STRATEGIC REPORT

The principal activity of UK Power Networks Services (Contracting) Limited (the "Company") is to manage high voltage electrical networks for owners of major infrastructure.

Change of year end

The Company has changed its accounting reference date from 30 December to 31 March to align with that of other Group companies. As a result the reported period is an extended period from 31 December 2014 to 31 March 2016 and is not directly comparable to the prior period (1 January 2014 to 30 December 2014).

Review of the business

The profit for the period, before taxation, amounted to £54,339,000 (1 January 2014 to 30 December 2014: £47,874,000) and after taxation, to £46,760,000 (1 January 2014 to 30 December 2014: £38,132,000). Dividends of £12,000,000 (1 January 2014 to 30 December 2014: £12,500,000) were paid in the period.

The Company is part of the UK Power Networks Services group ("the Group") which manages its operations on a business segment basis. The performance of the business segments including this Company is discussed in the Group's Annual Report which does not form part of this report.

Key performance indicators (KPI's)

The key performance indicators used by the Board of Directors in their monitoring of the Company centre on the areas of safety, operational efficiency and customer service. These include:

| | 31 December 2014 to 31 March 2016 £000 | 1 January 2014 to 30 December 2014 £000 |
|----------------------------------|---|---|
| Financial performance | | |
| Tangible fixed assets | 247,551 | 258,079 |
| Operating costs | (37,653) | (29,005) |
| Non financial performance | | |
| Lost time incidents (note 1) | - | - |

Note 1 Injuries at work resulting in lost time of one day or more

STRATEGIC REPORT continued

Key performance indicators continued

Financial performance indicators represent the key financial metrics that reflect the financial health of the business. The tangible fixed asset value represents the Company's investment (after depreciation) in the electrical infrastructure managed under long term contracts for major airport and rail customers. Operating costs have increased by £8,648,000 reflecting higher work volumes over a longer accounting period.

The key non-financial performance indicator relates to safety. Working with electricity is potentially a dangerous activity with electrocution and falling from height presenting the most serious risks. A lost time incident is recorded if an employee or contractor suffers an injury at work which results in lost time of one day or more. In order to reinforce the importance which the Group places on safety, a comprehensive safety awareness campaign has been developed for all operational staff. The Company is pleased to report that no lost time incidents occurred in the period under review.

Principal risks and uncertainties

As well as the opportunities the Company has to grow and develop its business, certain risks and uncertainties are faced in achieving its objectives. The Company's principal risks and uncertainties are set out below.

Health and Safety

There is a risk that a fatality or serious injury occurs involving a member of staff, a contractor, a member of the public or a third party. Any such incident could lead to a potential prosecution or a fine and have an adverse impact on the reputation of the Company.

Network Assets

There are significant risks associated with network assets where failure of those assets could result in a loss of service to customers. Customer service and continuity and quality of supply are important customer requirements and poor performance in these areas can result in financial penalties. Any significant incident could cause adverse publicity and impact negatively on the reputation of the Company.

Supply chain

Any interruption to the supply of critical materials or services could have a significant impact on the Company's ability to manage the private electricity networks and impact progress on electrical contracting projects. In addition, volatility in commodity prices can have a significant impact on costs.

There are a variety of mechanisms in place to manage these risks. The UK Power Networks Group has an embedded risk awareness culture to understand and manage significant business risks. The risk management framework sets out policies, procedures and responsibilities designed to assess, mitigate, monitor and report risks. This leads to a higher level of risk management assurance for the board of directors.

STRATEGIC REPORT continued

Financial risk management

The Company is exposed to financial risk through its financial assets and liabilities. The key financial risk is that the proceeds from financial assets are not sufficient to fund financial obligations as they fall due. Due to the nature of the Company's business and the assets and liabilities contained within the Company's balance sheet the only financial risks the Directors consider relevant to this Company are credit risk and liquidity risk.

The Company's exposure to credit and liquidity risk is reduced as it is a 100% subsidiary of the UK Power Networks Services Holdings Group of companies. The Company's principal financial assets are cash, trade debtors and amounts owed from Group companies. Credit risk is mitigated by the nature of the debtor balances owed, with these being due from entities of strong financial standing. Liquidity risk is mitigated by the financial support given by UK Power Networks Services Holdings Limited, the immediate parent.

