# Strategic report for the financial year ended 31 December 2019

The directors present their Strategic report for the financial year ended 31 December 2019.

#### Fair review of the business

The increase in revenue is a direct result of the increase in the port usage services provided to the company's immediate parent company.

The directors recognise that the evolving business environment in 2020 is challenging. The risk presented by coronavirus is outlined in the Directors' report.

The company is a subsidiary of Hutchison Ports (UK) Limited ("HPUK"). Much of the management of the company is carried out by HPUK on behalf of the wider HPUK group.

#### Principal risks and uncertainties

The principal risks and uncertainties of the company have been addressed in the Directors' report.

#### **Key performance indicators**

The company uses a wide range of performance measures to monitor progress and ensure targets are met. The following is a summary of the key performance indicators for 2019, with historical comparisons:

Core financial measures include revenue (increase in 2019 over 2018), gross profit margin (increase in 2019 over 2018) and operating profit margin (decrease in 2019 over 2018).

#### **Business** environment

UK ports play a vital role in the UK economy. The Department for Transport confirmed that in 2018 UK ports handled over 483 million tonnes of freight. According to a study by the Centre for Economics and Business Research, in 2017 the UK ports sector employed 115,000 people and made a £9.7 billion value-added contribution to UK GDP. Unitised traffic declined by 1% after a 5-year period of growth. On 31 January 2020 the UK officially left the EU, with a transition period in place until 31 December 2020 during which current rules for trade, travel, and business for the UK and EU will continue to apply. Although Brexit continues to create uncertainty in the market, and the wider UK economy, the company is well placed to provide the additional facilities and services that may be required.

The unprecedented impact of the outbreak and rapid spreading of coronavirus across continents will undoubtedly present risks and challenges to the economy. The risk presented by coronavirus is outlined in the Directors' report.

The Government's Maritime 2050 strategy of January 2019 sets out the government's vision and ambitions for the future of the British maritime sector and shares the company's ambition to recognise the UK's strengths and capitalise on them. The company will continue to work with the UK government to ensure it leads in delivering the vision through the promotion of coastal clusters and the creation of a strong business environment for ports to thrive, boosting trade and driving the national economy.

# Strategic report for the financial year ended 31 December 2019

#### Section 172(1) statement

Section 172 of the Companies Act 2006 requires a director of a company to act in the way he or she considers, in good faith, would most likely promote the success of the company for the benefit of its members as a whole. In doing this section 172 requires a director to have regard, amongst other matters, to:

Section 172(1)(a) - the likely consequences of any decision in the long term

In reaching their principal decisions the directors consider the long term impact, for example the need to consider future changes in shipping when redeveloping berths, introducing remote control yard equipment and switching to electric power from diesel;

Section 172(1)(b) - the interests of the company's employees

The directors aim for all operations to be conducted safely, the health and safety of employees being paramount, the interests of employees are also considered when making long term decisions, for example the impact of the introduction of remote control yard equipment;

Section 172(1)(c) - the need to foster the company's business relationships with suppliers, customers and others

The company's management is in constant contact with its customers and decisions around berth redevelopment and remote control yard equipment to meet customer demand. The company then engages widely with suppliers both when tendering for services and during the life cycle of contracts. Additionally, the company also engages with other port users and its local community;

Section 172(1)(d) - the impact of the company's operations on the community and the environment

The company engages with its local and the wider community, the HPUK Environment Committee leads the company's review of its environmental policy, for example discussing and agreeing an air quality strategy to reduce the impact of port operations on its employees and the local community;

Section 172(1)(e) - the desirability of the company maintaining a reputation for high standards of business conduct

The company delegates responsibilities to a number of committees, including the HPUK Environment Committee, Executive Health and Safety Committee and Anti-Bribery and Anti-Corruption Steering Committee, to ensure a high standard of operational conduct; and

Section 172(1)(f) - the need to act fairly as between members of the company

Whilst most companies within the group are wholly-owned subsidiaries the directors are conscious of the need to consider the interests of minority and joint venture partners.

In discharging their section 172 duties the directors have regard to the factors set out above. The directors also have regard to other factors which are considered relevant to the decision being made. Those factors, for example, will include the interests and views of relevant government departments and agencies. The directors acknowledge that every decision will not necessarily result in a positive outcome for all stakeholders. By considering the company's purpose, vision and values together with its strategic priorities and having a process in place for decision-making, the directors do, however, aim to make sure that decisions are consistent and predictable.

As is normal for a company within a large multinational group, authority is delegated for the day-to-day management of the company to executives, who in turn engage management in setting, approving and overseeing execution of the business strategy and related policies.

# Strategic report for the financial year ended 31 December 2019

Approved by the Board on 23 September 2020 and signed by its order:

Mr Simon Richard Mullett

Company secretary

Registered number

2191687

Registered Office Tomline House

The Dock

Felixstowe

Suffolk

**IP113SY** 

# Directors' report for the financial year ended 31 December 2019

The directors submit to the sole shareholder their report and audited financial statements for the financial year ended 31 December 2019.

#### **Principal activities**

The principal activity of the company is the management and operation of London Thamesport and associated services.

#### Company information

Details regarding the company can be found in note 1 to the financial statements. Details regarding parent and ultimate parent entities can be found in note 22 to the financial statements.

