**Notes to the Accounts**  
for the year ended 31 March 2013

**1 Accounting policies**

**Basis of preparation**

The accounts have been prepared under the historical cost convention and in accordance with applicable accounting standards. The director considers that it is inappropriate to adopt, and has not adopted, the going concern basis in preparing these accounts. However, each item of finished goods is unique and, in current markets the director cannot, with reasonable certainty, determine that the net realisable value of each item is greater than its carrying value.

**Tangible fixed assets and depreciation**

Tangible fixed assets are stated at cost less depreciation, which is calculated on a straight line basis over their expected useful lives at the following annual rates:

Fixtures, fittings and equipment	20%
Plant and machinery	10%

**Stocks**

Stock is valued at the lower of cost and net realisable value. The estimated net realisable value of stock that has not been sold within two years of manufacture is reduced thereafter by one third annually. Cost comprises direct materials, direct labour and an appropriate proportion of manufacturing overheads.

**Goodwill**

Purchased goodwill has previously been included in intangible assets and has been amortised over its estimated useful life.

**2 Turnover**

Turnover attributable to geographical markets outside the United Kingdom amounted to nil % (2012: nil %).
