## **Directors' report**

For the year ended 31 March 2004

The directors present their annual report together with the financial statements and auditors' report for the year ended 31 March 2004.

### **Principal activity and review of business developments**

The group's principal activity continues to be the distribution and marketing of petroleum products. In the year ended 31 March 2005 the Group disposed of one of its principal subsidiaries, Kuwait Petroleum (G.B.) Limited (see note 25) and therefore the level of activity is expected to decrease in the forthcoming year.

The subsidiary and associated undertakings principally affecting the profits or net assets of the group in the year are listed in note 10 to the financial statements.

The group incurs expenditure on research and development of advanced fuels and lubricants for improved environmental and performance purposes. This expenditure is written off as incurred.

### **Results and dividends**

The group's profit for the financial year after taxation and minority interests amounted to £1,329,000 (2003 – £44,104,000 loss).

The directors do not recommend the payment of a dividend (2003 – £nil).

### **Disabled employees**

The group gives every consideration to applications for employment from disabled persons where the requirements of a job may be adequately covered by a handicapped or disabled person. In the event of members of staff becoming disabled, every effort is made to ensure that their employment with the group continues and that appropriate training is arranged. It is the policy of the group that the training, career development and promotion of disabled persons should, as far as possible, be identical with that of other employees.

### **Employee involvement**

During the year the policy of providing employees with information about the group has continued. Local management of operating units regularly consults with employees to enhance their understanding of the business and gain their involvement in the success of the group.

### **Political and charitable contributions**

During the year the group made charitable contributions totalling £532 (2003 – £7,402). There were no political contributions in either the current or prior year.

### **Supplier payment policy**

The company's policy, which is also applied to the group, is to settle terms of payment with suppliers when agreeing the terms of each transaction, ensure that suppliers are made aware of the terms of payment and abide by the terms of payment. Trade creditors of the group at 31 March 2004 were equivalent to 26 (2003 – 25) days' purchases, based on the average daily amount invoiced by suppliers during the year. It is not considered meaningful to disclose a number in respect of the parent company, as this company does not trade.

## Directors' report (continued)

### Directors and their interests

The directors who served throughout the year and subsequently were as follows:

J.R. Howells (resigned 30<sup>th</sup> June 2005)  
S. Whitworth (appointed 30<sup>th</sup> June 2005)  
J. Al-Nouri (resigned 30<sup>th</sup> September 2004)  
A. Al-Houti (appointed 30<sup>th</sup> September 2004)  
A.I. Behbehani

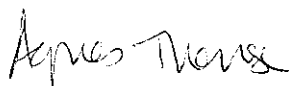

No director held any disclosable interest in the share capital of the company or any other group undertaking during the year or at the date of this report.

### Auditors

On 1 August 2003, Deloitte & Touche transferred their business to Deloitte & Touche LLP, a limited liability partnership incorporated under the Limited Liability Partnerships Act 2000. The company's consent has been given to treating the appointment of Deloitte & Touche as extending to Deloitte & Touche LLP with effect from 1 August 2003 under the provisions of section 26(5) of the Companies Act 1989. A resolution to re-appoint Deloitte & Touche LLP as the company and group's auditor will be proposed at the forthcoming Annual General Meeting.

## Statement of directors' responsibilities

United Kingdom company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and group as at the end of the financial year and of the profit or loss of the group for that year.

In preparing those financial statements, the directors are required to:

- select suitable accounting policies and apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and group and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for the system of internal control, for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

## Independent auditors' report

### **To the Members of Kuwait Petroleum (U.K. Holdings) Limited**

We have audited the financial statements of Kuwait Petroleum (U.K. Holdings) Limited for the year ended 31 March 2004 which comprise the consolidated profit and loss account, the consolidated statement of total recognised gains and losses, the consolidated balance sheet, the company balance sheet and the related notes numbered 1 to 25. These financial statements have been prepared under the accounting policies set out therein.

This report is made solely to the company's members, as a body, in accordance with section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

### **Respective responsibilities of directors and auditors**

As described in the statement of directors' responsibilities, the company's directors are responsible for the preparation of the financial statements in accordance with applicable United Kingdom law and accounting standards. Our responsibility is to audit the financial statements in accordance with relevant United Kingdom legal and regulatory requirements and auditing standards.