#### Results and Dividends

The Income statement is set out on page 10 and shows the profit for the financial year ended 31 December 2019. The directors do not propose a final dividend for the financial year ended 31 December 2019 (2018: £nil).

#### Charitable donations

No charitable donations were made during the financial year (2018: £nil).

# Directors of the company

The following served as directors during the financial year and up to the date of signing of the financial statements:

Ms Edith Shih

Mr Sing Chi Ip

Mr Clemence Chun Fun Cheng

Mr Andrew Steven Lawrence (appointed on 27 December 2019)

Mr Simon Richard Mullett (appointed on 27 December 2019)

Mr Christian Nicolas Roger Salbaing (appointed on 27 December 2019)

# Principal risks and uncertainties

Business risks are considered regularly. Any changes in the business, economy or regulatory environment are monitored and reviewed by management. The key financial risks are set out in note 3 to the financial statements.

Risks identified by the management of the HPUK group include the reliance on a small number of customers for a substantial proportion of business, the impact of technology, cyber-security risks and the impact on the environment of operations. The HPUK group seeks to mitigate these risks by maintaining a broad customer base as a common-user operator, upgrading and developing equipment and systems, and seeking and implementing suitable technology and behaviours.

#### **Coronavirus (COVID-19)**

The directors acknowledge the unprecedented impact of the outbreak and rapid spreading of COVID-19 across continents. This pandemic has created unprecedented risks and challenges to the economy. The trading environment will be tough as a result of this pandemic in addition to the UK leaving the European Union. With these challenges in the current market conditions, the company's operations in the year ahead will undoubtedly be impacted. The company will focus on its key strengths of resilience and financial prudence to minimise the risks and safeguard its assets, and business. Contingency plans have been introduced to ensure business resilience and continuity and plans implemented to minimise the risks to and impacts on employees, customers and port users.

# Directors' report for the financial year ended 31 December 2019

## **Employment of disabled persons**

The company's policy is to give full and fair consideration to any application for employment made by a disabled person, having regard to the applicant's particular aptitudes and abilities and to the essential requirements of the job in question. In the event of an employee being disabled during the period of their employment the company would seek to continue their employment and, if necessary, to provide appropriate training for a more suitable alternative job within the company. The company regards disabled persons as equally eligible with others for training, career development and promotion, subject only to such restriction as the nature of any particular disablement may unavoidably impose.

#### **Employee involvement**

The awareness and involvement of employees in the company's performance is prompted by consultation and the provision of information on matters of concern through a variety of internal publications and meetings involving employees at all levels. The company seeks to create an environment which encourages employees to express to management their ideas and opinions about the company and its work.

#### Statement of directors' responsibilities

The directors are responsible for preparing the Annual Report (consisting of the Strategic report, Directors' report, financial statements and notes to the financial statements) in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the European Union. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- · select suitable accounting policies and apply them consistently;
- state whether applicable IFRSs as adopted by the European Union have been followed, subject to any material departures disclosed and explained in the financial statements;
- · make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are also responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

#### **Directors' confirmations**

In the case of each director in office at the date the Directors' report is approved:

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware; and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

# Directors' report for the financial year ended 31 December 2019

# Going concern

The directors believe that preparing the financial statements on the going concern basis is appropriate due to the continued financial support of an intermediate parent company, Hutchison Ports Europe Limited. The directors have received confirmation that Hutchison Ports Europe Limited intend to support the company for at least one year after these financial statements are signed.

Approved by the Board on 23 September 2020 and signed by its order:

# Independent auditors' report to the members of Thamesport (London) Limited

# Report on the audit of the financial statements

#### **Opinion**

In our opinion, Thamesport (London) Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2019 and of its profit and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Directors' Report and Financial Statements (the "Annual Report"), which comprise: the statement of financial position as at 31 December 2019; the income statement, the statement of comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

# Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern.

# Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic Report and Directors' report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (UK) require us also to report certain opinions and matters as described below.

# Independent auditors' report to the members of Thamesport (London) Limited (continued)

#### Reporting on other information (continued)

Strategic Report and Directors' report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and Directors' report for the year ended 31 December 2019 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic Report and Directors' report.

#### Responsibilities for the financial statements and the audit

#### Responsibilities of the directors for the financial statements

As explained more fully in the Statement of directors' responsibilities set out on page 5, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

#### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

# Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

# Independent auditors' report to the members of Thamesport (London) Limited (continued)

# Other required reporting

## Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- · we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

# Notes to the financial statements for the financial year ended 31 December 2019

#### 1 General information

The principal activity of the company is the management and operation of London Thamesport and associated services.

The company is a private company limited by shares, incorporated in England and Wales and domiciled in the United Kingdom.

