Stratfieldsaye Management Limited

Report of the Directors for the period 1st January 2005 – 31st December 2005

As in past years your company has not traded during this accounting period. The company has certain potential obligations under leases of flats at 26 Guildown Road, Guildford Surrey. The company has never been called upon to perform those obligations as the subject matter of them has been performed informally by the residents of the flats. In the event that performance is required the company has the right to call upon the residents to defray the costs involved. The company needs to remain in being because of covenants contained in the leases of the flats relating to those potential obligations.

The debit balance shown on the company's accounts is believed to relate to formation and similar expenses incurred in the mid-1980's by the developers at 26 Guildown Road before the flats were sold to the original lessees. It is understood that a part of the contractual arrangements made at that time was that the ownership of the company would be handed over to the lessees once all the flats were sold and that the developers would have no claim for reimbursement of past expenses. It is therefore anticipated that the company is unlikely now to have any liability to pay to any person the debit balance of £-1,726.00 shown on the balance sheet.
