the director the value of the property is not materially different to the cost shown above, and the costs of a valuation would far exceed the significance of its value in the Financial Statements, and to the members of the company.

d) Foreign Currency Translation

The investment property is translated into Pounds Sterling using the rate of exchange ruling at the date of acquisition. Monetary assets and liabilities denominated in foreign currencies are translated into Pounds Sterling at the rate of exchange ruling at the balance sheet date. Income received and expenditure incurred in foreign currencies is translated into Pounds Sterling at the rate of exchange ruling on the date the transaction took place.

PERIGORDEAN LIMITED

NOTES TO THE ACCOUNTS

FOR THE YEAR ENDED 31ST MARCH, 2013

d) Foreign Currency Translation (continued)

Any gain or loss arising from a change in exchange rates subsequent to the date of the transaction is included as an exchange gain or loss in the profit and loss account

e) Taxation and deferred taxation

Corporation tax is provided on taxable profits at the current rate

Provision is made at current rates for taxation deferred in respect of all materials timing differences except to the extent that, in the opinion of the director, there is reasonable probability that the liability will not arise in the foreseeable future

2. Taxation

The tax relief available in respect of accumulated losses is carried forward and available to reduce the tax liability in respect of future profits

A future tax charge may arise as a result of the writing back of the deficit on the freehold property revaluation reserve in the previous year