#### 2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### **Basis of preparation**

The financial statements have been prepared in accordance with European Union endorsed IFRSs and IFRS Interpretations Committee (IFRS IC) interpretations and with those parts of the Companies Act 2006 applicable to companies reporting under IFRS. The statements have been prepared on a going concern basis and on a historical cost basis, except for the following:

- Certain financial assets
- Defined benefit pension plans

## New and amended standards adopted by the company

The following have been applied for the first time from 1 January 2019 and have had an effect on the financial statements:

#### IFRS 16 'Leases'

IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract, i.e. the customer ('lessee') and the supplier ('lessor'). The company will apply the standard from its mandatory adoption date of 1 January 2019. IFRS 16 completes the IASB's project to improve the financial reporting of leases and replaces the previous leases Standard, IAS 17 'Leases', and related Interpretations. It will result in almost all leases being recognised on the Statement of financial position by lessees, since the distinction between operating and finance leases is removed. Under the new standard, an asset (that is, the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases.

## Changes resulting from adoption of IFRS 16

IFRS 16 Leases became mandatorily effective on 1 January 2019. The company has applied this for the first time in this accounting period which resulted in changes to the accounting policies.

#### Notes to the financial statements for the financial year ended 31 December 2019

The company transitioned to IFRS 16 using the modified retrospective approach and as a result the cumulative effect of initial application is recognised in retained earnings at 1 January 2019. The prior period figures were not adjusted.

On adoption of IFRS 16, the company elected to apply the relief provisions available and has not reviewed contracts under the definition of a lease per IFRS 16, which had previously not been classified as leases under the principles of IAS 17. Therefore, only contracts entered into or modified on or after 1 January 2019 have the definition of a lease per IFRS 16 applied.

In addition, the company decided to apply recognition exemptions to leases with a term not exceeding 12 months and leases where the underlying assets are of low value.

For leases classified as operating leases under IAS 17, these lease liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 January 2019. The company has used the following practical expedients permitted by IFRS 16 when applying this for the first time to leases previously classified as operating leases:

- Applied a single discount rate to a portfolio of leases with similar characteristics
- Applied the exemption not to recognise liabilities for leases with less than 12 months of lease term remaining
- Excluded initial direct costs for the measurement of right of use assets at the date of initial application
- Used hindsight in determining the lease term where the contract contains options to extend or terminate the lease

Right of use assets are measured at either:

- Their carrying amount as if IFRS 16 has been applied since commencement, discounted using the lessee's incremental borrowing rate at the date of initial application
- · An amount equal to the lease liability, adjusted for any prepaid or accrued lease payments

No adjustments are required on transition to IFRS 16 for leases where the company acts as a lessor, except for a sub-lease. A reassessment of the classification of a sub-lease is required under IFRS 16.

The company recognised lease liabilities in relation to leases that were classified as 'operating leases' under the principles of IAS 17 - Leases. On transition, right of use assets of £38,000, lease liabilities of £43,000 and deferred tax assets of £1,000 were recognised with the difference of £4,000 allocated to retained earnings.

	reported 2018
Operating lease commitments at 31 December 2018	84
Operating lease commitments discounted at the incremental borrowing rate	83
Recognition exemption for short-term leases	(72)
Adjustments resulting from the different treatment of extension and termination options	32
Lease liabilities recognised at 1 January 2019	43

These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 January 2019. The weighted average rate applied was 4.17%.

As originally

# Notes to the financial statements for the financial year ended 31 December 2019

None of the other standards, interpretations and amendments effective for the first time from 1 January 2019 have had a material effect on the financial statements, being:

IFRIC 23 - Uncertainty over Income Tax Treatments Amendments to IAS 19 - Employee Benefits Amendments to IAS 28 - Investments in Associates and Joint Ventures Annual improvements cycle (2015-2017)

#### New standards, interpretations and amendments not yet adopted

None of the standards, interpretations and amendments effective for the first time for financial periods starting after 1 January 2019 will have a material effect on the financial statements, being:

Amendments to IFRS 3 - Business Combinations
Amendments to IAS 1 - Presentation of Financial Statements
Amendments to IAS 8 - Accounting Policies, Changes in Accounting Estimates and Errors
Amendments to IAS 39 - Financial Instruments: Recognition and Measurement
Amendments to IFRS 7 - Financial Instruments: Disclosures
Amendments to IFRS 9 - Financial Instruments

#### Going concern

The financial statements have been prepared on a going concern basis which assumes that the company will continue in operational existence for the foreseeable future. The validity of this assumption is based on the intermediate parent continuing its support.

#### **Inventories**

Inventories, which comprise spare parts and consumable stores, are stated at the lower of cost and net realisable value. The cost of inventories is calculated on an average cost basis.

#### Pension costs

The company operates both defined benefit and defined contribution plans, the assets of which are held in trustee administered funds.

Pension costs for defined benefit plans are assessed using the projected unit credit method. Under this method, the costs of providing pensions are charged to the Income statement spreading the regular cost over the service lives of employees in accordance with the advice of qualified actuaries, who, for accounting purposes, also carry out a valuation of major plans every year. The pension obligations are measured as the present value of the estimated future cash outflows by reference to market yields on high quality corporate bonds, which have terms to maturity approximating the terms of the related liability. Plan assets are measured at fair value. Actuarial gains and losses are recognised in full in the year in which they occur, outside the Income statement, in the Statement of changes in equity.