Future developments

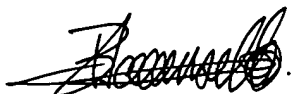

The Directors regard the results for the period and the period-end financial position as satisfactory and expect the Company to continue to perform to a satisfactory level in the future.

Going Concern

In considering the going concern basis in preparing the Annual Report and financial statements, the Directors have regard to the following: the Company's existing long-term contracts are profitable and provide a steady and predictable stream of revenues and cash flows; and the Company has considerable cash reserves and no external debt. The Company has net current liabilities of £7,536,000. Based on their assessment of detailed forecasts, the Directors are confident that the Company will be able to fund these obligations as they fall due within the next twelve months.

The Company's forecasts and projections, taking account of reasonably possible changes in trading performance, show that the Company has adequate resources to continue operating for the foreseeable future. Accordingly, the Directors continue to adopt the going concern basis in preparing the financial statements.

DIRECTORS' REPORT

The Directors present their annual report and audited financial statements for the period from 31 December 2014 to 31 March 2016.

Details of future developments and going concern are included in the Strategic report and form part of this report by cross reference.

Political contributions

No political donations were made in either period.

Directors

The directors who held office during the period and subsequently were as follows:

Andrew John Hunter

Basil Scarsella

Loi Shun Chan

None of the Directors had a service contract with the Company in the current or prior period.

The Company has made qualifying third party indemnity provisions for the benefit of its directors which were made during the period and remain in force at the date of this report.

Disabled employees

Applications for employment by disabled persons are always fully considered, bearing in mind the abilities of the applicant concerned. In the event of members of staff becoming disabled every effort is made to ensure that their employment with the Group continues and that appropriate training is arranged. It is the policy of the Group that the training, career development and promotion of disabled persons should, as far as possible, be identical to that of other employees.

Employee consultation

The Group places considerable value on the engagement and involvement of its employees and has continued to keep them informed on matters affecting them as employees and on the various factors affecting the performance of the Group. This is achieved through formal and informal meetings, various media channels and publications. Employee representatives are consulted regularly on a wide range of matters affecting their current and future interests.

Disclosure of information to Auditor

Each of the persons who is a director at the date of approval of this annual report confirms that:

- so far as the Director is aware, there is no relevant audit information of which the Company's Auditor is unaware; and
- the Director has taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the Company's Auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

DIRECTORS' REPORT continued

Reappointment of auditors

The auditors Deloitte LLP are deemed to be reappointed under section 487(2) of the Companies Act 2006.

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial period. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UK POWER NETWORKS SERVICES (CONTRACTING) LIMITED

We have audited the financial statements of UK Power Networks Services (Contracting) Limited for the period from 31 December 2014 to 31 March 2016, which comprise the Profit and Loss Account, the Statement of Total Recognised Gains and Losses, the Balance Sheet and the related notes 1 to 19. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Statement of Directors' Responsibilities (set out on page 7), the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Annual Report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on the financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 March 2016 and of its profit for the period from 31 December 2014 to 31 March 2016;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matter prescribed by the Companies Act 2006

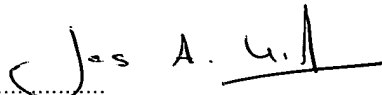

In our opinion the information given in the Strategic Report and the Directors' Report for the financial period for which the financial statements are prepared is consistent with the financial statements.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UK POWER NETWORKS SERVICES (CONTRACTING) LIMITED (continued)

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

NOTES TO THE FINANCIAL STATEMENTS

1 Accounting policies

The principle accounting policies are set out below. They have all been applied consistently throughout the current and preceding period.

Basis of preparation

The financial statements have been prepared under the historical cost convention and in accordance with applicable United Kingdom law and accounting standards.

Exemption from preparing a cash flow statement

The Company is exempt from preparing a cash flow statement under the terms of FRS 1 'Cash flow statements (revised 1996)' as it is a member of a group, headed by UK Power Networks Holdings Limited whose consolidated accounts include a cash flow statement and are publicly available.

