## NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 DECEMBER 2005

### 1 Accounting policies

A summary of the principal accounting policies, all of which have been applied consistently throughout the year and the preceding year, is set out below.

#### 1.1 Accounting convention

The financial statements are prepared under the historical cost convention.

The directors have received assurances from the parent company that it will continue to finance the company to meet its day to day working capital requirements. On this basis the directors consider it appropriate to prepare the financial statements on the going concern basis. The financial statements do not include and adjustments that would result from a withdrawal of the financing by the parent company.

#### 1.2 Turnover

Turnover represents rent receivable from the shopping centre.

#### 1.3 Tangible fixed assets and depreciation

Tangible fixed assets other than freehold land are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Buildings	2% straight line
Office furniture	15% straight line
Fixtures and fittings	12% straight line
Office equipment	18% straight line

#### 1.4 Deferred taxation

Corporation tax payable is provided on taxable profits at the current rates.

Deferred tax is provided in full on all timing differences that result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on the current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations of periods different from those in which they are included in the financial statements. Deferred assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.