The defined benefit pension scheme was closed to new entrants on 30 June 2003 and to future accrual on 31 December 2013. Subsequent costs relating to the defined contribution group personal pension plan which replaced the defined benefit pension scheme are expensed as incurred. The company has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due and prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

#### Tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

#### Notes to the financial statements for the financial year ended 31 December 2019

Current tax, including UK corporation tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the Statement of financial position date.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the Statement of financial position date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets are reviewed at each reporting date and a valuation allowance is set up against deferred tax assets so that the net carrying amount equals the highest amount that is more likely than not to be recovered based on current or future taxable profit.

#### Other receivables

Other receivables are recognised at fair value, and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of trade and other receivables is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial re-organisation and default in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the Income statement within administrative expenses. When a trade receivable is uncollectible, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited against administrative expenses in the Income statement.

## Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

#### Revenue recognition

# Recognition

The company earns revenue from the provision of services attributable to the operation of London Thamesport, and arise wholly within the United Kingdom. Revenue is the total amount receivable by the company in the ordinary course of business for services provided to related parties, net of discounts and rebates, exclusive of Value Added Tax. The company earns revenue from provision of management services to related party entities.

IFRS 15 requires entities to apportion revenue earned from contracts to individual performance obligations based on a stand-alone selling price. The principles in IFRS 15 are applied to revenue recognition criteria using the following 5 step model:

- 1. identify the contracts with the customer
- 2. identify the performance obligations in the contract
- 3. determine the transaction price
- 4. allocate the transaction price to the performance obligations in the contract
- 5. recognise revenue when or as the entity satisfies its performance obligations

# Notes to the financial statements for the financial year ended 31 December 2019

#### Performance obligations

Under IFRS 15, revenue is recognised when or as performance obligations are satisfied by transferring control of a promised goods or service to a customer, and control either transfers over time or at a point in time. IFRS 15 introduces specific criteria for determining when revenue is recognised.

For revenue generated from the handling and storage of goods imported to, and exported from, the UK, the company's performance obligations can be considered to be separate and individual in nature. Each element of revenue can be identified separately and is selected individually as per the customer's requirements. Individual services are invoiced to the customer following completion of that particular service and there is no obligation on the company to provide subsequent services once each individual service has been completed. All services are considered to be provided at a point in time. This includes revenue recognised from the storage of goods, which is short term in nature and is charged based on a daily rate. The company considers that a separately identifiable performance obligation is created at the completion of each day's storage.

The similar nature of revenues generated by the company results in no requirement to disaggregate revenue, in accordance with IFRS 15.

#### Transaction price

The consideration which the company expects to receive in exchange for specific services is clearly defined and agreed prior to the service being performed. Such consideration is fixed for most individual services supplied. As a result, there is little ambiguity when allocating prices to such performance obligations within the company/group's transactions with customers. Variable elements of revenue are subject to agreements which are ordinarily co-terminus with the financial year, which reduces the uncertainty over the revenue attributable to the financial year. Any liabilities that may arise as a result of non-performance of obligations are netted against revenue in the period to which such non-performance relates.

#### Contract assets and receivables

Contract assets are required to be classified as a receivable when the entity's right to consideration is unconditional, when payment is due only on the passage of time. Given that the company/group's performance obligations can be considered to be clearly defined, separate and individual in nature, trade receivables are recognised rather than contract assets.

#### Contract liabilities

Contract liabilities and customer deposits are recognised in the statement of financial position when the company has received consideration but still has an obligation to deliver products and meet performance obligations for that consideration. In the ordinary course of business no such balances arise due to the timing and nature of the services provided and cash collection from customers.

#### Practical Expedients

The company applies the practical expedient under para 63 of IFRS 15 that no discounting is applied on the basis that the period between when the entity transfers a promised good or service to the customer and when the customer pays for that good or service will be one year or less.

The company also applies the practical expedient under para 94 of IFRS 15 in relation to contract costs which is applied on the basis that contractually agreed rates are ordinarily in place for a period of 12 months or less.

# Cash and cash equivalents

For the purpose of the Statement of cash flows, the cash and cash equivalents note includes cash in hand, short term deposits and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the Statement of financial position.

# Notes to the financial statements for the financial year ended 31 December 2019

#### Trade and other payables

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

#### Foreign currency transactions and balances

The financial statements are presented in GBP, which is the company's functional and presentation currency.

Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the Statement of financial position date. Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All differences are taken either to the Income statement or the Statement of comprehensive income depending on the nature of the asset or liability being revalued.

#### **Borrowings**

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost and any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the Income statement over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the company has an unconditional right to defer settlement of the liability for at least 12 months after the Statement of financial position date.

#### Financial instruments

#### Initial recognition

Financial assets and financial liabilities comprise all assets and liabilities reflected in the statement of financial position, although excluding property, plant and equipment, investment properties, intangible assets, deferred tax assets, prepayments, deferred tax liabilities, inventories, accruals and employee benefits plan. All assets and liabilities affected can be found in the table at the end of this note.

The company recognises financial assets and financial liabilities in the statement of financial position when, and only when, the company becomes party to the contractual provisions of the financial instrument.

Financial assets are initially recognised at fair value. Financial liabilities are initially recognised at fair value, representing the proceeds received net of premiums, discounts and transaction costs that are directly attributable to the financial liability.

Subsequent to initial measurement, financial assets and financial liabilities are measured at either amortised cost or fair value.

