The financial statements have been prepared under the historical cost convention.

Furniture and equipment	- 40% on reducing balance
Motor vehicles	- Straight line over 20 years and Straight line over 5 years

Stocks

Stocks within the Property trade represent properties, interests therein and other items acquired with a view to resale, valued at the lower of direct cost and net realisable value.

The only property held in stock at the end of this period is included at the lower value.

Stocks held within the Old Motor House trade are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow moving items.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.
