NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2017

1. General information

The Company is a private company limited by shares, incorporated on 21 April 1987 in England under the laws of the United Kingdom. The address of its registered office is 171 Victoria Street, London, SW1E 5NN.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

Information on the impact of first-time adoption of FRS 102 is given in note 9.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies (see note 3).

The following principal accounting policies have been applied:

2.2 Turnover

Turnover represents amounts invoiced to the tenants of Park One Estate, Willoughby Road, Park One Bracknell for the management of the estate services of the property. Turnover is recognised to the extent that recoverable expenses have been incurred. The company is non profit making. A surplus of income over expenditure is treated as service charge paid in advance and deducted from income. A deficit is conversely treated as service charge receivable and is added to income.

2.3 Financial instruments

The Company only enters into basic financial instruments transactions that result in the recognition of financial assets and liabilities such as trade and other accounts receivable and payable and loans to related parties.

Financial assets

Basic financial assets, including debtors and cash at bank and in hand are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

Such assets are subsequently carried at amortised cost using the effective interest method.

At the end of each reporting period financial assets measured at amortised cost are assessed for objective evidence of impairment. If an asset is impaired the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in the Profit or Loss.

Financial liabilities

Basic financial liabilities, including creditors are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

Debt instruments are subsequently carried at amortised cost using the effective interest method.

3. Judgments in applying accounting policies and key sources of estimation uncertainty

In preparing the financial statements, management is required to make estimates and assumptions which affect reported income, expenses, assets, liabilities and disclosure of contingent assets and liabilities.

Use of available information and application of judgment are inherent in the formation of estimates, together with past experience and expectations of future events that are believed to be reasonable under the circumstances. Actual results in the future could differ from such estimates.