Going concern

As discussed in the Strategic Report the Directors have, at the time of approving the financial statements, a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the financial statements.

Tangible Fixed Assets

Tangible fixed assets are stated at cost, net of depreciation and provision for impairment. The carrying values of tangible fixed assets are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows:

| Asset class | Depreciation method and rate |
|------------------------|------------------------------|
| Fixtures and equipment | 5 years |
| Vehicles | 5 to 10 years |
| Network assets | 30 to 50 years |

Assets in the course of construction are carried at cost, less any recognised impairment loss. Depreciation of these assets, on the same basis as other assets, commences when the assets are ready for their intended use.

NOTES TO THE FINANCIAL STATEMENTS (continued)

1 Accounting policies (continued)

Taxation

Current tax, including UK corporation tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more or a right to pay less tax in the future have occurred at the balance sheet date, with the following exceptions:

- provision is made for gains on disposal of fixed assets that have been rolled over into replacement assets only where, at the balance sheet date, there is a commitment to dispose of the replacement assets with no likely subsequent rollover or available capital losses;
- provision is made for gains on re-valued fixed assets only where there is a commitment to dispose of the re-valued assets and the attributable gain can neither be rolled over nor eliminated by capital losses; and
- deferred tax assets are recognised only to the extent that the Directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing difference can be deducted.

Deferred tax is measured on an undiscounted basis.

Stocks

Stocks are stated at the lower of cost and net realisable value.

Cost includes all costs incurred in bringing each product to its present location and condition. For work in progress this is the cost of direct materials and labour plus attributable overheads based on a normal level of activity.

Net realisable value is based on estimated contract value less any further costs expected to be incurred to completion and disposal.

Provisions are made for obsolete, slow moving or defective items where appropriate.

Long-term contracts

Profit is recognised on long-term contracts, if the final outcome can be assessed with reasonable certainty, by including in the profit and loss account turnover and related costs as contract activity progresses. Turnover is calculated as that proportion of the total contract value which costs incurred to date bear to total expected costs for that contract.

In assessing contractual performance, the amounts recorded are dependent upon negotiations with customers, which are often complex and unlikely to be resolved in the short term. Accordingly, management have made their best estimate of the likely future outcomes based upon the information currently available to them.

Hire purchase and leasing

Rentals payable under operating leases are charged to the profit and loss account on a straight-line basis over the lease term, even if payments are not made on such a basis.

NOTES TO THE FINANCIAL STATEMENTS (continued)

1 Accounting policies (continued)

Pensions

The Company has obligations under two funded defined benefit pension arrangements as part of the UK Power Networks group, and the Company accounts for these schemes in accordance with FRS 17 'Retirement Benefits', ("FRS 17"). The amounts charged to the profit and loss account are the current service costs and gains and losses on settlements and curtailments. Past service costs are recognised immediately in the profit and loss account if the benefits have vested. If the benefits have not vested immediately the costs are recognised over the period until vesting occurs. The interest cost and the expected return on the assets are shown as a net amount of other finance costs or credits adjacent to interest. Actuarial gains and losses are recognised immediately in the statement of total recognised gains and losses.

The defined benefit scheme is funded, with the assets of the scheme held separately from those of the Group, in a separate trustee administered fund. Pension scheme assets are measured at fair value and liabilities are measured on an actuarial basis using the projected unit method and discounted at a rate equivalent to the current rate of return on a high quality corporate bond or equivalent currency and term to the scheme liabilities. The actuarial valuations are obtained at least triennially and are updated at each balance sheet date. The resulting defined benefit asset or liability, net of the related deferred tax, is presented separately after other net assets on the face of the balance sheet.

2 Turnover

Turnover, which is stated net of value added tax, arises entirely in the United Kingdom and is attributable to the continuing activity of the management of various electricity distribution systems.