#### Classification and measurement

Financial instruments are classified at inception into one of the following categories, which then determine the subsequent measurement methodology:

Financial assets are classified into one of the following three categories:

- · financial assets at amortised cost;
- · financial assets at fair value through other comprehensive income ("FVTOCI"); or
- · financial assets at fair value through the profit or loss ("FVTPL").

Financial liabilities are classified into one of the following two categories:

- · financial liabilities at amortised cost; or
- · financial liabilities at FVTPL.

The classification and the basis for measurement are subject to the company's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets, as detailed below:

#### Notes to the financial statements for the financial year ended 31 December 2019

Financial assets at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- · the assets are held within a business model whose objective is to hold assets in order to collect contractual cash flows: and
- the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

If either of the above two criteria is not met, the financial assets are classified and measured at FVTPL.

If a financial asset meets the amortised cost criteria, the company may choose to designate the financial asset at FVTPL. Such an election is irrevocable and applicable only if the FVTPL classification significantly reduces a measurement or recognition inconsistency.

#### Financial assets at FVTOCI

A financial asset is measured at FVTOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- · the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investments that is not held for trading, the company may irrevocably elect to present subsequent changes in fair value in other comprehensive income ("OCI"). This election is made on an investment-by-investment basis.

If an equity investment is designated as FVTOCI, all gains and losses, except for dividend income, are recognised in OCI and are not subsequently included in the Income statement.

# Financial assets at FVTPL

Financial assets not otherwise classified above are classified and measured as FVTPL.

#### Financial liabilities at amortised cost

All financial liabilities, other than those classified as financial liabilities at FVTPL, are measured at amortised cost using the effective interest rate method.

#### Financial liabilities at FVTPL

Financial liabilities not measured at amortised cost are classified and measured at FVTPL. This classification includes derivative liabilities.

# Impairment of financial assets

#### Measurement of Expected Credit Losses ("ECL")

The impairment model is based on expected credit losses and it applies equally to debt instruments measured at amortised cost or FVTOCI, lease receivables, contract assets within the scope of IFRS 15 and certain written loan commitments and financial guarantee contracts.

Expected credit losses (with the exception of purchased or original credit-impaired financial assets) are required to be measured through a loss allowance at an amount equal to: (i) the 12-month expected credit losses or (ii) full lifetime expected credit losses. The latter applies if credit risk has increased significantly since initial recognition of the financial instrument.

# Notes to the financial statements for the financial year ended 31 December 2019

#### Derivative financial instruments

All derivatives in the scope of IFRS 9, including those linked to unquoted equity investments, are measured at fair value. Value changes are recognised in profit or loss unless the entity has elected to apply hedge accounting by designating the derivative as a hedging instrument in an eligible hedging relationship.

The contractual cash flows of the financial asset are assessed in their entirety, and the asset as a whole is measured at FVTPL if the contractual cash flow characteristics test is not passed. Embedded derivatives not closely related to financial liabilities will be accounted for separately at fair value in the case of financial liabilities not designated at FVTPL.

#### Accounting estimates and assumptions

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of certain financial assets, liabilities, income and expenses.

The use of estimates and assumptions is principally limited to the determination of provisions for impairment and the valuation of financial instruments as explained in more detail below:

#### Provisions for impairment

In determining impairment of financial assets, judgement is required in the estimation of the amount and timing of future cash flows as well as an assessment of whether the credit risk on the financial asset has increased significantly since initial recognition and incorporation of forward-looking information in the measurement of ECL.

#### Fair value of financial assets and liabilities

Where the fair value of financial assets and liabilities cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The input to these models is derived from observable markets where available, but where this is not feasible, a degree of judgement is required in determining assumptions used in the models. Changes in assumptions used in the models could affect the reported fair value of financial assets and liabilities.

#### 3 Financial risk management and impairment of financial assets

The company's activities expose it to a variety of financial risks: liquidity risk, market risks (including foreign exchange risk, price risk and cash flow interest rate risk) and credit risk. The company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the company's financial performance.

Risk management is carried out by a central treasury department under policies approved by the HPUK group. The group approves written principles for overall risk management, as well as written policies covering specific areas such as foreign exchange risk and interest rate risk. Hedge accounting is applied where appropriate.

#### Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the business, the central treasury department aims to maintain flexibility in funding by keeping committed credit lines available. Accordingly, liquidity risk is monitored at an immediate parent company level.

# Notes to the financial statements for the financial year ended 31 December 2019

#### Foreign exchange risk

The company operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the US dollar, the Hong Kong dollar and the Euro. Foreign exchange risk arises when future commercial transactions and recognised assets and liabilities are denominated in a currency that is not the entity's functional currency.

Management has set up a policy to advise group companies to manage their foreign exchange risk against their functional currency. The policy permits the use of forward rate agreements, forward foreign exchange contracts and currency swaps with prior approval. All group companies are reviewed on a regular basis.

#### Price risk

The company is not exposed to significant price risks.

#### Cash flow and interest rate risk

As the company has no significant interest bearing assets, the company's income and operating cash flows are substantially independent of changes in market interest rates.

#### Capital risk management

Capital is managed at a HPUK group level. The group's objectives when managing capital is to safeguard the group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce cost of capital. Accordingly, the details of capital risk management are disclosed in the consolidated financial statements of HPUK.

