NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2019

1. **STATUTORY INFORMATION**

Andy Powell Commercials Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. **ACCOUNTING POLICIES**

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Turnover

Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

Turnover represents the fair value of goods sold and services provided under contracts with customers to the extent that there is a right to consideration. It is measured at the fair value of the consideration due. Where a service is incomplete at the period end, turnover represents the value of the service provided to that date based on an appropriate proportion of the total expected consideration at completion.

Turnover from the sale of goods is recognised when goods are delivered and legal title has passed.

Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is provided at the following annual rates in order to write off the cost of each asset less its estimated residual value over its estimated useful life, or, if held under a finance lease, over the lease term, whichever is the shorter.

		%
Motor vehicles	Reducing balance basis	10
Plant and equipment	Reducing balance basis	10
Office equipment	Reducing balance basis	10
Hospitality units	Reducing balance basis	10
Computer equipment	Reducing balance basis	10

Stocks

Stocks and work in progress are valued at the lower of cost and estimated selling price less costs to complete and sell, after making due allowance for obsolete and slow moving items.

Work in progress includes all direct expenditure and an appropriate proportion of fixed and variable overheads.

Financial instruments

Financial assets and financial liabilities are recognised on the balance sheet when the entity becomes party to the contractual provisions of the financial instrument.

Debtors and Creditors with no stated interest rate and receivable or payable within one year are recorded at transaction price. Any losses arising from impairment are recognised in the profit and loss account in administrative expenses.

Bank loans are initially recognised at the transaction price including transaction costs. Subsequent to initial recognition, loans are stated at amortised cost using the effective interest rate method, less impairment.

2. ACCOUNTING POLICIES - continued

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Profit and Loss Account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to profit or loss over the relevant period. The capital element of the future payments is treated as a liability.

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

Company as lessor

Rental income from an operating lease is included in turnover and is recognised on a straight-line basis over the period of the lease.

Assets held for operating lease purposes are recorded as fixed assets and depreciated over their useful life.

3. EMPLOYEES AND DIRECTORS

The average number of employees during the year was 4 (2018 - 5) .
