## Notes

*(forming part of the financial statements)*

### 1. Principal accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial information.

#### Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with applicable UK accounting standards.

#### Going concern

The company participates in the Carillion plc group's centralised treasury arrangements and so shares banking arrangements with its parent and fellow subsidiaries. The directors, having assessed the responses of the directors of the company's ultimate parent Carillion plc to their enquiries have no reason to believe that a material uncertainty exists that may cast significant doubt about the ability of the Carillion group to continue as a going concern or its ability to continue with the current banking arrangements. As with any company placing reliance on other group entities for financial support, the directors acknowledge that there can be no certainty that this support will continue, although, at the date of approval of these financial statements, they have no reason to believe that it will not do so.

Based on this undertaking the directors believe that it remains appropriate to prepare the financial statements on a going concern basis. The financial statements do not include any adjustments that would result in the basis of preparation being inappropriate.