#### 4 Fair value

Where financial assets or liabilities are measured at fair value they are classified using a fair value hierarchy that reflects the significance of the inputs used in the measurement. The nominal value less impairment provision of trade receivables and payables are assumed to approximate their fair values due to the short-term maturities of these assets and liabilities. Where appropriate, the fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the company for similar financial instruments.

#### Notes to the financial statements for the financial year ended 31 December 2019

#### 5 Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

#### **Taxation**

There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The company recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these issues is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made. Further, the recoverability of deferred tax assets for tax losses is based upon the achievement of future expected profitability, which is inherently uncertain.

#### Pension assumptions

Contributions to the Maritime Transport Services Limited Retirement and Death Benefit Scheme are determined by a qualified actuary on the basis of an actuarial valuation using the projected unit credit method. Valuations are carried out every three years and the most recent was issued as at 31 December 2016. The assumptions, which have the most significant effect on the results of the valuation, are those relating to the discount rate applied to liabilities and the rates of increase in salaries and pension.

The valuation used for IAS 19 disclosures has been based on the most recent actuarial valuation and updated by an independent qualified actuary to take account of the requirements of IAS 19 in order to assess the liabilities of the scheme as at 31 December 2019. The details of the principal actuarial assumptions are given in note 20.

There are no critical judgements made by the directors in applying the company's accounting policies which have a significant impact on the financial statements other than those involving estimates, as disclosed above.

# Notes to the financial statements for the financial year ended 31 December 2019

#### 8 Staff costs and directors' remuneration

The aggregate payroll costs were as follows:

	2019 £ 000	2018 £ 000
Wages and salaries	3,040	3,130
Redundancy costs	293	-
Social security costs	303	300
Other pension costs, defined contribution scheme	282	282
Other pension costs, defined benefit scheme	111	137
	4,029	3,849

The monthly average number of employees of the company was 80 (2018: 81).

#### Key management compensation

The emoluments of key management are paid by another group company which makes no recharge to the company. Key management form the executive board of the group and a number of fellow subsidiaries and it is not possible to make an accurate apportionment of their emoluments in respect of each of the subsidiaries. Accordingly, the above details include no emoluments in respect of key management. Their total emoluments are included in the aggregate of key management disclosed in the financial statements of the group.

#### Directors' remuneration

All directors received their remuneration primarily in respect of services provided to other group companies and as a result their respective remuneration details are reflected in the financial statements of those companies.

# Notes to the financial statements for the financial year ended 31 December 2019

#### 9 Income tax expense

Tax charged in the Income statement

	2019 £ 000	2018 £ 000
Current taxation		
UK corporation tax	100	18
Deferred taxation		
Arising from origination and reversal of temporary differences	1	90
Arising from changes in tax rates and laws	20	(27)
Total deferred taxation	21	63
Tax expense in the Income statement	121	81

The tax assessed on profit before tax for the year is higher than the standard rate of corporation tax in the UK (2018: lower than the standard rate of corporation tax in the UK) of 19% (2018: 19%). The differences are reconciled below:

	2019 £ 000	2018 £ 000
Profit before tax	478	520
Profit before tax at 19% (2018: 19%)	91	99
Deferred tax charge/(credit) relating to changes in tax rates or laws	20	(27)
Effect of expense not deductible in determining taxable profit	10	9
Total tax charge	121	81

The Finance Act 2016 included legislation to reduce the main rate of corporation tax to 17% on 1 April 2020. The Finance Act 2016 was substantively enacted on 6 September 2016 and the effect of this change has been reflected in these financial statements.

In the Spring Budget 2020, the Government announced that from 1 April 2020 the corporation tax rate would remain at 19% (rather than reducing to 17%, as previously enacted). This new law was substantively enacted on 17 March 2020. As the proposal to keep the rate at 19% had not been substantively enacted at the Statement of financial position date, its effects are not included in these financial statements. However, it is likely that the overall effect of the change, had it been substantively enacted by the Statement of financial position date, would be to increase the tax expense for the financial year by £104,000, to increase the deferred tax asset by £99,000 and credit pension reserves by £203,000.

# Notes to the financial statements for the financial year ended 31 December 2019

# 10 Right of use assets

	Machinery £ 000	Total £ 000
Cost or valuation		
At 1 January 2019	38	38
Disposals and revaluations	(38)	(38)
At 31 December 2019	<u>-</u>	
Accumulated depreciation		
At 1 January 2019	-	-
Charge for the financial year	8	8
Disposals and revaluations	(8)	(8)
At 31 December 2019		<u>-</u>
Carrying amount		
At 31 December 2019		-
11 Inventories		
	2019	2018
	£ 000	£ 000
Spare parts and consumables	279	325

Inventories recognised as an expense during the year ended 31 December 2019 amounted to £294,000 (2018: £295,000).

#### 12 Other receivables

	2019	2018
	£ 000	£ 000
Amounts owed by group undertakings	5,591	6,447
Prepayments	171	183
Other receivables	125	68
Total other receivables	5,887	6,698

Amounts owed by group undertakings are denominated in GBP, unsecured, interest free and repayable on demand. The fair values of other receivables are assumed to approximate their fair values due to their short-term nature.

