---

#### **BASIS OF PREPARATION**

The financial statements have been prepared in accordance with accounting standards generally accepted in the United Kingdom and United Kingdom statute comprising the Companies Act, 2006.

#### **ACCOUNTING CONVENTION**

The financial statements are prepared under the historical cost convention.

#### **TURNOVER**

Turnover represents amounts receivable for goods and services net of VAT and trade discounts and is recognised when the risks and rewards of ownership are transferred to the customer.

#### **FOREIGN CURRENCY**

The charge for taxation is based on the result for the year. Deferred taxation is calculated on the differences between the company's taxable profits and the results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements. In calculating the amount of deferred tax, discounting is not used. Deferred tax assets are recognised only to the extent that they are regarded as recoverable.
