Notes forming part of the financial statements for the year ended 31 March 2012

1 Accounting policies

The financial statements have been prepared under the historical cost convention and are in accordance with United Kingdom Generally Accepted Accounting Practice applicable accounting standards

The directors have reviewed the current and projected financial position of the Company, making reasonable assumptions about the future trading performance. After making enquiries, the directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and financial statements.

The following principal accounting policies have been applied

Consolidation

The Company is a wholly owned subsidiary of and is included in the consolidated financial statements of Global Switch Holdings Limited. Consequently, the Company has taken advantage of the exemption from preparing consolidated financial statements. These financial statements therefore present the results of the Company only.

Cash flow statement

The Company has taken advantage of the exemption available to small companies and has not prepared a cash flow statement.

Investments

Investments are held at cost less provision for impairment. Investments are subject to an impairment review when there are indications that the carrying value may not be recoverable. An impairment loss is recognised for the amount by which the asset exceeds its recoverable amount. The recoverable amount is the higher of the fair value less costs to sell and value in use. Interest income from investment is recognised when it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably.

Taxation and deferred taxation

The charge for taxation is based on the results for the period and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Provision is made for deferred tax on all timing differences that have originated but not reversed at the balance sheet date, where an event has occurred that results in an obligation to pay more or less tax in the future, except that deferred tax assets are recognised only to the extent that it is more likely than not that there will be suitable taxable profit from which future reversal of the relevant timing differences can be deducted. Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on an undiscounted basis.

Foreign currencies

Transactions recognised in foreign currencies are recorded at the rates of exchange at the dates of the transactions or, if hedged, at the forward contract rates. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are reported at the rates of exchange prevailing at that date or, if appropriate, at the forward contract rates.

c) Factors that may affect future tax charges

Future tax charges of the Company may be affected by the surrender of tax losses from other UK Group companies

The company has tax periods that remain open and the company is in correspondence with the tax authorities regarding these. In addition, subsequent tax enquiries may arise. In preparing the financial statements the directors have made an assessment of the likelihood of any liabilities arising in relation to these open periods, and have made provisions for amounts that they believe will be payable. There remains a risk that the amounts at which the periods are settled will be different to the amounts included in the financial statements however the directors believe that any differences are unlikely to be material.