# 13 Loans and borrowings

	2019	2018
	£ 000	£ 000
Bank overdrafts	(499)	(115)

# Notes to the financial statements for the financial year ended 31 December 2019

# 14 Leases

#### Total cash outflows related to leases

Total cash outflows related to leases are presented in the table below:

Payment	2019 £ 000	2018 £ 000
Payment		£ 000
Principal lease payments	6	•
Interest	1	
Total cash outflow	7	-
15 Trade and other payables		
	2019	2018
	£ 000	£ 000
Trade payables	278	214
Amounts owed to group undertakings	1,633	2,483
Social security and other taxes	74	76
Accrued expenses	561	1,003
Other payables	71	38
	2,617	3,814

Amounts owed to group undertakings are denominated in GBP, unsecured, interest free and repayable on demand.

# Notes to the financial statements for the financial year ended 31 December 2019

# 16 Deferred tax assets

	2019	2018
	£ 000	£ 000
Deferred tax asset - pension scheme

Within 12 months	100	43
	881	311

# 17 Share capital

During the comparative year the company adopted new articles of association reflecting the Companies Act 2006 and chose not to expressly provide for a limit on the number of shares that may be allotted. Therefore, whilst during 2017 the company had authorised share capital of £100, as at 31 December 2018 the concept of authorised share capital no longer applied.

#### 20 Retirement benefit obligations

Pension benefits are provided to employees through a defined benefit pension scheme, which was closed to new members on 30 June 2003 and to future accrual on 31 December 2013, and through a defined contribution group personal pension plan which replaced it for new entrants from 1 July 2003. Both schemes are funded by the company and its employees.

#### Defined benefit pension scheme

# The Maritime Transport Services Limited Retirement and Death Benefits Scheme

The fund is separately administered by trustees. The pension cost and related provision are assessed in accordance with the advice of a professionally qualified actuary.

# Notes to the financial statements for the financial year ended 31 December 2019

An actuarial valuation of the scheme was carried out as at 31 December 2016 the conclusion of which was that the market value of the scheme's assets was £23,344,000 and an actuarial deficit of £3,283,000 existed. The following assumptions were used:

	Non-pensioner	Pensioner
Pre-retirement discount rate	5.35%	n/a
Post-retirement discount rate	3.25%	2.50%
Inflation (RPI): Pre Retirement	3.50%	n/a
Inflation (RPI): Post Retirement	3.75%	3.50%
Inflation (CPI): Pre Retirement	2.80%	n/a
Inflation (CPI): Post Retirement	3.05%	2.80%
Pension increases:		
- CPI capped at 3%	2.40%	2.30%
- RPI capped at 2.5%	2.30%	2.25%
- RPI capped at 5%	3.55%	3.35%
- RPI capped at 5% with minimum 3%	3.90%	3.75%
Return on assets	4.51%	4.51%

In order to eliminate the deficit, the company has agreed to pay the following contributions from the date of the recovery plan until 29 February 2024:

Year ending 31 December	£ 000
2020	536
2021	556
2022	577
2023	599
2024	207

The valuation used for IAS 19 disclosures has been based on the most recent actuarial valuation undertaken as at 31 December 2016 and updated by an independent qualified actuary to take account of the requirements of IAS 19 in order to assess the liabilities of the scheme as at 31 December 2019. Scheme assets are stated at their bid value at 31 December 2019.

Contributions payable to the pension scheme at the end of the year are £nil (2018: £nil).

The expected contributions to the plan for the next financial year are £536,000.

# Notes to the financial statements for the financial year ended 31 December 2019

# Reconciliation of scheme assets and liabilities to assets and liabilities recognised

The amounts recognised in the Statement of financial position are as follows:

	2019 £ 000	2018 £ 000
Fair value of scheme assets	28,374	25,091
Present value of scheme liabilities	(33,484)	(26,672)
Tresent value of scheme naomities		
Defined benefit pension scheme deficit	(5,110)	(1,581)
Scheme assets		
Changes in the fair value of scheme assets are as follows:		
	2019	2018
	£ 000	£ 000
Fair value at start of financial year	25,091	26,124
Interest income	752	657
Return on plan assets, excluding amounts included in interest income	2,514	(1,797)
Employer contributions	618	611
Benefits paid	(531)	(434)
Administrative expenses paid	(70)	(70)
Fair value at end of financial year	28,374	25,091
Analysis of assets		
The major categories of scheme assets are as follows:		
	2019 £ 000	2018 £ 000
Cash and cash equivalents	£ 000 528	459
Equity instruments	15,437	13,207
Debt instruments	· ·	
	10,313	9,165
Real estate	2,096	2,260
	28,374	25,091

All cash and cash equivalents, equity instruments and debt instruments are quoted assets, totalling £26,278,000 (2018: £22,831,000). Real estate assets are unquoted, totalling £2,096,000 (2018: £2,260,000).

#### Actual return on scheme's assets

	2019	2018
	£ 000	£ 000
Actual return on scheme assets	3,266	(1,140)

The pension scheme has not invested in any of the company's own financial instruments or in properties or other assets used by the company.