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Act 1985. We also report if, in our opinion, the directors' report is not consistent with the financial statements, if the company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding directors' remuneration and transactions with the company and other members of the group is not disclosed.

We read the directors' report for the above year and consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements.

### **Basis of audit opinion**

We conducted our audit in accordance with United Kingdom auditing standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements and of whether the accounting policies are appropriate to the circumstances of the company and the group, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion, we also evaluated the overall adequacy of the presentation of information in the financial statements.

## Independent auditors' report (continued)

### Opinion

In our opinion the financial statements give a true and fair view of the state of affairs of the company and the group as at 31 March 2004 and of the profit of the group for the year then ended and have been properly prepared in accordance with the Companies Act 1985.

## Notes to financial statements

### 1 Accounting policies

A summary of the group's principal accounting policies, all of which have been applied consistently throughout the current and preceding year is set out below.

#### *a) Basis of accounting*

These financial statements have been prepared under the historical cost convention and in accordance with applicable United Kingdom law and accounting standards.

#### *b) Basis of consolidation*

The group financial statements consolidate the accounts of Kuwait Petroleum (U.K. Holdings) Limited ('the company') and its subsidiary undertakings drawn up to 31 March 2004. Details of the principal subsidiary undertakings included in the consolidation are set out in note 10. Unless otherwise stated, the acquisition method of accounting has been adopted. Under this method, the results of subsidiary undertakings acquired or disposed of during the period are included in the consolidated profit and loss account from or to the date on which control passed.

No profit and loss account is presented for Kuwait Petroleum (U.K. Holdings) Limited as provided by s230 of the Companies Act 1985. The company's results for the period are shown in note 17.

#### *c) Cash flow statement*

Under the provisions of Financial Reporting Standard No.1 (Revised), the group has not prepared a cash flow statement because its ultimate parent company, which is incorporated in Kuwait, prepares accounts which consolidate those of the group and are publicly available (see note 23).

#### *d) Tangible fixed assets*

Tangible fixed assets are shown at original historical cost less any provision for impairment. No provision is made for depreciation of freehold land. Other fixed assets in use are depreciated on a straight-line basis at rates designed to write off costs, less residual values, over their estimated useful lives, having regard to the applicable operating circumstances and locations of the assets, as follows:

|                                |   |
|--------------------------------|---|
| Freehold buildings             | up to 40 years                          |
| Leasehold land and buildings   | over the unexpired portion of the lease |
| Plant, machinery and equipment | up to 20 years                          |
| Motor vehicles                 | from 3 to 5 years                       |

#### *e) Fixed asset investments*

Fixed asset investments are shown at cost less provision for impairment. Investment income is recognised when receivable.

## Notes to financial statements (continued)

### 1 Accounting policies (continued)

#### *f) Investments in joint ventures*

Investments in joint ventures represent the cost incurred by a subsidiary undertaking of acquiring capital interests in several joint ventures, both incorporated and unincorporated, plus that undertaking's share of subsequent capital additions, less any provision for impairment. The cost of each unincorporated joint venture is amortised over the remaining life of the lease of the land on which the related assets are sited or the unexpired period of the licence, whichever is applicable.

The group has certain contractual arrangements with other participants to engage in joint activities that do not create an entity carrying on a trade or business of its own. The group includes its share of assets, liabilities and cash flows in such joint arrangements, measured in accordance with the terms of each agreement.

#### *g) Goodwill*

Goodwill arising on the acquisition of subsidiary undertakings, representing any excess of the fair value of the consideration given over the fair value of the identifiable assets and liabilities acquired, is capitalised and amortised in equal instalments over the shorter of its estimated useful economic life, as determined by the directors, and fifteen years. Provisions are made for impairment.

#### *h) Research and development*

Research and development expenditure is written off as incurred.

#### *i) Stocks*

Refined petroleum products, including exchange balances in respect of stocks loaned to or from other oil companies, are valued at the lower of average cost and net realisable value. Materials and supplies are valued at selling price less gross margin.