3 Operating profit

Operating profit is stated after charging:

| | 31 December 2014 to 31 March 2016 £000 | 1 January 2014 to 30 December 2014 £000 |
|---------------------------------------|---|---|
| Operating leases - Other | 233 | 210 |
| Operating leases - Land and Buildings | 298 | 248 |
| Depreciation of owned assets (note 8) | 12,555 | 9,854 |
| Loss on sale of tangible fixed assets | 368 | 288 |
| Staff Costs (note 4) | <u>9,347</u> | <u>6,820</u> |

Amounts payable to Deloitte LLP were £22,200 (1 January 2014 to 30 December 2014: £21,700) in respect of audit services and £nil (1 January 2014 to 30 December 2014: £nil) in respect of non audit services. Auditor's remuneration was borne in both periods by another Group company.

NOTES TO THE FINANCIAL STATEMENTS (continued)

4 Particulars of employees

The aggregate payroll costs were as follows:

| | 31 December 2014 to 31 March 2016 £000 | 1 January 2014 to 30 December 2014 £000 |
|-----------------------|---|--|

| Total current tax | <u><u>10,828</u></u> | <u><u>9,482</u></u> |

NOTES TO THE FINANCIAL STATEMENTS (continued)

7 Taxation (continued)

Tax rate changes

The UK corporation tax rate changed from 23% to 21% effective from 1 April 2014 and to 20% from 1 April 2015. This resulted in an average corporation tax rate for the period of 20.2% (1 January 2014 to 30 December 2014: 21.5%).

Deferred tax reduced from 20% to 18% following the enactment in 2015 of further rate changes to 19% from 1 April 2017 and 18% from 1 April 2020. The effect of revaluing the opening deferred tax balance at 18% reduced the tax charge in the current period by £2,823,000.

A lower tax rate of 17% effective from 1 April 2020 was announced in the 2016 Budget. However this rate change had not been substantively enacted in Law at the balance sheet date and therefore is not relevant to these financial statements.

17 Pension schemes

Defined benefit pension schemes

The Group operates two funded defined benefit pension schemes:

- The UK Power Networks Group of the ESPS (the UKPN Group scheme); and
- The UK Power Networks Pension Scheme (UKPNPS).

Both schemes are closed to new entrants.

Defined contribution pension scheme

A defined contribution retirement benefit scheme, the UK Power Networks Personal Pension Plan, was launched in 2011 for new employees. Joiners can opt for a contribution rate of between 3% to 5% of their salary with the employer making double this contribution. The Company's contributions to this scheme during the period amounted to £181,000 (1 January 2014 to 31 December 2014: £108,000).

Allocation and valuation of defined benefit scheme assets and liabilities

Scheme assets and liabilities are assigned to participating entities of the Group using an allocation methodology based on employment records and attribution portions agreed with the industry regulator Ofgem. Aon Hewitt provided an actuarial valuation of scheme assets and liabilities at the balance sheet date. The Group monitors funding levels annually and the funding schedule is reviewed between the Group and the scheme trustees every three years based on actuarial valuations. A funding schedule was agreed with the trustees in June 2014 based on the last triennial valuation at 31 March 2013. The Group considers these new contribution rates to be sufficient to eliminate the current deficit over the next ten years. The next triennial valuation as at 31 March 2016 was in progress at the time of approval of these financial statements.

| At 31 March 2016 / 30 December 2014 | 17,795 | 9,029 | 26,824 | 25,123 |

The actuarial loss includes a net transfer out of scheme assets amounting to £833,000 (1 January 2014 to 30 December 2014: £24,703,000 transfer out) as a result of a review of the allocation of the scheme assets across the Group based on staff transfers between participating companies.

The fair value of scheme assets is analysed as follows:

| | Fair value of assets | | | |
|------------------------------|------------------------------------|----------------------------------|---------------------------------|---------------------------------|
| | UKPN Grp 31 Mar 2016 £000 | UKPNPS 31 Mar 2016 £000 | Total 31 Mar 2016 £000 | Total 30 Dec 2014 £000 |

| | 17,795 | 9,029 | 26,824 | 25,123 |

The Group employs a building block approach in determining the long term rate of return on pension plan assets. Historical markets are studied and assets with higher volatility are assumed to generate higher returns consistent with widely accepted capital market principles. The overall expected rate of return on assets is derived by aggregating the expected return for each asset class over the actual asset allocation for each scheme as at 31 March 2016.

The actual return on scheme assets in the period was a gain of £1,512,000 (1 January 2014 to 30 December 2014: £5,988,000).