# Notes to the financial statements for the financial year ended 31 December 2019

# Scheme liabilities

Changes in the present value of scheme liabilities are as follows:

	2019 £ 000	2018 £ 000
Present value at start of financial year	26,672	28,639
Actuarial losses/(gains) arising from changes in demographic assumptions	682	(212)
Actuarial losses/(gains) arising from changes in financial assumptions	5,795	(2,418)
Actuarial losses arising from experience adjustments	73	373
Interest cost	793	724
Benefits paid	(531)	(434)
Present value at end of financial year	33,484	26,672

Weighted average duration of the defined benefit obligation is 20 years (2018: 21 years).

# Principal actuarial assumptions

The principal actuarial assumptions at the Statement of financial position date are as follows:

The principal actuarial assumptions at the Statement of Intancial position	date are as follows.	
	2019	2018
	%	%
Allowance for increases to pensions in payment - pre 6 April 2006	1.90	2.05
Allowance for increases to pensions in payment - post 6 April 2006	1.60	1.60
Discount rate	2.05	3.00
Inflation CPI	1.90	1.95
Inflation RPI	2.70	3.15
Post retirement mortality assumptions		
	2019	2018
	Years	Years
Current UK pensioners at retirement age - male	18.80	18.60
Current UK pensioners at retirement age - female	22.00	21.90
Amounts recognised in the Income statement		
•	2019	2018
	£ 000	£ 000
Amounts recognised in operating profit		
Administrative expenses paid	70	70
Net interest	41	67
Total recognised in the Income statement	111	137

# Notes to the financial statements for the financial year ended 31 December 2019

# Amounts recognised in the Statement of comprehensive income

	2019	2018
	£ 000	£ 000
Actuarial (losses)/gains arising from changes in demographic		
assumptions	(682)	212
Actuarial (losses)/gains arising from changes in financial assumptions	(5,795)	2,418
Actuarial losses arising from experience adjustments	(73)	(373)
Return on plan assets, excluding amounts included in interest income	2,514	(1,797)
Amounts recognised in the Statement of comprehensive income	(4,036)	460

#### Sensitivity analysis

A sensitivity analysis for the principal assumptions used to measure scheme liabilities is set out below:

#### Impact on defined benefit obligation

	Change in assumption	Increase in assumption	Decrease in assumption
Expressed as %			
Discount rate	0.25%	decrease by 4.83%	increase by 5.16%
Inflation - RPI	0.25%	increase by 2.82%	decrease by 3.15%
Life expectancy	1 Year	increase by 5.45%	-
Expressed as £ 000			
Discount rate	0.25%	decrease by 1,617	increase by 1,727
Inflation - RPI	0.25%	increase by 945	decrease by 1,054
Life expectancy	1 Year	increase by 1,825	-

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method has been applied as when calculating the pension liability recognised within the Statement of financial position.

# Maturity analysis of benefit payments

	1-5 years £ 000	6-10 years £ 000	11-15 years £ 000	16-20 years £ 000	Over 20 years £ 000	Total £ 000
2019	3,680	5,028	6,143	6,915	27,890	49,656
2018	3,409	4,800	5,987	6,822	29,411	50,429

# Notes to the financial statements for the financial year ended 31 December 2019

### Defined contribution pension scheme

The company operates a defined contribution pension scheme. The pension cost charge for the financial year represents contributions payable by the company to the scheme and amounted to £282,000 (2018: £282,000).

Contributions totalling £20,000 (2018: £25,000) were payable to the scheme at the end of the financial year and are included in trade and other payables.

#### 21 Operating lease commitments

The total future value of minimum lease payments is as follows:

	2019	2018
	£ 000	£ 000
Within one year	-	80
In two to five years		4
	<u> </u>	84

# 22 Parent and ultimate parent undertaking

Maritime Transport Services Limited, a company registered in England and Wales, is the immediate parent of the company and owns 100% of the shares and voting rights.

MTS (Holdings) Limited, a company registered in England and Wales, is the smallest group to consolidate the financial statements of the company.

Copies of the MTS (Holdings) Limited financial statements may be obtained from the Company Secretary, Tomline House, The Dock, Felixstowe, Suffolk, IP11 3SY.

CK Hutchison Holdings Limited ("CKHH"), a company incorporated in the Cayman Islands and listed in Hong Kong is the ultimate parent of the company and the largest group to consolidate these financial statements.

Copies of the annual financial statements of CKHH may be obtained from the Company Secretary, 48th Floor, Cheung Kong Center, 2 Queen's Road Central, Hong Kong.

# Notes to the financial statements for the financial year ended 31 December 2019

# 23 Related party transactions

#### Parent company

During the financial year, the company received £8,144,000 (2018: £7,299,000) in respect of port usage services provided to Maritime Transport Services Limited.

#### Fellow subsidiary

The company incurred fees based on usage of equipment from The Felixstowe Dock and Railway Company, a fellow subsidiary undertaking of Hutchison Ports (UK) Limited, of £69,000 (2018: £76,000). There was an outstanding balance of £9,000 as at 31 December 2019 (2018: £nil).

During the financial year, the company received services worth £6,000 (2018: £7,000) from Maritime Cargo Processing plc. Hutchison Ports (UK) Limited has an investment in Maritime Cargo Processing plc. An outstanding balance of £1,000 (2018: £1,000) is included as a trade creditor as at 31 December 2019.
