Strategic Report

Year ended 31 December 2014

Principal activity and business review

The principal activity of the company during the year was, and will continue to be, that of a holding company. The investments of the company are shown in note 7.

The company is a wholly owned subsidiary undertaking of Virgin Media Inc (Virgin Media) which is itself a wholly owned subsidiary of Liberty Global plc (Liberty Global).

The Virgin Media Inc consolidated group (the group) operates under the Virgin Media brand in the United Kingdom (U K).

The group provides digital cable, broadband internet, fixed-line telephony and mobile services in the U K to both residential and business-to-business (B2B) customers. The group is one of the U K's largest providers of residential digital cable, broadband internet and fixed-line telephony services in terms of the number of customers. The group believes its advanced, deep-fibre cable access network enables us to offer faster and higher quality broadband services than our digital subscriber line, or DSL, competitors. As a result, it provides our customers with a leading, next-generation broadband service and one of the most advanced interactive TV services available in the U K market.

The group provides mobile services to our customers using a third-party network through an MVNO arrangement.

In addition, through the Virgin Media Business brand, the group offers a broad portfolio of B2B voice, data, internet, broadband and managed services solutions to small businesses, medium and large enterprises and public sector organisations in the U K.

At 31 December 2014, the group provided services to approximately 5.0 million residential cable customers on its network. The group is also one of the largest mobile virtual network operators by number of customers, providing mobile telephony services to 2.1 million contract mobile customers and 1.0 million prepay mobile customers over third party networks. At 31 December 2014, 84% of residential customers on the group's cable network received multiple services and 66% were "triple-play" customers, receiving broadband internet, digital cable and fixed-line telephony services from the group.

Liberty Global is the largest international cable company with operations in 14 countries. At 31 December 2014, Liberty Global's market-leading triple-play services are provided through next-generation networks and innovative technology platforms that connected 27 million customers subscribing to 56 million television, broadband internet and telephony services. In addition, Liberty Global served 5 million mobile subscribers across nine countries at 31 December 2014.

The directors do not use key performance indicators (KPI's) to assess the performance of the company as its principal activity is that of a holding company.

The company has not received any dividends from its subsidiaries during the period (2013: £nil).

Directors' Responsibilities Statement

Year ended 31 December 2014

The directors are responsible for preparing the Strategic Report, Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that year.

In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

Notes to the Financial Statements

Year ended 31 December 2014

1. Accounting policies

A summary of the principal accounting policies is set out below. All accounting policies have been applied consistently, unless noted below.

Basis of accounting

The financial statements have been prepared under the historical cost convention in accordance with the Companies Act 2006, and applicable UK accounting standards.

Group accounts

The company has taken advantage of the exemption from preparing group accounts afforded by Section 400 of the Companies Act 2006 because it is a wholly owned subsidiary of another company incorporated in the United Kingdom which prepares group accounts (see note 14). These financial statements therefore present information about the company as an individual undertaking and not about its group.

Investments

Investments are recorded at cost, less provision for impairment as appropriate. The company assesses at each reporting date whether there is an indication that an investment may be impaired. If any such indication exists, the company makes an estimate of the investment's recoverable amount. Where the carrying amount of an investment exceeds its recoverable amount, the investment is considered impaired and is written down to its recoverable amount. A previously recognised impairment loss is reversed only if there was an event not foreseen in the original impairment calculations, such as a change in use of the investment or a change in economic conditions. The reversal of impairment loss would be to the extent of the lower of the recoverable amount and the carrying amount that would have been determined had no impairment loss been recognised for the investment in prior years.

Cash flow statement

The company is exempt from publishing a cash flow statement as permitted by FRS 1 "Cash flow statements (revised 1996)", as it is a wholly owned subsidiary of its ultimate parent company.

Deferred tax

Deferred tax is recognised, as appropriate, in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions:

- provision is made for deferred tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold, and

- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Trade and other debtors are stated at their recoverable amount. Provision is made when the amount receivable is not considered recoverable and the amount is fully written off when the probability for recovery of a balance is assessed as being remote.

Future accounting pronouncements

From 1 January 2015 the company will be required to adopt FRS 101 or FRS 102.

The provision for non-recoverability may increase or decrease as a result of that review. Based on the impairment review of inter-company indebtedness as at 31 December 2014, the directors concluded that no change in the provision against amounts due from group undertakings was required (2013 - release of £63,772,000).

Investments are assessed and impairments released due to a change in the economic conditions or in the expected use of the asset in accordance with FRS 11 "Impairment of fixed assets and goodwill". Based on the investment impairment review as at 31 December 2014, the directors concluded that no change in the value of investments was required (2013 - release of £92,000).