#### *j) Foreign currencies*

Transactions denominated in foreign currencies are translated at the average exchange rate for the month in which the transaction occurred. Monetary assets and liabilities denominated in foreign currencies are translated at rates of exchange prevailing at the period end. All forward foreign exchange contracts (except those which are used for hedging purposes) which are open at period end are re-valued at rates of exchange prevailing at the period end. Gains and losses arising from the use of hedging instruments are recorded in the profit and loss account concurrently with gains and losses arising from the underlying hedged investments. All exchange differences are taken to the profit and loss account.

The profit and loss account includes unrealised gains and losses on forward foreign exchange contracts, as described above. The directors consider that this accounting policy, which represents a departure from the Companies Act 1985 where such items are not recognised until they crystallise, is necessary to provide a true and fair view as required under SSAP 20. The financial effect of the departure from the Companies Act 1985 is shown in note 20 to the financial statements.

For the purposes of consolidation, the closing rate method is used under which translation gains or losses are shown as a movement on reserves. The profit and loss accounts of subsidiary undertakings with financial statements denominated in currencies other than pounds sterling are translated at the average exchange rate for the period.

## Notes to financial statements (continued)

### 1 Accounting policies (continued)

#### *k) Taxation*

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantially enacted by the balance sheet date. Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the group's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains or losses in tax assessments in periods different from those in which they are recognised in the financial statements.

A net deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of underlying timing differences can be deducted.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

#### *l) Pension costs*

For defined benefit schemes, the amount charged to the profit and loss account is the estimated regular cost of providing the benefits accrued in the year, adjusted to reflect variations from that cost. The regular cost is calculated so that it represents a substantially level percentage of current and future pensionable payroll. Variations from regular cost are charged to the profit and loss account over the estimated average remaining working life of the scheme members. Any differences between the charge to the profit and loss account and the contributions paid to the scheme are shown as an asset or liability in the balance sheet.

For defined contribution schemes, the amount charged to the profit and loss account is the contributions payable in the year.

#### *m) Leases*

The group enters into finance and operating leases as detailed in notes 13 and 21 respectively.

Assets held under finance leases are initially reported at the fair value of the assets and are capitalised in the balance sheet and depreciated over the shorter of the lease term and their useful lives. An equivalent liability, categorised as appropriate under creditors due within or after one year, is included in the balance sheet. The interest element of the rental obligations is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding.

Hire purchase transactions are dealt with similarly, except that assets are depreciated over their useful lives.

Rentals paid under operating leases are expensed on a straight line basis over the lease term, even if the payments are not made on the same basis.

## Notes to financial statements (continued)

### 2 Turnover

Turnover primarily represents amounts receivable (exclusive of VAT, excise duty and similar levies) in respect of goods and services provided in the normal course of business.

#### *Geographic distribution*

Turnover, all of which originated in the United Kingdom, was contributed as follows:

|                  | 2004<br>£'000  | 2003<br>£'000  |

The movement in the deferred tax asset during the year has been taken to the profit and loss account (see note 7).  
The balance at the end of the year represents excess depreciation over capital allowances.

An additional deferred tax asset amounting to £9,701,000 (2003 - £11,968,000) relating principally to brought forward losses within subsidiaries has not been recognised because, in the opinion of the directors, there will be no suitable taxable profits available in the foreseeable future against which these can be offset.

The long-term prepayment shown above relates to certain prepaid distribution costs which will be recovered over the 15 year life of the related contractual agreement.

- The provision for the incentive scheme is in respect of certain commitments entered into by 31 March 2004 by Kuwait Petroleum (G.B.) Limited but which related to services to be performed in the year ended 31 March 2005. Kuwait Petroleum (G.B.) Limited was disposed of in September 2004 (see note 25).
- The provision for redundancy is in respect of a redundancy programme commenced in Kuwait Petroleum (GB) Limited in 2003 and which was, prior to the disposal of this entity in September 2004, expected to be fully utilised by 31 March 2005.
- The provisions for onerous leases and other onerous contracts will be utilised over the period of those contracts, which exceed one year, or to cover the costs of their early termination.

No charge for unwinding the discount in respect of the provisions at 1 April 2003 has been included as the amounts involved are not material.

### 22 Pensions

The group headed by the company operates both a funded defined benefit pension scheme and a defined contribution pension scheme in the UK, the assets of which are held in separate trustee administered funds. The related costs are assessed in accordance with the advice of professionally qualified actuaries using the project unit method and assumptions set out below. The total pension cost for the group was £1,699,000 (2003 - £1,683,000), of which £1,088,000 (2003 - £1,189,000) relates to the defined benefit scheme.

The most recent formal actuarial valuation of the defined benefit scheme for SSAP24 purposes took place on 1 July 2003.

The assumptions which have the most significant effect on the results of the valuation are those relating to the rate of return on investments and the rates of increases in salaries. It was assumed for the valuation that the investment return would average 7.5% per annum for equities and 5.5% per annum for bonds, that salary increases would average 4.5% per annum, and that the plan assets were taken at their market value. At the date of the valuation, the total market value of the assets of the scheme was £28.7million, and the market value of the assets was sufficient overall to cover approximately 76% of the benefits that had accrued to members at that date, after allowing for assumed future increases in earnings. The Company has agreed to eliminate the deficit by August 2006.

Additional disclosures regarding the group's defined benefit pension scheme are required under the transitional provisions of FRS 17 "Retirement benefits" and these are set out below. The disclosures relate to the third year of the transitional provisions. They provide information which will be necessary for full implementation of FRS 17 in the year ending 31 March 2006.

The actuarial valuation described above has been updated at 31 March 2004 by a qualified actuary using revised assumptions that are consistent with the requirements of FRS 17. Investments have been valued, for this purpose, at fair value.

### 22 Pensions (continued)

The major assumptions used for the actuarial valuation were:

|   | 31 March 2004 | 31 March 2003 | 31 March 2002 |
|---|---------------|---------------|---------------|
|   | %             | %             | %             |
| Rate of increase in salaries            | 4.50          | 4.50          | 5.00          |
| Rate of increase in pensions in payment | 2.75          | 2.25          | 2.25          |
| Discount rate                           | 5.50          | 5.40          | 6.00          |

| Total fair value of assets          |           | 32,074        |           | 25,780        |           | 30,703        |
| Present value of scheme liabilities |           | (52,117)      |           | (41,623)      |           | (35,318)      |
| Deficit in the scheme               |           | (20,043)      |           | (15,843)      |           | (4,615)       |

The group paid contributions at the rate of 13.3% of pensionable salaries during the year. The members contributed to the scheme at the rate of 3.5% of pensionable salary. It has been agreed that the group and the members will continue to contribute at the above rates until the future funding of the Scheme has been agreed.

### 23 Controlling party

The ultimate parent company, controlling party and the parent of the largest group of undertakings for which group accounts are drawn up, and of which the group is a member, is Kuwait Petroleum Corporation, incorporated in Kuwait. Copies of the consolidated accounts of Kuwait Petroleum Corporation may be obtained from Kuwait Petroleum Corporation, P.O. Box 26565, Safat, Kuwait.

The immediate parent company and parent of the smallest group of undertakings for which group accounts are drawn up, and of which the group is a member, is KPC Holdings (Aruba) A.E.C., incorporated in Aruba. The consolidated accounts of KPC Holdings (Aruba) A.E.C. are not publicly available.

The company's and group's balance sheets show net liability positions at 31 March 2004 and 31 March 2003. The intermediate parent company has confirmed that it will continue to provide financial support to the company and the group to enable them to meet their liabilities as they fall due for the foreseeable future.

### 24 Related parties

The company has taken advantage of the exemption in FRS 8 'Related party disclosures' from disclosing transactions with other wholly-owned members of the group headed by Kuwait Petroleum Corporation.

### 25 Post Balance Sheet Event

The company sold its investment in Kuwait Petroleum (G.B) Ltd. ("KPGB") on 30th September 2004 to a third party. The company also sold a subsidiary of KPGB, The Ross Chemical and Storage Company Limited, to another third party on the same date. Certain components of the business of KPGB were retained within separate legal entities. The consideration received was £52 million. For the year ended 31 March 2004 KPGB contributed £215 million to turnover of the group, £1.9 million to profit before taxation and £34 million to net assets (excluding intra-group balances).
